About the CFA Investment Series	xvii
---------------------------------	------

## CHAPTER 1

### Overview of Equity Securities

Learning Outcomes	1
1. Introduction	1
2. Equity Securities in Global Financial Markets	2
3. Types and Characteristics of Equity Securities	8
3.1. Common Shares	9
3.2. Preference Shares	11
4. Private versus Public Equity Securities	13
5. Investing in Non-Domestic Equity Securities	15
5.1. Direct Investing	17
5.2. Depository Receipts	17
6. Risk and Return Characteristics of Equity Securities	21
6.1. Return Characteristics of Equity Securities	21
6.2. Risk of Equity Securities	22
7. Equity Securities and Company Value	23
7.1. Accounting Return on Equity	24
7.2. The Cost of Equity and Investors' Required Rates of Return	28
8. Summary	29
References	31
Practice Problems	31

## CHAPTER 2

### Introduction to Industry and Company Analysis

Learning Outcomes	35
1. Introduction	36
2. Uses of Industry Analysis	36

3.	Approaches to Identifying Similar Companies	37
3.1.	Products and/or Services Supplied	37
3.2.	Business-Cycle Sensitivities	38
3.3.	Statistical Similarities	39
4.	Industry Classification Systems	40
4.1.	Commercial Industry Classification Systems	40
4.2.	Governmental Industry Classification Systems	44
4.3.	Strengths and Weaknesses of Current Systems	45
4.4.	Constructing a Peer Group	46
5.	Describing and Analyzing an Industry	50
5.1.	Principles of Strategic Analysis	52
5.2.	External Influences on Industry Growth, Profitability, and Risk	70
6.	Company Analysis	77
6.1.	Elements That Should Be Covered in a Company Analysis	77
6.2.	Spreadsheet Modeling	80
7.	Summary	81
	References	84
	Practice Problems	84

## CHAPTER 3

### Equity Valuation: Concepts and Basic Tools 89

	Learning Outcomes	89
1.	Introduction	90
2.	Estimated Value and Market Price	90
3.	Major Categories of Equity Valuation Models	92
4.	Present Value Models: The Dividend Discount Model	94
4.1.	Dividends: Background for the Dividend Discount Model	94
4.2.	The Dividend Discount Model: Description	96
4.3.	Preferred Stock Valuation	100
4.4.	The Gordon Growth Model	103
4.5.	Multistage Dividend Discount Models	108
5.	Multiplier Models	112
5.1.	Relationships among Price Multiples, Present Value Models, and Fundamentals	112
5.2.	The Method of Comparables	116
5.3.	Illustration of a Valuation Based on Price Multiples	119
5.4.	Enterprise Value	121
6.	Asset-Based Valuation	123
7.	Summary	127
	References	129
	Practice Problems	129

## CHAPTER 4

### Equity Valuation: Applications and Processes 135

	Learning Outcomes	135
1.	Introduction	135
2.	Value Definitions and Valuation Applications	136
2.1.	What Is Value?	136
2.2.	Applications of Equity Valuation	139

3. The Valuation Process	141
3.1. Understanding the Business	142
3.2. Forecasting Company Performance	152
3.3. Selecting the Appropriate Valuation Model	153
3.4. Converting Forecasts to a Valuation	160
3.5. Applying the Valuation Conclusion: The Analyst's Role and Responsibilities	161
4. Communicating Valuation Results	163
4.1. Contents of a Research Report	163
4.2. Format of a Research Report	165
4.3. Research Reporting Responsibilities	166
5. Summary	168
References	169
Practice Problems	170

