

| | |
|---|-----|
| Introduction..... | 5 |
| Pawel Szewczyk | |
| Virtual reality and haptics in nanotechnology | 7 |
| Maria Pawłowa, Mykola Bereznenko | |
| Nanomodifiers “nanostructures” of clothing and textile materials | 15 |
| Alfred Blaszczyk, Katarzyna Rura, Daniela Gwiazdowska, Jan Jasiczak | |
| Silver nanoparticles as the antimicrobial additive to emulsion paint | 23 |
| Florian Domka, Ryszard Cierpiszewski, Anna Kłopotek | |
| Activity of soil microorganisms in the process of decontamination of areas contaminated with products of crude oil processing | 29 |
| Florian Domka, Magdalena Hofman, Dorota L. Wawrzak | |
| Intensification of the leaching process of chalcopyrite with the <i>Thiobacillus ferrooxidans</i> bacteria | 36 |
| Pasquale Giungato, Elisabetta Laiola | |
| Development of renewables in the Apulia region (Italy) and similarities with Polish case | 48 |
| Doru Alexandru Pleșea, Bogdan Onete, Smaranda Vișan | |
| Opportunities for Romania’s sustainable energetic development..... | 59 |
| Roberto Merli, Maria Claudia Lucchetti, Christian Ippolito | |
| The role of wind power in Europe considering the new EU energy strategy: technological, economic and social aspects | 71 |
| Karolina Assman, Krzysztof Melski, Natalia Czaja-Jagielska, Hieronim Kuberka, Michał Nowicki, Katarzyna Staszak | |
| Determination of impact and effect towards changes induced by the ionizing radiation on the properties of hydrobiodegradable copolyesters | 83 |
| Mariola Jastrzębska | |
| New glass reinforced polyester waste recycling technology | 92 |
| Marzenna Popek | |
| Investigation the coupled processes contributed to liquefaction and risk reduction activities | 102 |

| | |
|--|-----|
| Monika Łodyga, Ryszard Zieliński Rheological properties of several hair shampoos | 113 |
| Paulina Malinowska Algae extracts as active cosmetic ingredients..... | 123 |
| Tomasz Kalak, Ryszard Cierpiszewski Analysis of dynamic surface tension data for washing powders and surfactants mixed solutions at the water – air interface | 130 |
| Marian W. Sulek, Małgorzata Zięba, Anna Chojnacka Application of methylcellulose as an alternative viscosity regulator of foam baths containing silicone polyethers..... | 141 |
| Daria Wieczorek, Katarzyna Michocka, Katarzyna Staszak Properties of cocobetaine aqueous solutions | 148 |
| Marian W. Sulek, Katarzyna Pytlas Influence of the castor oil and its ethoxylated derivatives on quality of body lotions | 159 |
| Ewelina Kwaśna, Anna Cieszyńska, Ryszard Zieliński Antiradical activity of chamomile flowers extracts | 169 |
| Anna Cieszyńska, Katarzyna Michocka, Daria Wieczorek, Anna Wieloch Antioxidant activity of green tea available on the Polish market | 180 |
| Katarzyna Wybieralska, Natalia Skalska Acoustic environment and its effects on preschool children | 189 |
| Robert Sobczyński, Daria Wieczorek, Ryszard Zieliński Surface free energy of selected solids as evaluated by various methods..... | 199 |
| Marta Biegańska, Wojciech Kozak Practical applications of automatic identification systems exemplified by Polish hospitals | 208 |
| Wojciech Kozak, Marta Biegańska Elements of automatic identification system used in health care organizations..... | 215 |
| Christian Ippolito, Roberto Merli Benefits and limits of the application of RFID technologies to supply chain management. Evidence from the food industry..... | 225 |
| Renata Salerno-Koch Research on the evaluation of formaldehyde content in textiles | 238 |
