

# CONTENTS

<b>Preface</b>	<b>vii</b>	
<b>Acknowledgments</b>	<b>ix</b>	
<b>Chapter 1 People and Plants</b>	<b>1</b>	
1.1 Plants as the Material Basis for Human Culture	6	
1.2 Plants and People in Ancient Times	8	
1.3 Herbals and Medicinal Plants	10	
1.4 William Withering and Cardiac Drugs	11	
1.5 Linnaeus and Ethnobotany in Lapland	14	
1.6 Richard Evans Schultes and Ethnobotany in the Amazon	14	
1.7 Ethnobotany Today	16	
1.8 Discussion Questions	17	
Further Reading	18	
<b>Chapter 2 Plants That Heal</b>	<b>19</b>	
2.1 “Peruvian Bark” and the Discovery of Quinine	21	
2.2 A Successful Approach to Drug Discovery	24	
2.3 Ethnobotanists at Work in the Field	31	
2.4 Specialist Healers in Belize	35	
2.5 The Collection of Herbarium Specimens	36	
2.6 Isolation of an Anti-HIV Drug from a Samoan Tree	39	
2.7 Ethnobotany and the Future Discovery of Drugs	42	
2.8 Ethnobotanical Research and Traditional Health Care in Developing Countries	44	
2.9 Safeguarding Indigenous Intellectual Property Rights	47	
2.10 Discussion Questions	48	
Further Reading	49	
<b>Chapter 3 Plants That Harm</b>	<b>51</b>	
3.1 Plant Toxins in Literature	58	
3.2 The Case of the Assassin’s Umbrella	59	
3.3 From Murder Weapon to Parkinson’s Treatment	60	
3.4 From Ordeal Poison to Heroin Treatment	61	
3.5 Plants for Torture and Punishment	62	
3.6 Danger in the Backyard	62	
3.7 The Toxic Toilet Seat	63	
3.8 Some Enjoy While Others Die	64	
3.9 Agricultural Toxins	64	
3.10 Toxicity from a Dietary Supplement	68	
3.11 Toxic Spores	69	
3.12 Açai and Chagas Disease: Establishing the Link	70	
3.13 Arrow Poisons	71	
3.14 Discussion Questions	74	
Further Reading	75	
<b>Chapter 4 From Hunting and Gathering to Haute Cuisine</b>	<b>77</b>	
4.1 Food as Medicine	77	
4.2 Diabetes and Traditional Diets	81	

4.3 High Meat Consumption, Low Cholesterol Levels, and Indigenous Plants: New Leads from Kenya	83
4.4 Diets in Transition	84
4.5 The Development of Maize	86
4.6 Anasazi and Maize	88
4.7 Polynesian Strategies for Food Preservation	92
4.8 Famine Foods and Sago Production	94
4.9 Crop Origin: From Myth to Biotechnology	97
4.10 New Crops from Old: The Case for Amaranth and Hemp	99
4.11 Ethnobotany and Haute Cuisine	101
4.12 Discussion Questions	102
Further Reading	103

## Chapter 5 Plants as the Basis for Material Culture 105

5.1 Plants and Indigenous Voyaging	107
5.2 Polynesian Voyaging and the Discovery of New Zealand	113
5.3 Sweet Potatoes and the Kon-Tiki Expedition	115
5.4 Cordage and Containers	117
5.5 The Vanishing Art of 'Enu Weaving	121
5.6 Basketry and Status in Indigenous Societies	124
5.7 Plants for Clothing	126
5.8 Hats	130
5.9 The Body as Canvas: Plants and Tattoos	131
5.10 Plants as Body Paints and Dyes	133
5.11 Shampoos and Body Salves	134
5.12 Fragrance	135
5.13 Spices and European Exploration	136
5.14 Plants and Human Cosmologies	143
5.15 Discussion Questions	144
Further Reading	145

## Chapter 6 Entering the Other World 147

6.1 Ebena Snuff in South America	152
----------------------------------	-----

6.2 <i>Ayahuasca</i> , Vine of the Soul	156
6.3 Lewin's Categories of Psychoactive Plants	159
6.4 Kava as a Communal Experience	161
6.5 Cannabis in World History	163
6.6 Khat: Demon Drug or Social Glue?	167
6.7 Coca and Cocaine	168
6.8 Opium and the Production of Heroin	172
6.9 Peyote and the Native American Church	174
6.10 Discussion Questions	177
Further Reading	179

## Chapter 7 Biological Conservation and Ethnobotany 181

7.1 Indigenous-Controlled Reserves in Samoa	184
7.2 Island Conservation Projects Spread	185
7.3 Indigenous Perspectives on Conservation	188
7.4 Biocultural Conservation: Keeping Traditional Skills in Practice	189
7.5 Quantitative Ethnobotany in South America	190
7.6 Forests Are More Than Timber: Ethnobotanical Valuation Studies	191
7.7 Goods from the Woods: Sustainable Production	194
7.8 Cultural Ties to the Forest: Palms, People, and Progress	196
7.9 Conservation Areas and Indigenous Peoples	198
7.10 Conflicts between Indigenous Peoples and Nature Preserves	200
7.11 Ethnobotany of Seagrasses and Climate Change	201
7.12 The Future of Ethnobotanical Conservation	204
7.13 Discussion Questions	206
Further Reading	206
