1	ABOUT AUTHOR.....	4
2	INTRODUCTION.....	5
3	THE NEXUS BETWEEN MACROECONOMIC DEVELOPMENT AND BUSINESS DEFAULT.....	6
3.1	The relationship between probability of default and macroeconomic conditions.....	6
3.2	The relationship between firm-level determinants of default and macroeconomic conditions.....	6
3.3	The application of macroeconomic factors in the course of predicting business default - the hazard model approach.....	7
3.4	Application of macroeconomic variables to the SME business segment in the course of default prediction.....	8
4	AIM OF THE WORK AND METHODOLOGY ADOPTED.....	9
4.1	Addressed research gaps.....	9
4.2	The Research hypotheses and their verification.....	10
4.2.1	<i>The form of the model and model versions.....</i>	12
4.2.2	<i>The procedure of estimating the model.....</i>	12
5	RESEARCH METHODS AND SAMPLES.....	13
5.1	Research sample.....	13
5.2	Firm-specific potential variables.....	13
5.3	Macro-economic potential variables.....	14
5.4	Classification methods used in default prediction model.....	16
6	THE MAIN RESULTS OF THE HABILITATION THESIS.....	18
6.1	Surviving times of small and medium companies.....	18
6.2	Initial step of deriving the hazard model - survival function comparison.....	18
6.3	Initial discrimination analysis.....	18
6.4	Estimating the models' coefficients.....	22
6.4.1	<i>Details of model 1 estimates.....</i>	22
6.4.2	<i>Details of model 2 estimates.....</i>	24
6.4.3	<i>Details of model 3 estimates.....</i>	25
6.5	Models for benchmark purposes.....	26
6.6	Models' testing results.....	27
6.7	The AUC values of the tested models.....	27
6.8	Comparing model 3 with the benchmarks.....	28
6.9	Comparing model 2 with the benchmark.....	29
6.10	Comparing model 1 with the benchmark.....	29
6.11	Comparing the derived models.....	30
7	CONTRIBUTION OF THE THESIS FROM A SCIENTIFIC, PRACTICAL, AND PEDAGOGICAL PERSPECTIVE.....	31
8	CONCLUSION.....	32
	REFERENCES USED IN HABILITATION THESIS SUMMARY.....	34
	ABSTRACT.....	37
	ABSTRAKT.....	38
	APPENDIX – LIST OF ABBREVIATIONS.....	39