## CHAPTER 5

<b>Return Concepts</b>	<b>177</b>
Learning Outcomes	177
1. Introduction	177
2. Return Concepts	178
2.1. Holding Period Return	178
2.2. Realized and Expected (Holding Period) Returns	179
2.3. Required Return	179
2.4. Expected Return Estimates from Intrinsic Value Estimates	181
2.5. Discount Rate	183
2.6. Internal Rate of Return	183
3. The Equity Risk Premium	184
3.1. Historical Estimates	186
3.2. Forward-Looking Estimates	194
4. The Required Return on Equity	198
4.1. The Capital Asset Pricing Model	198
4.2. Multifactor Models	206
4.3. Build-Up Method Estimates of the Required Return on Equity	213
4.4. The Required Return on Equity: International Issues	217
5. The Weighted Average Cost of Capital	218
6. Discount Rate Selection in Relation to Cash Flows	220
7. Summary	220
References	222
Practice Problems	223

## CHAPTER 6

<b>Industry and Company Analysis</b>	<b>229</b>
Learning Outcomes	229
1. Introduction	230
2. Financial Modeling: An Overview	230
2.1. Income Statement Modeling: Revenue	230
2.2. Income Statement Modeling: Operating Costs	236

2.3.	Income Statement Modeling: Non-operating Costs	249
2.4.	Income Statement Modeling: Other Items	253
2.5.	Balance Sheet and Cash Flow Statement Modeling	254
2.6.	Scenario Analysis and Sensitivity Analysis	256
3.	The Impact of Competitive Factors on Prices and Costs	258
4.	Inflation and Deflation	266
4.1.	Sales Projections with Inflation and Deflation	267
4.2.	Cost Projections with Inflation and Deflation	272
5.	Technological Developments	274
6.	Long-Term Forecasting	285
	Case Study: Estimating Normalized Revenue	286
7.	Building a Model	291
7.1.	Industry Overview	291
7.2.	Company Overview	292
7.3.	Construction of Pro Forma Income Statement	293
7.4.	Construction of Pro Forma Cash Flow Statement and Balance Sheet	299
7.5.	Valuation Inputs	304
8.	Summary	305
	References	306
	Practice Problems	306

CHAPTER 7

<b>Discounted Dividend Valuation</b>		<b>313</b>
	Learning Outcomes	313
1.	Introduction	314
2.	Present Value Models	315
2.1.	Valuation Based on the Present Value of Future Cash Flows	315
2.2.	Streams of Expected Cash Flows	317
3.	The Dividend Discount Model	322
3.1.	The Expression for a Single Holding Period	323
3.2.	The Expression for Multiple Holding Periods	324
4.	The Gordon Growth Model	326
4.1.	The Gordon Growth Model Equation	326
4.2.	The Links Among Dividend Growth, Earnings Growth, and Value Appreciation in the Gordon Growth Model	334
4.3.	Share Repurchases	334
4.4.	The Implied Dividend Growth Rate	335
4.5.	The Present Value of Growth Opportunities	336
4.6.	Gordon Growth Model and the Price-to-Earnings Ratio	339
4.7.	Estimating a Required Return Using the Gordon Growth Model	341
4.8.	The Gordon Growth Model: Concluding Remarks	342
5.	Multistage Dividend Discount Models	342
5.1.	Two-Stage Dividend Discount Model	343
5.2.	Valuing a Non-Dividend-Paying Company	346
5.3.	The H-Model	347
5.4.	Three-Stage Dividend Discount Models	349

5.5. Spreadsheet (General) Modeling	354
5.6. Estimating a Required Return Using Any DDM	356
5.7. Multistage DDM: Concluding Remarks	357
6. The Financial Determinants of Growth Rates	358
6.1. Sustainable Growth Rate	358
6.2. Dividend Growth Rate, Retention Rate, and ROE Analysis	360
6.3. Financial Models and Dividends	363
7. Summary	365
References	367
Practice Problems	368

