

Contents

Foreword.....	III
Contents	VII

KEYNOTE LECTURES

Shifting Performance Expectations: Net Positive Buildings	3
<i>Raymond J. Cole</i>	
Annex 57 – Evaluation of Embodied Energy and Carbon Dioxide Emissions for Building Construction.....	9
<i>Tatsuo Oka, Takao Sawachi</i>	
Waste or Resource? Thoughts about our Industrial Inheritance	13
<i>Rasmus Radach</i>	
The Life of Urban Forms.....	15
<i>Serge Salat</i>	
Development of Prefabricated Construction Products to Increase Use of Natural Materials.....	21
<i>Peter Walker, Andrew Thomson</i>	

SUSTAINABLE REFURBISHMENT OF EXISTING BUILDING STOCK

Costs and Life-Cycle Energy Optimization for a Low Energy Housing Renovation Actions.....	27
<i>Dhaker Abbes, André Martinez, Maxime Fantino</i>	
Assessment of Energy Performance Improvements in Already-Built Buildings.....	31
<i>Nataliya Anisimova</i>	
Refurbishment of a Historical Building – Design Issues	35
<i>Jaroslav Bakowski</i>	
Sustainable Retrofitting of Large Panel Prefabricated Concrete Residential Buildings	39
<i>Alexandru A. Botici, Viorel Ungureanu, Adrian Ciutina, Alexandru M. Botici, Dan Dubina</i>	
Heritage Buildings' Sustainability Assessment Framework.....	43
<i>Oget N. Cocen, Charalambos C. Baniotopoulos</i>	

Variability and Modularity for Envelope Retrofitting Strategies: A Comparative Evaluation of the Energy Performance for Multiple Design and Technical Solutions	47
<i>Elena Cattani, Annarita Ferrante, Luca Boiardi</i>	
Tight Integration of Existing Building Automation Control Systems for Improved Energy Management and Resource Utilisation	51
<i>Martin Floeck, Anett Schuelke, Mischa Schmidt, José Luis Hernández, Susana Martín Toral, César Valmaseda</i>	
Holistic Energy Renovation of Pre- and Postwar Apartment Blocks in Denmark...	55
<i>Marlene Hagen Eriksen, Carsten Rode, Søren Peter Bjarlov</i>	
Volumetric Additions for Sustainable Refurbishment of Residential Buildings: From Theory to Practice	59
<i>Jacopo Gaspari, Ernesto Antonini, Andrea Boeri, Danila Longo</i>	
Building Envelope Implementation in a Refurbishment Case Study in the Venice Hinterland.....	63
<i>Jacopo Gaspari, Elena Giacomello</i>	
Use of Composite Timber-Concrete Structure while Timber Floor Reconstruction in Existing Buildings	67
<i>Hana Hasníková, Petr Kuklík</i>	
Assessing the Generality and Adaptability of Building Layouts Using Justified Plan Graphs and Weighted Graphs: A Proof of Concept	71
<i>Pieter Herthogs, Niels De Temmerman, Yves De Weerd</i>	
New Possibilities of Increasing Resistance of Wood Beamed Ceilings	75
<i>David Horák, Ivana Svaríková</i>	
The Existing Building Challenge & CONCERTO	79
<i>Andrea Immendoerfer, Julianne Joerissen, Klaus-Rainer Bräutigam, Volker Stelzer</i>	
Problems of Contemporary Rebuilding of Rural Public Area (Urban-Architectural Analysis as a Necessary Basis for the Next Development) ...	83
<i>Jan Kašpar</i>	
System Defects of External Claddings for Residential Housing Implemented in the Area Affected by Industrial Activities	87
<i>Darja Kubečková, Markéta Černá, Barbora Součková</i>	
The Implementation of the Principles of Sustainable Development in the Residential Buildings of Big Housing Estates from The Socialist Period	91
<i>Beata Kucharczyk-Brus</i>	
Protection of Historic Buildings against Fire.....	95
<i>Václav Kupílik, Marek Pokorný, Petr Hejtmánek</i>	

