

# CONTENT

God as Geometer.....	13
Exhibition .....	14
Measurement .....	19
<b>ASTRONOMICAL INSTRUMENTS.....</b>	<b>21</b>
Time Measurement.....	23
Sundials .....	25
How Time Is Measured? .....	26
A Story of Astronomy: Ladislaus Weinek and His Discovery of Polar Motion of the Earth.....	53
Astrometry.....	55
Astrometric Instruments .....	57
How to Determine the Speed of Light? .....	59
How to Determine the Distance of Stars?.....	61
A Story of Astronomy: The Brilliant Designer, Clockmaker, Mathematician and Astronomer Jost Bürgi .....	83
A Story of Astronomy: From the Prehistory of the Gravitational Lenses – How Albert Einstein Forgot His Prague Calculation from 1911 and How František Link Beat Him to Publication in 1936.....	85
Telescope and Observation Technology.....	88
Telescope .....	89
How Do Planets Move and What Are the Distances Between Them? .....	91
A Story of Astronomy: Blink Comparator – Help with Observing Changes in the Sky.....	93
A Story of Astronomy: Brahe and Kepler, the Famous Supernovas Observers.....	115
Navigation .....	117
Navigation Instruments.....	118
How Do We Orient Ourselves by Looking at the Sky?.....	120
What Do the Angular Distances Look Like? .....	122
A Story of Astronomy: Measuring Longitudes and Latitudes and a New Map of France .....	149

SURVEYING INSTRUMENTS.....	151
Angle Measurement.....	153
Instruments for Angle Measurement .....	155
How Are Measurements Done in Geodesy?.....	156
What Is the Shape and Dimension of Earth?.....	158
A Story of Surveying: The World's First Glass-Circle Theodolite .....	212
A Story of Surveying: The Tacheometers of Antonín Tichý.....	213
Height Measurement .....	215
Height Measuring Instruments.....	217
How Is a Map Drawn?.....	219
A Story of Surveying: Czechoslovakia's Geodetic Foundations.....	250
A Story of Surveying: Karel Kořistka and the Depiction of Terrain Relief .....	253
Distance Measurement.....	255
Instruments for Measuring Distance.....	256
How to Set Out a Building and Boundary Line? .....	258
A Story of Surveying: How to Send Geodesist to Prison .....	277
A Story of Surveying: František Nušl, the Designer and Constructor of Circumzenithal .....	278
Photogrammetry and Scanning.....	281
Photogrammetric Instruments and Scanners.....	282
How Do We Photograph and Scan the Earth?.....	284
A Story of Surveying: Father David, Explosions on Sněžka Mountain and Observatories in the Trees.....	298
DRAWING AND CALCULATING TOOLS.....	301
Drawing and Plotting Tools.....	302
Calculating Tools.....	304
How Is the Position of an Object on Earth Determined? .....	306
A Story of Surveying: Knowledge Doesn't Just Fall from the Sky... ..	333
CONCLUSION.....	334
Footnotes.....	337
Literature and Resources .....	344
About Authors.....	346