## CHAPTER 8

### Free Cash Flow Valuation 383

Learning Outcomes	383
1. Introduction to Free Cash Flows	384
2. FCFF and FCFE Valuation Approaches	385
2.1. Defining Free Cash Flow	385
2.2. Present Value of Free Cash Flow	386
2.3. Single-Stage (Constant-Growth) FCFF and FCFE Models	387
3. Forecasting Free Cash Flow	389
3.1. Computing FCFF from Net Income	389
3.2. Computing FCFF from the Statement of Cash Flows	393
3.3. Noncash Charges	394
3.4. Computing FCFE from FCFF	400
3.5. Finding FCFF and FCFE from EBIT or EBITDA	405
3.6. FCFF and FCFE on a Uses-of-Free-Cash-Flow Basis	407
3.7. Forecasting FCFF and FCFE	409
3.8. Other Issues in Free Cash Flow Analysis	414
4. Free Cash Flow Model Variations	419
4.1. An International Application of the Single-Stage Model	420
4.2. Sensitivity Analysis of FCFF and FCFE Valuations	421
4.3. Two-Stage Free Cash Flow Models	422
4.4. Three-Stage Growth Models	430
4.5. ESG Considerations in Free Cash Flow Models	431
5. Nonoperating Assets and Firm Value	436
6. Summary	436
References	438
Practice Problems	438

## CHAPTER 9

### Market-Based Valuation: Price and Enterprise Value Multiples 455

Learning Outcomes	455
1. Introduction	456
2. Price and Enterprise Value Multiples in Valuation	457
2.1. The Method of Comparables	457
2.2. The Method Based on Forecasted Fundamentals	459
3. Price Multiples	460
3.1. Price to Earnings	460

3.2.	Price to Book Value	492
3.3.	Price to Sales	503
3.4.	Price to Cash Flow	510
3.5.	Price to Dividends and Dividend Yield	515
4.	Enterprise Value Multiples	518
4.1.	Enterprise Value to EBITDA	519
4.2.	Other Enterprise Value Multiples	524
4.3.	Enterprise Value to Sales	525
4.4.	Price and Enterprise Value Multiples in a Comparable Analysis: Some Illustrative Data	526
5.	International Considerations When Using Multiples	528
6.	Momentum Valuation Indicators	529
7.	Valuation Indicators: Issues in Practice	535
7.1.	Averaging Multiples: The Harmonic Mean	535
7.2.	Using Multiple Valuation Indicators	537
8.	Summary	542
	References	544
	Practice Problems	546

## CHAPTER 10

<b>Residual Income Valuation</b>	<b>559</b>
Learning Outcomes	559
1. Introduction	560
2. Residual Income	560
2.1. The Use of Residual Income in Equity Valuation	563
2.2. Commercial Implementations	564
3. The Residual Income Model	565
3.1. The General Residual Income Model	568
3.2. Fundamental Determinants of Residual Income	573
3.3. Single-Stage Residual Income Valuation	574
3.4. Multistage Residual Income Valuation	575
4. Residual Income Valuation in Relation to Other Approaches	580
4.1. Strengths and Weaknesses of the Residual Income Model	582
4.2. Broad Guidelines for Using a Residual Income Model	583
5. Accounting and International Considerations	584
5.1. Violations of the Clean Surplus Relationship	585
5.2. Balance Sheet Adjustments for Fair Value	594
5.3. Intangible Assets	594
5.4. Nonrecurring Items	597
5.5. Other Aggressive Accounting Practices	598
5.6. International Considerations	598
6. Summary	599
References	601
Practice Problems	602

**CHAPTER 11**

<b>Private Company Valuation</b>	<b>611</b>
Learning Outcomes	611
1. Introduction	612
2. The Scope of Private Company Valuation	612
2.1. Private and Public Company Valuation: Similarities and Contrasts	612
2.2. Reasons for Performing Valuations	614
3. Definitions (Standards) of Value	616
4. Private Company Valuation Approaches	618
4.1. Earnings Normalization and Cash Flow Estimation Issues	619
4.2. Income Approach Methods of Private Company Valuation	625
4.3. Market Approach Methods of Private Company Valuation	635
4.4. Asset-Based Approach to Private Company Valuation	643
4.5. Valuation Discounts and Premiums	644
4.6. Business Valuation Standards and Practices	651
5. Summary	652
References	654
Practice Problems	654

<b>Glossary</b>	<b>661</b>