The Effects of Different Renovation Measures on the Energy Consumption of Suburban Concrete Block of Flats	99
<i>Jukka Lahdensivu, Sanna Boström, Ulrika Uotila</i>	
Integrated Approach for Sustainable Refurbishment of Public Buildings in Austria: The Bigmodern-Project	103
<i>Klemens Leutgöb, Dirk Jäger</i>	
The Future of Red Vienna. Portfolio Approach to Building Stocks	107
<i>Maja Lorbek, Iva Kovacic, Michael Höflinger</i>	
Centre of Low-Energy Buildings in Pisek – A Case Study for NZEB	111
<i>Tomáš Matuška, Miloš Lain, Vladimír Zmrhal</i>	
Refurbishment of a Dwelling House, Protected as Local Monument, regarding the “Sustainable House” Concept	115
<i>Péter Medgyasszay</i>	
Renovation of an Existing Town House B14 into Energy Autonomous Building, Wels (Upper Austria)	119
<i>Kateřina Mertenová, Heinz Plöderl, Martin Augustin</i>	
The Performance of Eco-Refurbished Housing under Current and Future UK Climates	123
<i>Haniyeh Mohammadpourkarbasi, Steve Sharples</i>	
The Sustainable Management of the Historical Buildings	127
<i>Marco Morandotti, Daniela Besana, Valentina Cinieri</i>	
Research of Refurbishment and Developmental Strategy of Great Housing Estates from the “Communism Period” in Poland on Selected Examples	131
<i>Elżbieta Niezabitowska, Marek Niezabitowski</i>	
New Challenging Approach for Analysis and Upgrading of Massive Building Structure: Case Study of New Belgrade Post-War Mega Blocks	135
<i>Jelena Nikolic</i>	
Energy Saving by Adding a Glass-Façade to a Brick Building	139
<i>Birgitta Nordquist, Stefan Elfborg, Adnan Vrbanjac, Petter Wallentén, Johan Stein</i>	
Report on Actual Problems of Flat Roofs with Reconstruction Design	143
<i>Jozef Olah, Michal Bartko, Stanislav Sutliak</i>	
Optimization of the Refurbishment of the Envelope throughout its Life Cycle....	147
<i>Xabat Oregi Isasi, Patxi Hernandez Iñarra, Cristina Gazulla Santos, Eneko Arrizabalaga Uriarte</i>	
Spatial Quality Indicators for Energy Renovation of Residential Buildings.....	151
<i>Fernanda Pacheco, Annemie Wyckmans</i>	

Re-Design for Change: Towards Dynamic and Sustainable Residential Buildings.....	155
<i>Anne Paduart, Niels De Temmerman</i>	
Plus Energy in Refurbishment – Proof of Concept.....	159
<i>A. Passer, H. Kreiner, T. Halder, K. Höfler</i>	
Refurbishment of Moist Building Masonry in Terms of Sustainable Building	163
<i>Jiří Pazderka, Radek Zigler</i>	
The Energy and Environmental Requalification of Post-War Housing: Problematics and Innovative Solutions for the Building Envelope	167
<i>Deborah Pennestri</i>	
Village Centre Internal Resources Used for New Development	171
<i>Zuzana Pešková</i>	
Refurbishment of an Industrial Estate into Housing Complex in Belgrade: Economic and Environmental Aspects.....	175
<i>Bojana Stanković, Milutin Miljuš, Stefan Spasojević, Aleksandra Krstić-Furundžić</i>	
Refurbishment of Cultural Heritage Building Stock, Examples of Sustainable Modernizations “Contemporary Additions to Old Buildings”	179
<i>Mine Tanac Zeren</i>	
Integrated Strategies for Retrofitting Buildings to Reduce Primary Energy Use, GHG Emissions and Costs	183
<i>Vioel Ungureanu, Alexandru A. Botici, Roman Bolliger, Walter Ott, Ludovic Fulop, Martin Jakob, Hristina Stoycheva Chobanova, Bernadett Kiss, Davide Maneschi, Mette Mosgaard, Arne Remmen</i>	
Innovative Design Tools for Sustainable Refurbishment of Large Building Complexes	187
<i>Nadia Villa, Carlo Filippo Bonacina, Manuela Grecchi, Giuliana Iannaccone, Laura Malighetti, Emilio Pizzi, Matteo Ruta</i>	
Model of Building Stock Refurbishment Financing	191
<i>Dalibor Vytlačil</i>	
A Study of Cultural Center Facilities Management in Taiwan.....	195
<i>Mei Fang Wu, Rong-Ping Lai</i>	
Definition of a New Design Process for the Reuse of Monumental Buildings.....	199
<i>Esra Yaldiz, N. Gül Asatekin</i>	
Sustainability as an Evaluation Criterion of Converted Performance Spaces	203
<i>Ozgul Yilmaz Karaman, Tugba Saricaoglu</i>	
Innovative Façade Refurbishment with Integrated Air Ducting for the Existing Building Stock.....	207
<i>Matthias Ziegler, Michael Krause</i>	

