

CONTENTS

<i>Preface</i>	vii
<i>Acknowledgments</i>	ix
CHAPTER 1 Introduction to Alternate Fuels	1
CHAPTER 2 Fuel Properties and Combustion Theory	13
CHAPTER 3 Liquid Fuels from Biomass	37
CHAPTER 4 Biomass Combustion Equipment—Steam, Hot Oil, and Hot Gas	45
CHAPTER 5 Biomass Fuel Storage and Handling	95
CHAPTER 6 Cogeneration and Power Generation	125
CHAPTER 7 Emissions and Control	137
CHAPTER 8 Environment and Safety: Rules, Regulations, and Safe Practice	157
CHAPTER 9 Biomass Fuel Supply and Purchasing	171
CHAPTER 10 Fuel-Switching Feasibility Study Methodology	175
CHAPTER 11 Economic Analysis of Biomass Combustion Systems	183
CHAPTER 12 Biomass Fuel Processing Routes and Economics	191
CHAPTER 13 Biomass Fuel Processing Network	221
CHAPTER 14 Example Feasibility Study: Nonforest Products Facility	225
APPENDIX 1 Equipment Manufacturers/Vendors Listing	239
APPENDIX 2 State Forestry Commission Offices	247
APPENDIX 3 Glossary	253
INDEX	259
