

CONTENT

The Czech agriculture and its issues <i>Křen Jan, Dušková Soňa</i>	7
Review of methods for sustainability assessment in agriculture <i>Dušková Soňa, Křen Jan</i>	18
Sustainability management at farm scale – concept, operationalization and application <i>Siebrecht Norman, Wolfrum Sebastian, Hülsbergen Kurt-Jürgen</i>	29
Efficient biodiversity indicators in the context of sustainable agriculture – background, development and application <i>Wolfrum Sebastian, Siebrecht Norman, Hülsbergen Kurt-Jürgen</i>	39
Mainstreaming Biodiversity Conservation Into the Cocoa growing landscape in Southwestern Ghana <i>Awoitwe-Pratt Vincent</i>	49
Size structure of fields in production and less favored areas of the Czech Republic <i>Novák Jaroslav, Lukáš Vojtěch, Dušková Soňa, Křen Jan</i>	50
Climate change and crop production adaptation <i>Jolánkai Márton</i>	58
A water stress assessment survey based on the evapotranspiration balance of major field crop species <i>Fekete Ágnes</i>	68
Land suitability assessment models for crops <i>Durđević Boris, Vukadinović Vladimir, Jug Ivana, Vukadinović Vesna, Jug Danijel</i>	72
Phenomena of the climate extremes on agricultural soil – Mitigation steps <i>Birkás Márta</i>	80
Soil quality problems induced by extreme climate conditions <i>Pósa Barnabás</i>	91
Popularization of soil fertility control among landusers <i>Cyjetković Simsa, Komesarović Branka, Milena Andrišić, Daniel Rasić</i>	96
The roots of water and nutrient (P) efficiency <i>Kaul Hans-Peter, Bodner Gernot, Manschadi Ahmad M.</i>	101
Influence of sowing date (autumn vs. spring) on crop development, yield and yield structure of wheat and triticale <i>Hall Rea-Maria</i>	110
Facultative cropping of wheat in the context of the risks posed by pests, weeds and diseases <i>Wenda-Piesik Anna, Piesik Dariusz, Lemańczyk Grzegorz, Pańka Dariusz</i>	121

Productional and environmental efficiency of agro-practices applied in winter wheat monoculture <i>Kulpa Dariusz</i>	130
Effect of post-harvest cultivation using straw and bio-compounds in monoculture of winter wheat in aspect of wheat productiveness, soil quality and herbivorous insects <i>Walczak Dorota</i>	134
The role of precision agriculture in sustainable crop management <i>Lukas Vojtech, Neudert Lubomir, Kren Jan, Novak Jaroslav</i>	144
Environmental and yielding aspects of conversion to organic farming – a case study <i>Tyhurski Józef, Stalenga Jarosław, Kopiński Jerzy</i>	152
Status, perspectives and sustainability of cropping systems practices in Croatia <i>Jug Danijel</i>	158
Sustainability of agriculture in the most vulnerable areas of water management (Březová nad Svitavou) - the use of biological methods of evaluation <i>Plošek Lukáš, Záhora Jaroslav, Kintl Antonín, Elbl Jakub, Tůma Ivan, Hynš Jaroslav, Urbánková Olga</i>	167