INDUSTRIAL HERITAGE REGENERATION

The Evolution of the Konya Train Station in Historical Development	213
<i>H. Derya Arslan</i>	
New Forms of Education in Abandoned Buildings – Reuse of Existing Infrastructure	217
<i>Małgorzata Balcer-Zgraja</i>	
Dynamite Factories – Key to a Successful Regeneration.....	221
<i>Nina Bartošová</i>	
Industrial Heritage of North Bohemian Cities – Unrecognized Opportunity	225
<i>Lenka Burgerová, Jan Hanzlík</i>	
Criteria for the Sustainable Re-Use of Disused Industrial Buildings in the North-East of Italy	229
<i>Mauro Caini, Rossana Paparella</i>	
Analysis of the Modern Typology and Classification of Industrial Architecture in European Urbanized Cities	233
<i>Oleg Fetisov</i>	
Industrial Heritage in Urban Context.....	237
<i>Jana Horická</i>	
Industrial Heritage Regeneration. Way of Old Industry Identity	241
<i>Ján Ilkovič, Ľubica Ilkovičová</i>	
Between Ruin and Reusing.....	245
<i>Tomas Med</i>	
Industrial Heritage: Realising the Value of our Historic Assets	249
<i>Miles Oglethorpe</i>	
Strategic Monitoring as an Opportunity to Preserve Cultural Heritage Exemplified by the Track Harp and Historically Significant Technical Monuments in Front of Leipzig Main Station, Germany.....	253
<i>Burkhard Pahl</i>	
Strategies of Regeneration of Former Mining Sites in Romania	257
<i>Gabriela Pascu, Jacqueline Bayon, T. O. Gheorghiu</i>	
Erih Strategy for Industrial Heritage Tourism	261
<i>Massimo Preite</i>	
Typological Analysis of Unused Brewery Grounds in Terms of Ability to Re-Use..	263
<i>Jan Pustějovský</i>	
Second Hand Architecture – A Paradigm for Useful Industrial Remains	267
<i>Miguel Angelo Soares Pinto da Silva</i>	

Sustainable Development in between a Stage Set of Industrial Heritage	271
<i>Michal Sourek</i>	
Industrial Heritage in the Landscape of the Upper Silesian Agglomeration	275
<i>Anna Sulimowska-Ociepka</i>	
Railway Station Revitalisations – World Examples	279
<i>Zdeněk Šimoník</i>	
Adaptive Re-Use Example of an Industrial Heritage Building “Izmir Gas Plant Building”	283
<i>Mine Tanac Zeren</i>	
Challenges in Industrial Heritage Tourism Planning and Development: Beer Routes through Vojvodina	287
<i>Anica Tufegdzie</i>	
Sustainable Valorisation of the Network of Hydropower Plants of Italian Alpine Valleys	291
<i>Francesca Turri, Emanuele Zamperini</i>	
New Functions of the Old Factory Chimneys	295
<i>Martin Vonka</i>	

