

Sekcia I: Aplikovaná biológia/Applied Biology

Béresová, S., Hlebová, M., Raabová, L.

Effect of caffeine on the species *Euglena gracilis*

5

Čimma, T., Ťurgeová, E.

Antibacterial effects of essential oils containing caryophyllene

7

Forgáčová, G., Kopecká, I., Uváčková, Ľ.

Histological and cytological diagnostics of malignant lung tumors

9

Frčová, P., Mrkvová, M.

Selection of plants from the family (*Fabaceae*) for drought resistance

11

Haššová, D., Konečný, M.

Analysis of DNA markers associated with dental diseases

13

Horák, M., Vešelényiová, D., Mateašík, A., Krajčovič, J.

Study of the influence of the absence of functional chloroplasts on the motility of *Euglena gracilis* strains

15

Hruščová, M., Hlebová, M.

The effect of essential oils on the growth of selected species of the genus *Aspergillus* in/on coffee beans

17

Jedlička, A., Vešelényiová, D., Krajčovič, J.

The question of sexual reproduction in euglenoid flagellates

19

Korytska, A., Uváčková, Ľ.

Comparison of two protein extraction methods of barley seeds

21

Kozáčíková, R., Vešelényiová, D., Krajčovič, J.

Preparation of new white mutants of *Euglena gracilis* and their characterization using microscopy and molecular-biological methods

23

Krosnerová, A., Bardáčová, M., Matušíková, I.

Antioxidant mechanisms and their involvement in defense against heavy metals

25

Kuksa, K., Seman, M.

Psychrophilic microbiota of Little Carpathian springs in the Bratislava

27

Lešková, T., Raabová, L.

Identification of cyanobacteria from selected biotopes

29

Poláček, A., Janeček, Š.

Potential amyolytic enzymes of the GH57 family with incomplete catalytic machinery in *Archaea* 31

Uzsáková, V., Hlebová, M.

Antifungal activity of selected species of the genus *Bacillus* 33

Sekcia II: Aplikovaná chémia/Applied Chemistry

Bielková, Z., Rajnák, C., Titiš, J., Moncol', J.

Preparation and characterisation of supramolecular structures 37

Červeňáková, M., Sokol, J., Fabianová, A.

Effect of carnosine on 5-fluorouracil-resistant HCT116 colorectal carcinoma cells 39

Kabaňová, N., Andicsová-Eckstein, A., Tokárová, Z.

Mononuclear pentacoordinate Fe(III) complexes as a potential single-ion magnets 41

Pavlovská, R., Gašparová, R.

Study of biological activity of new benzopyran derivatives 43

Tejkal, Š., Rajnák, C.

Synthesis and characterisation of Ni(II) and Co(II) complexes based on aromatic heterocyclic ligands 45

Sekcia III: Biotechnológia/Biotechnology

Banski, A., Lančaričová, A.

Analysis of nonpolar lipids in poppy seeds (*Papaver somniferum* L.) 49

Dieová, V., Legerská, B., Chmelová, D., Ondrejovič, M.

Removal of azo dyes by laccase-mediator system produced by white-rot fungus *Pleurotus ostreatus* 51

Dolníková, S., Mihálik, D.

Cloning of the diacyl-glycerol acetyltransferase (DAct) gene into a binary vector, preparation of transgenic *Agrobacterium tumefaciens* and transformation of dicotyledonous plants 53

Hvolková, R., Bardáčová, M., Matušíková, I.

Chitinases in the carnivorous cape sundew (*Droseraceae*) 55

Juríková, S., Legerská, B., Chmelová, D., Ondrejovič, M.

Production of polyhydroxyalkanoates by the bacteria *Pseudomonas oleovorans* 57

- Kováčsová, B., Havrlentová, M., Nemeček, P.**
The influence of pathogenic microorganisms of *Fusarium* on selected primary metabolites in grains of oat (*Avena sativa* L.) 59
- Marušáková, D., Ondrejovič, M.**
The effect of yeast on the sensory profile of fruit distillates 61
- Pintér, Š., Gavurníková, S.**
Thechnological and nutrition quality of emmer wheat (*Triticum turgidum* subsp. *dicoccum*) 63
- Sokolík, M., Rafay, J.**
Candidate genes in selection for rabbit meat utility 65
- Sopúchová, D., Bardáčová, M., Matušíková, I.**
DNA-cleaving enzymes in the carnivorous cape sundew (*Droseraceae*) 67
- Vasiľová, M. M., Rafay, J.**
Effectiveness of estrus stimulation by means of biological methods in broiler rabbit breeding conditions 69
