Benoît Rihoux and Charles C. Ragin

Why Compare? Why Configurational Comparative Methods?	xvii
Structure of This Book	xxi
How to Read This Book	xxii
Companion Readings	xxiii

1. Qualitative Comparative Analysis (QCA) as an Approach	1
---	----------

*Dirk Berg-Schlosser, Gisèle De Meur,
Benoît Rihoux, and Charles C. Ragin*

Locating QCA	1
Epistemological Foundations	1
“Small-N” Research and “Macro-Comparative” Analysis . . . and Beyond	3
Key Features and Assumptions of QCA	6
Cases and Theory	6
Causality, Complexity, and Parsimony	8
Modest Generalization	11
Data, Replicability, and Transparency	12
Five Types of Uses of QCA Techniques	15
Notes	17

2. Comparative Research Design: Case and Variable Selection	19
--	-----------

Dirk Berg-Schlosser and Gisèle De Meur

Case Selection	20
Outcome and Area of Homogeneity	20
The “Most Similar” Versus “Most Different” Systems Designs	21
Further Guidance for Case Selection	23
The Selection of Conditions	25
MSDO/MDSO: A Systematic Procedure for Matching Cases and Conditions	28
Notes	32

3. Crisp-Set Qualitative Comparative Analysis (csQCA) 33

Benoît Rihoux and Gisèle De Meur

The Foundation of Crisp-Set QCA: Boolean Algebra in a Nutshell	34
Step 1: Building a Dichotomous Data Table	39
Step 2: Constructing a "Truth Table"	44
Step 3: Resolving Contradictory Configurations	48
Step 4: Boolean Minimization	56
Minimization of the [1] Configurations (Without Logical Remainders)	57
Minimization of the [0] Configurations (Without Logical Remainders)	58
Step 5: Bringing in the "Logical Remainders" Cases	59
Why Logical Remainders Are Useful	59
Minimization of the [1] Outcome (With Logical Remainders)	60
Minimization of the [0] Outcome (With Logical Remainders)	61
Step 6: Interpretation	65
Notes	67

4. Multi-Value QCA (mvQCA) 69

Lasse Cronqvist and Dirk Berg-Schlösser

Why mvQCA?	
Some Problems in the csQCA Example	69
Further Limitations of Dichotomous Variables . . . and Why mvQCA	70
Differences Between mvQCA and csQCA	72
Notation in mvQCA	72
Minimization in mvQCA	74
Including Logical Remainders in the Minimization Rule	75
Deciding Threshold Values	76
Empirical Example: Lipset's Theory	78
Conclusion	83
Notes	85

5. Qualitative Comparative Analysis Using Fuzzy Sets (fsQCA) 87

Charles C. Ragin

Fuzzy Sets: A Brief Presentation	89
Fuzzy Sets Defined	89
Operations on Fuzzy Sets	94

Fuzzy Subsets	99
Using Crisp Truth Tables to Aid Fuzzy-Set Analysis	103
The Correspondence Between Vector	
Space Corners and Truth Table Rows	104
Specifying Frequency Thresholds for Fuzzy-Set Assessments	106
Assessing the Consistency of Fuzzy Subset Relations	107
Constructing the Truth Table	109
The Fuzzy-Set Analysis of Necessary Conditions	109
Application of the Procedure	111
Analysis With SURVIVED as the Outcome	111
Analysis With BREAKDOWN as the Outcome	115
Conclusion	119
Notes	120
6. A Commented Review of Applications	123
<i>Sakura Yamasaki and Benoît Rihoux</i>	
csQCA	123
Case Selection	124
Selection of Conditions	125
Threshold Setting (Dichotomization)	130
Dealing With Contradictory Configurations	132
Inclusion of Logical Remainders	135
Dealing With Contradictory Simplifying Assumptions	136
mvQCA	138
Fuzzy Sets	139
Hagan and Hansford-Bowles (2005): A Robust Application	139
Katz, Vom Hau, and Mahoney (2005):	
Fuzzy Sets Versus Regression	140
Jackson (2005): The Importance of Case Knowledge	141
Kogut, MacDuffie, and Ragin (2004): Informed	
Inclusion of "Simplifying Assumptions"	142
Gran (2003): Fuzzy Sets as a Typology-Building Tool	143
Conclusion	144
Notes	145
7. Addressing the Critiques of QCA	147
<i>Gisèle De Meur, Benoît Rihoux, and Sakura Yamasaki</i>	
The Dichotomization of Data	148
The Use of Non-Observed Cases (Logical Remainders)	152
Case Sensitivity	155
The Difficulty in Selecting Conditions	158

The Black Box Problem	159
The Temporality Problem	161
Conclusion: There Is No “Miracle Method”	164
Notes	165
8. Conclusions—The Way(s) Ahead	167
<i>Benoît Rihoux, Charles C. Ragin, Sakura Yamasaki, and Damien Bol</i>	
Mainstreaming “Good Practices” in Applications of QCA	167
Connecting the Different QCA Techniques	169
Connecting QCA Techniques and Other Qualitative and Quantitative Techniques	170
Pursuing Innovations	172
Engaging in Collective Research Efforts and Informed Methodological Debates	175
Appendix: Further Resources for Configurational Comparative Methods	179
Where to Find Further Information	179
Glossary	181
Note	184
References	185
Index	199