LOW-TECH AND HIGH-TECH MATERIALS AND TECHNOLOGIES FOR SUSTAINABLE BUILDINGS

Use of Plastic Material for Providing Thermal and Acoustics Comforts in Residence Constructed with RC Tunnel Form System	301
<i>M. Hakan Arslan, H. Derya Arslan</i>	
Wooden Houses Compared with Alternative Material Version	305
<i>Silvia Baďurová, Pavol Ďurica</i>	
Chap-Yt – Recycled Aerated Concrete Aggregates in Traditional Screed for Flooring	309
<i>Luc Boehme</i>	
Assessment of Fine Recycled Concrete Aggregate in Cement-Based Flowscreed ...	313
<i>Luc Boehme, Iveta Nováková, Adam Hubáček</i>	
Assessment of Water Reducing Admixture in Concrete with Recycled Aggregates	317
<i>Luc Boehme, Miquel Joseph, Tom Anseele, Simon Verstraete</i>	
Use of the Residual Binding of Young Recycled Concrete in new Concrete Mixtures	321
<i>Luc Boehme, Miquel Joseph, Maxim Simons, Jens Verduyn</i>	

Experimental and Numerical Study into Solar Air Collectors with Integrated Latent Heat Thermal Storage	325
<i>Pavel Charvat, Lubomir Klimes, Ondrej Pech</i>	
The Study on Sound Reduction in Window Type of Variable-Volume Resonant Silencers	329
<i>Wen-Sung Chu, Rong-Ping Lai</i>	
New Generation Window Glazing and Other Solution in Low Energy Buildings..	333
<i>Małgorzata Fedorczak-Cisak, Marcin Radoń</i>	
Modeling of RC Precast Composite Beams Made of Recycled Aggregate Concrete Strengthened by HSC Inserts	337
<i>Robert Grygo, Andrzej Lapko, Tadeusz Chyży</i>	
Integrated Research for Sustainable Building	341
<i>Petr Hájek, Antonín Lupíšek, Jan Tywoniak, Magdaléna Novotná, Ctislav Fiala</i>	
Sustainability Analysis for the Recycling of Masonry	345
<i>Tristan Herbst, Sarah Schneider, Liane Prediger, Georg Flassenberg</i>	
The Use of Boards from Recycled Laminated Cartons in the Building Envelope..	349
<i>Richard Hlaváč, Zuzana Rácová, Pavla Ryparová, Pavel Tesárek, Jan Mukařovský</i>	
Mechanical Properties of High Temperature Resistance Concrete	353
<i>Ondřej Holčápek, Pavel Reiterman, Eva Vejmelková, Petr Konvalinka</i>	
Effect of Concrete Cover on Developing Lengths of FRP Bars	357
<i>David Horak, Frantisek Girgle, Petr Štěpánek</i>	
Experimental Air Ground Heat Exchanger – Operating Experience and its Use in a Teaching of an Environmental Engineering.....	361
<i>Michal Jaroš, Antonín Kolbáček, Zdeněk Musil</i>	
New Composite Gypsum-Waste Rubber from Pipe Foam Insulation: Characterization.....	365
<i>Ana Jiménez Rivero, Ana de Guzmán Báez, Justo García Navarro</i>	
From High-Tech to High-Quality and Low-Tech – The Sustainable Potential of Earth as a Building Material	369
<i>Stephan Jörchel</i>	
Volcanic Ash, Metakaolin and Ordinary Portland Cement Blends in Concrete Production	373
<i>Edmund John Kamang, Ijeko Mildred Oyemogum, Frank W. Ndamusa</i>	
Hygro-Thermal Performance of Imperfectly Protected Below-Grade Walls with Interior Insulation – Some Test Results.....	377
<i>Bohumil Kasal, Brian Wolfgang</i>	

