About the Authors	xv
Acknowledgement	1
1 Introduction	3
2 Theoretical-Methodological Framework	9
Globalisation and Internationalisation	10
Increasing Linking of Internationalisation and Globalisation in HE.....	11
The Global Level Policies	13
The Global Level Factors of HE Internationalisation	14
EU Level Policies	17
The EU Level Factors of HE Internationalisation	25
National Level Policies	28
National Level Factors of HE Internationalisation	29
University Level Policies	32
University Level Factors of HE Internationalisation	37
International Financial and Economic Crisis	39
Research Model	40
Methodology	43
3 Comparative Case Study Background	45
Typology of Case Studies	45
Causality	46
Population of Cases and Characteristics Shared by All Population Cases	46

Temporal Boundaries of the Analysis	47
The Case Study Comparative Analysis	47
Types of Case Study Analyses	48
Generalisation Based on the Analysis of Results.....	48
Selection of Case Studies for Comparison and their Verification...	49
The Three Case Study Backgrounds	49
The Selected Method of Comparison	52
Research Methods and Techniques	53
4 Internationalisation of the Studied Universities	59
Increase of Cooperation among Countries	59
Quality Assurance System	60
International Mobility (Membership in the Erasmus programme).....	62
International Programmes (Membership in the Programme Horizon 2020)	64
A Comparative View.....	66
5 Characteristics of the University Level	69
Organisational and Governance Models of Universities	69
The Role of Strong University Leaders	75
Attitude of Universities Towards Internationalisation.....	76
Internationalisation as One Perspective of Globalisation (Foreign Language Policy, Mobility).....	79
6 University Level Factors of Internationalisation	83
Academic Norms, Values and Traditions	83
Level of Internal Cohesion.....	93
Strategic Orientation of Universities	96
Type of Universities with Regard to Their Priorities in Teaching and/or Research	105
7 Impact of Global Factors	109
Massification of Higher Education.....	109
The Spread of Knowledge as an Economic Paradigm	112
Global Rankings of Universities.....	114
Competitiveness.....	118
Development of Technology.....	120

8 Impact of Supranational EU Level Factors	129
Adaptation of the Guidelines of the HE Policy Created on the European Level (Implementation of the Bologna Process)	129
9 Impact of the International Financial and Economic Crisis.....	135
10 The National Level Factors	139
Tradition, Culture, and Historical Role of the State in Countries in which University Operates (Austria / Switzerland / Spain)	139
The Basic Paradigm of Higher Education	144
Political and Territorial Organisation of the Countries in which the universities operate.....	145
General Attitude towards Internationalisation Through the Use of Comparative Advantages of the National System of Higher Education	148
The Role of the State in the Higher Education Policy at the National Level.....	151
Policy of Higher Education at National Level in Relation to Policies in Other Areas	156
National Policy of Internationalisation in Higher Education as One of the Globalisation Influence Aspects	157
11 Comparison of Findings from Case Studies	173
12 Findings and Future Research Venues.....	179
A Synthetic Comment on Research Questions and Hypothesis ...	179
Comments on Main Research Questions.....	183
Comments on the Hypothesis.....	184
Additional Findings.....	185
Future Research Venues	192
References.....	195
Web-sites.....	213
Index	215
