

Interpreting Bone Lesions and Pathology for Forensic Practice

Lucie Biehler-Gomez and Cristina Cattaneo

Interpreting Bone Lesions and Pathology for Forensic Practice presents a concise description of the necessary steps for the differential diagnosis of disease and healed trauma on skeletal remains. Information obtained from the pathological reactions of bone can be fundamental for forensic dilemmas ranging from identification to understanding trauma. The authors aim to provide reliable tools for the appropriate interpretation of lesions on bone through macroscopic, radiological, histological, and biomolecular analyses on skeletal remains.

KEY FEATURES

- Provides tools for the proper interpretation of bone pathology and lesions
- Content is based on modern and documented case studies
- Includes bone pathological reactions, crucial for interpreting trauma

ABOUT THE AUTHORS

Lucie Biehler-Gomez, PhD

Post-Doctorate Fellow in Biological and Forensic Anthropology, LABANOF (Laboratorio di Antropologia e Odontologia Forense), Department of Biomedical Sciences for Health, University of Milan, Milan, Italy

Cristina Cattaneo, MD, PhD

Full Professor of Legal Medicine and Anthropology, LABANOF (Laboratorio di Antropologia e Odontologia Forense), Institute of Legal Medicine, Department of Biomedical Sciences for Health, University of Milan, Milan, Italy

About the Authors	ix
About the Contributors.....	xi
Foreword	xv
Foreword	xvii
Preface.....	xix
Acknowledgments.....	xxi

Chapter 1 The Study of Bone Disease: Principles and Application to Forensics1

Lucie Biehler-Gomez and Cristina Cattaneo

The Potential of Bone Disease in Forensic Sciences	1
Principles of Bone Disease Diagnosis	5
The Foundation: Describing Bone Disease.....	9
A Proposed Framework for Diagnosis in Forensic Anthropology.....	13
Known Collections: the Way Forward?.....	14
References.....	20

Chapter 2 Bone Homeostasis and Mechanisms27

Lucie Biehler-Gomez and Cristina Cattaneo

What is Bone?.....	27
Bone Modeling and Remodeling	28
Loss of Equilibrium	30
Bone Response to Insult	31
References.....	37

Chapter 3 Infectious Diseases: Non-Specific and Specific Infections39

Lucie Biehler-Gomez and Cristina Cattaneo

Inflammation Versus Infection	39
Non-Specific Infections.....	40
The Big Three: Tuberculosis, Syphilis, and Leprosy.....	42
Fungal Diseases	55

Parasitic Infections.....	55
Viral Infections	57
References.....	60

Chapter 4 Indicators of Stress: Metabolic and Endocrine Disorders69

Lucie Biehler-Gomez and Cristina Cattaneo

Anemia	69
Vitamin D Deficiency	72
Vitamin C Deficiency	76
Pellagra.....	78
Diabetes Mellitus.....	79
Paget's Disease	81
Endocrine Diseases	83
Markers of Non-Mechanical Stress	85
References.....	87

Chapter 5 Diseases of Joints.....93

Lucie Biehler-Gomez and Cristina Cattaneo

Osteoarthrosis or Degenerative Joint Disease.....	93
Erosive Osteoarthritis	98
Septic Arthritis.....	101
Rheumatoid Arthritis	102
Spondyloarthropathies.....	107
Diffuse Idiopathic Skeletal Hyperostosis	113
Gouty Arthritis.....	115
Neuropathic Arthropathy	118
References.....	123

Chapter 6 Neoplastic Diseases.....129

*Lucie Biehler-Gomez, Francesco Sardanelli
and Cristina Cattaneo*

Tumors, Neoplasms, and Cancers	129
Antiquity of Cancer	132
Leukemia.....	133
Multiple Myeloma.....	135
Metastatic Bone Disease.....	138
Bone Metastases	140
Diagnosis and Differential Diagnosis	150

Primary Organ Identification.....	154
References.....	156
Chapter 7 Calcified Residues of Soft Tissue Disease.....	163
<i>Lucie Biehler-Gomez, Emanuela Maderna and Cristina Cattaneo</i>	
The Importance of Non-Skeletal Material.....	163
Physiological Ossifications or Calcification: Ossified Cartilage	164
Traumatic Calcifications: Heterotopic Ossification	168
Neoplastic Calcifications	171
Infectious Calcifications.....	172
Biological Stones	173
Vascular Calcifications	174
Other Biological Calcifications	179
References.....	184
Chapter 8 Trauma	189
<i>Annalisa Capella, Debora Mazzarelli, Carmelo Messina and Cristina Cattaneo</i>	
Timing of Bone Fractures.....	190
Distinguishing Perimortem and Postmortem Trauma	191
Antemortem Trauma	194
Bone Healing Process	195
Dating Fractures and Calluses.....	201
Perimortem Fractures: Traces of Vital Reaction or "Vitality"	207
Case 1	211
Case 2	213
References.....	214
Chapter 9 Biological Profile and Personal Identification.....	219
<i>Debora Mazzarelli, Danilo De Angelis, Daniele Gibelli, Pasquale Poppa, Davide Porta, Lucie Biehler-Gomez and Cristina Cattaneo</i>	
Bone Disease for the Biological Profile	220
Bone Disease for Personal Identification	228
References.....	241

Chapter 10 The Challenge of Taphonomic Alterations.....245

*Lucie Biehler-Gomez, Mirko Mattia
and Cristina Cattaneo*

Taphonomic Alterations of Bone Disease	245
Taphonomic Lesions Mimicking Disease	250
Taphonomic Paradox: Supporting Bone Pathology.....	251
References.....	253

Chapter 11 Conclusions and the Future of Bone Pathology.....255

*Lucie Biehler-Gomez, Gaia Giordano,
Domenico Di Candia and Cristina Cattaneo*

Detection of Drugs	256
Detection of Heavy Metals.....	258
Future Perspectives	259
References.....	260

Index.....	263