Municipal Solid Waste Incineration Fly Ash as Supplementary Cementitious Material	381
<i>Martin Keppert, Zbyšek Pavlík, Milena Pavlíková, Jan Fořt, Anton Trník, Jaromír Žumár, Robert Černý</i>	
Development of UHPC from Materials Available in Czech Republic	385
<i>Jiri Kolisko, Petr Hunka, Milan Rydval, Michaela Kostecká</i>	
Local Heating of Thermal Weak Points	389
<i>Martin Krus, Sabrina Wurm</i>	
Internal and External Damages of Concrete with Poor Quality of Coarse Limestone Aggregate.....	393
<i>Eneli Liisma, Lembi-Merike Raado</i>	
Suitable Stabilisation Methods for Extruded Earth Masonry	397
<i>Daniel Maskell, Andrew Heath, Peter Walker</i>	
Solar Heat Pump System with Hybrid PVT Collectors for a Family House	401
<i>Tomáš Matuska, Bořivoj Šourek</i>	
Innovative Materials and Technologies for a New Envelope System in the Sustainable Refurbishment of Existing Building Stock.....	405
<i>Cecilia Mazzoli, Omar Fusco, Luca Guardigli, Riccardo Gulli</i>	
Impact of Air Leakage through Recessed Lighting Fixtures on the Energy Performance of Residential Buildings – A Case Study	409
<i>Ri Na, Shengmao Lin, Linxia Gu, Kevin Grosskopf, Zhigang Shen</i>	
Prefabricated Timber-Concrete Composite Floors.....	413
<i>Pavel Nechanický, Petr Kuklík</i>	
Impact of Chemical Injection Method on Dispersion of Injected Agents in Masonry	417
<i>Sarka Nenadalova, Lukas Balik, Jiri Kolisko</i>	
Environmental Soundness of Micro Mirror Based Active Windows.....	421
<i>Ulrich Neumann, Volker Viereck, Michael Hiete, Hartmut Hillmer</i>	
PET Bottle Structures Development in Collaborative Design Studio. A Collaborative Seminar Focused on Architects' Strategies in Sustainable Design Thinking.....	425
<i>Kateřina Nováková, Henri Achten</i>	
Precast Timber-Concrete Composite Floor Structures for Sustainable Buildings – Experimental Verification	429
<i>Magdaléna Novotná, Ctislav Fiala, Petr Hájek</i>	
Challenges in the Latent Heat Storage Technology for Building Applications	433
<i>Milan Ostrý, Tomáš Klubal, Roman Brzoň</i>	

