

ACKNOWLEDGMENTS

Monsieur, my friend and publisher of the French original, this book wouldn't exist.

Astrid von Busckist

I have only to thank Astrid von Busckist who made this book. The first biographical book is a conversation, in the course of which I learned a great deal about what I've written and not written, what I think and don't think. We both worked hard but a glance at each other's work reveals who worked harder. For this experience of bookmaking, I thank Astrid von Busckist, I will always be grateful.
