

CONTENTS

1. Introduction	7
1.1. Objectives	8
1.2. Used analytical methods	9
2. Precious metals and trace elements present situation	12
2.1. Precious metals (PM)	13
2.2. Trace elements (TE)	18
3. Precious metals and trace elements in minerals of copper deposits	27
3.1. Rožňava - Maria baňa mine	28
3.2. Rudňany deposit	29
3.3. Špania dolina - Piesky deposit	30
3.4. Novoveska Huta deposit	31
3.5. PM a TE in tetrahedrites from Slovak deposits	32
3.6. PM a TE in chalcopyrite from Slovak deposits	46
4. Precious metals and trace elements in minerals of lead-zinc deposits	56
4.1. Zlata Baňa	57
4.2. Banská Hodruša (Hodruša-Hámre deposit)	58
4.3. PM a TE in galena from Slovak deposits	60
4.4. PM a TE in sphalerite from Slovak deposits	65
4.5. PM a TE in bournonite and other sulphides of searched Slovak deposits	70
5. Precious metals and trace elements in minerals of antimony deposits	77
5.1. Pezinok - Kolarsky vrch deposit	77
5.2. Liptovská Dubrava deposit	79
5.3. PM a TE in stibnite from Slovak deposits	81
5.4. PM a TE in arsenopyrite from Slovak deposits	88
6. Pyrite from Slovak deposits and its PM and TE contents	94
6.1. Kremnica - Šturec deposit	95
6.2. Zlatno deposit	96
6.3. PM a TE in pyrite from Slovak deposits	98
7. Conclusion	113