Industry Response on the Use of Alternative Building Materials in the Nigerian Construction Industry.....	437
<i>Ijega Mildred Oyemogun, Dorcas O. Adeagbo, Josiah J. Marut</i>	
The Use of Nanomaterials as Protection of External Surfaces of Porous Building Materials.....	441
<i>Zuzana Ráčová, Richard Hlaváč, Jan Mukařovský, Václav Nežerka, Pavel Tesárek, Pavla Ryparová</i>	
Permeability Properties of Concrete with Metakaolin Addition	445
<i>Pavel Reiterman, Ondřej Holčápek, Martin Keppert, Karel Kolář, Petr Konvalinka</i>	
Prefabricated Rammed Earth Elements for Load Bearing Vertical Structures – Mechanical Properties and Environmental Benefits.....	449
<i>Jan Ruzicka, Filip Havlik</i>	
Preparation of Antimicrobial Treatment Interiors Using Nano Textiles.....	453
<i>Pavla Ryparová, Richard Wasserbauer, Pavel Tesárek, Zuzana Ráčová</i>	
Effect of Temperature on the Alkali Activation of Continuous Casting Stainless Steel Slag	457
<i>Muhammad Salman, Özlem Cizer, Yiannis Pontikes, Lucie Vandewalle, Bart Blanpain, Koen van Balen</i>	
A Case Study on Actors, Technology and their Communication for Better Distribution of Energy Use	461
<i>John E. Simensen, Guro Nereng, Andreas Brekke, Anne Rønning</i>	
Comparison of Environmental Impacts – Structural Elements from Secondary Raw Materials vs. Common Building Materials	465
<i>Karel Struhala, Zuzana Stránská, Libor Matějka, Jan Pěňčík</i>	
Computation of HCLPF Parameters for 3D Shell Modelled RC Structures – Seismic Certificate	469
<i>Július Šoltész, Miroslav Ignačák</i>	
Optimized Design of Concrete Structures with Regard to Environmental Aspects.....	473
<i>Petr Štěpánek, Ivana Laníková, Petr Šimůnek</i>	
Application of Natural Zeolite as Supplementary Cementitious Material in Concrete Production	477
<i>Eva Vejmelková, Tereza Kulovaná, Michal Ondráček, Robert Černý</i>	
Cost-Effectiveness of Applying Energy Efficient Bat Building Envelopes in Poland	481
<i>Aldona W. Wasilewska, Robert Geryło, Barbara L. Pietruszka</i>	
Dismantleable Joints with Controlled Properties of a Prefabricated Reinforced Concrete Building System.....	485
<i>Jiří Witzany, Tomáš Čejka, Radek Zigler</i>	

Reviving Earthen Architecture in the Jordan Valley towards Adequate Housing for Marginalized Communities.....	489
<i>Marwa Yousef Tina, Giovanni Fontana Antonelli</i>	
Effect of Fire on FRP Reinforced Concrete Structures	493
<i>Martin Zlámal, Anna Kučerová, Petr Štěpánek</i>	

INTEGRATED BUILDING DESIGN

BIM: Interoperability for Sustainability Analysis in Construction.....	499
<i>Lukasz Wojciech Adamus</i>	
Visual and Acoustic Adaptability in Architecture	503
<i>Carlos Alonso, Antonio Isalgue, Helena Coch, Massimo Palme</i>	
Optimal Design Parameters of the Blinds Integrated Photovoltaic Modules Based on Energy Efficiency and Visual Comfort Assessments	507
<i>Wassim Bahr</i>	
Natural Physical Cavities and Development of Renewable and Sustainable Energy Technologies.....	511
<i>Boris Bielek, Milan Bielek, Juraj Hireš</i>	
Design of an Environmentally Sustainable Business and Cultural Centre for Indigenous People in Yarrabah Community, Australia	515
<i>Steve Burroughs</i>	
Indoor and Outdoor Spaces Design Quality and its Contribution to Sustainable Hospital Buildings	519
<i>Maria de Fátima Castro, Ricardo Mateus, Luís Bragança</i>	
Architecture: Concept, Form and Aesthetics from the Perspective of Sustainability	523
<i>Martin Čeněk</i>	
Designing “Sustainable Houses” before the Establishment of this Concept.....	527
<i>Leônidas Albano Da Silva Junior, Marta Adriana Bustos Romero, Alberto Hernandez Neto</i>	
Performance of Ventilation Systems in a Day-Care Centre	531
<i>Ann-Marie Ejlerstsson, Birgitta Nordquist</i>	
School of the Future – Towards Zero Emission with High Performance Indoor Environment	535
<i>Heike Erhorn-Kluttig, Hans Erhorn, Simone Steiger</i>	
Energy Efficient Building in the Context of Development Strategy of Malopolska	539
<i>Małgorzata Fedorczak-Cisak, Marcin Furtak</i>	

