

Writing in the practical, engaging style of the award-winning *Making Every Lesson Count*, Mark Enser maps out the key elements of effective geography teaching and shows teachers how to develop their students' conceptual and contextual understanding of the subject over time.

Making Every Geography Lesson Count is underpinned by six pedagogical principles – challenge, explanation, modelling, practice, feedback and questioning – that will help to ensure that students leave each lesson with an improved knowledge of the world, a better understanding of how it works and the geographical skills to support their learning.

In an age of educational quick fixes and ever-moving goalposts, this all-encompassing book offers an inspiring alternative to restrictive Ofsted-driven definitions of great teaching, and empowers geography teachers to deliver great lessons and celebrate high-quality practice.

Suitable for geography teachers of students aged 11–18 years.

A must-read for any geography teacher, experienced or novice, as well for those charged with training our next generation of teachers.

**Andy Buck, CEO, Leadership Matters,
Honorary Vice President, Geographical Association**

If you weren't already in love with geography before reading this book, you will be by the time you finish it.

**Mary Myatt, education adviser, writer and author
of *Curriculum: Gallimaufry to Coherence***

Put away the colouring pencils, this book has everything you need to make every geography lesson count!

Mark Enser has been teaching geography for fourteen years and is currently a head of department at Heathfield Community College. He contributes articles to *TES* and to the *Guardian* Teacher Network and often speaks at education conferences. Mark also writes a blog called *Teaching It Real* and tweets @EnserMark. The rest of the time he spends reading, drinking coffee and running in the hills.
