

INTRODUCTION	7
1. THE IDEA OF BUILDING TROLLEYBUSES IN ONE'S OWN WORKSHOPS – PROJECT PHASE	9
1.1. Choosing the coachwork (of a diesel engine bus)	9
1.2. Available drive solutions – choosing the type of drive	9
1.3. Documentation preparation phase	10
1.4. Preparation of the tight schedule of the investment	12
2. PROCESS OF FORMAL PREPARATION FOR CONVERSION	16
2.1. Administrative and technical requirements for the conversion of diesel engine buses into trolleybuses	16
2.2. Specification of arrangements and expert opinions	24
2.3. Examples of the varying requirements in the scope of trolleybus communication in European countries	24
3. PHASE OF CONVERTING A DIESEL ENGINE BUS INTO A TROLLEYBUS	25
3.1. Bus dismantling phase	25
3.2. Preparing the coachwork for building with an electric drive – endurance tests	25
3.3. Building a coachwork with an electric drive	26
3.3.1. Contactor drive – trolleybus MB O405NE	26
3.3.2. Chopper drive – trolleybuses MB O405NI	32
3.3.3. Asynchronous drive – trolleybus MB O405NAC	33
3.3.4. Asynchronous drive – trolleybus MB O530 Tr12/TV.EU	37
3.3.5. Asynchronous drive – trolleybus MB O530AC	38
3.4. Setting the trolleybus in motion, phase of stationary and movement tests ..	39
4. PROCESS OF TROLLEYBUS REGISTRATION	41
4.1. Trolleybus official certification tests conducted by authorised institutions .	41
4.2. Registration of a trolleybus as a vehicle with an electric drive	44

5.	EXPLOITATION EXPERIMENTS	45
5.1.	Exploitation experiments in Gdynia	45
5.1.1.	Failure frequency of electric drive elements	46
5.1.2.	Failure frequency of mechanical elements	47
5.2.	Exploitation experiments in Szeged	55
5.3.	Analysis of the strong and weak points of conversion	57
6.	ECONOMIC EVALUATION OF THE PROCESS OF CONVERSION BUSSES INTO TROLLEYBUSES BY PKT IN THE YEARS 2004–2010	58
6.1.	The background of economic evaluation	58
6.2.	Initial value of the converted and newly manufactured vehicles	58
6.3.	Duration of the conversion of the vehicles	62
6.4.	The relation of the initial value of the converted and brand new vehicles as a criterion for the economic evaluation of the process	62
6.5.	Conclusions on economic evaluation	64
	SUMMARY	66