Indoor Air Quality in Small Doctor's Offices in Poland	543
<i>Katarzyna Gładyszewska-Fiedoruk, Dorota Anna Krawczyk</i>	
The Role of Building Enclosure Air Tightness on the Life Cycle Cost Assessments: A Case Study of a Medical Facility in Michigan	547
<i>Guiyuan Han, Elena Enache-Pommer, Jelena Srebric</i>	
Integral Design in Context of the U.S. Department of Energy Solar Decathlon ...	551
<i>Dalibor Hlaváček</i>	
Energy Consumption in Small Doctor's Offices in Poland	555
<i>Dorota Anna Krawczyk, Katarzyna Gładyszewska-Fiedoruk</i>	
An Ontology Driven BIM Components Repository: A New Way to Share BIM Components	559
<i>Vojtěch Kusý</i>	
Interplay Climate-Human-Building: User-Friendly Planning Tools for New Challenges in Building.....	563
<i>Petra Liedl, Atila Novoselac, Barbara Brown Wilson, Matt Fajkus</i>	
"Sustainable House" Concept: Possibilities and Limits of Adaptation.....	567
<i>Péter Medgyasszay</i>	
Strategic Design Management for Sustainability: Process Governs Outcome.....	571
<i>Vera M. Novak</i>	
Airtightness Control during the Design and Construction of a Multi-Family Residential Passive Building	575
<i>Jiří Novák</i>	
Natural Light Monitoring and Sustainable Retrofit of Classrooms in Antofagasta, Chile.....	579
<i>Massimo Palme, Katerine Saldias Moreno, Carla Segovia Ramos</i>	
Specification and Assessment Criteria of Active Houses	583
<i>Carsten Rode, Kurt Emil Eriksen</i>	
AIR House – A Solar Decathlon Competition Prototype – In-Depth Energy Analyses as a Tool for a High-Quality Design.....	587
<i>Kateřina Sojková, Martin Volf, Dalibor Hlaváček</i>	
Energy Optimization of Office Building in Prague.....	591
<i>Jan Stašek, Tomáš Kupsa, Daniela Danešová, Hana Eisenbergerová</i>	
OB Prototype Design for Flexibility and Maintainability in Short-Term Social Housing	595
<i>Kung-Jen Tu, Shih-Kahn Chu</i>	
Stochastic Principles in Energy Demand Calculations.....	599
<i>Jan Tywoniak, Pavel Kopecký, Jan Antonín</i>	

- Transformability of Conventional and Dynamic Load Bearing Building Nodes... 603**
Mieke Vandenbroucke, Wim Debacker, Niels De Temmerman
- Energy Efficiency in the Context of Overall Building Performance Assessment... 607**
Andreas Wagner, Thomas Lützkendorf

DECISION-SUPPORT TOOLS AND ASSESSMENT METHODS

- Net-Zero Building Venture Capital Market: Current Opportunities and Emerging Trends for Entrepreneurial Companies 613**
Farrukh Arif, M.Emre Bayraktar, Irtishad U. Ahmad
- Kilometer Counter for Construction: KxK Proposal for an Indicator of Sustainability 617**
Adriana Ascaso-Moreno, Joan-Lluís Zamora-Mestre
- Environmental Product Declarations: How Transparent, Rigor and Useful are the Facts and Figures?..... 621**
Anna Braune, Adolf Merl, Johannes Kreißig, Sophie Kieselbach
- Post-Construction Review of Sustainable Housing for Indigenous People in the Remote Community of Nguu, Australia 625**
Steve Burroughs
- Knowledge-Based System for Documentation and Mitigation of Damages in Historical Structures..... 629**
Riccardo Cacciotti, Jaroslav Valach, Petr Kuneš, Martin Černanský
- Comparison of Material Compositions of Structures in Terms of Environmental and Energy Performance 633**
Monika Čuláková, Silvia Vilčeková
- OPEN HOUSE: Indicators for Sustainability of Buildings in Regard to Climate, Political, Social and Cultural Conditions 637**
Natalie Essig, Vincent Peyramale
- Methodology of Life-Cycle Assessment of RC Structures Using High Performance Concrete 641**
Čtislav Fiala, Magdaléna Novotná, Petr Hájek
