Preface	ix
Acknowledgments	xi
1 Overview of Pulmonary Rehabilitation	1
Definition and Scope of Pulmonary Rehabilitation	2
The Burden of Chronic Respiratory Disease	3
A Brief History of Pulmonary Rehabilitation	4
Essential Components of Pulmonary Rehabilitation	6
Prevention	7
Patient Goals	8
Program Goals	9
Philosophy	9
Code of Ethics for the Pulmonary Rehabilitation Specialist	9
Conclusion	10
2 Selection and Assessment of the Pulmonary Rehabilitation Candidate	11
Patient Selection	12
Patient Assessment	13
Goal Development	20
Rehabilitation Potential	20
Conclusion	20
3 Patient Education and Skills Training	21
Education Process	21
Focus and Scope of Educational and Skills Training	22
Conclusion	29
4 Exercise Assessment and Training	31
Exercise Assessment	31
Functional Performance Assessment	36
Exercise Training	37
Emergency Procedures	42
Conclusion	42

5	Psychosocial Assessment and Intervention	45
	Adjustment Process	45
	Psychosocial Assessment	47
	Psychosocial Interventions	53
	Conclusion	58
6	Outcome Assessment	59
	Timing of Patient-Centered Outcome Measurement	59
	Domains for Outcome Assessment	61
	Health Domain	61
	Clinical Domain	62
	Behavioral Domain	65
	Service Domain	65
	Conclusion	66
7	Disease-Specific Approaches in Pulmonary Rehabilitation	67
	Asthma	68
	Cystic Fibrosis	70
	Interstitial Lung Disease	73
	Obesity-Related Respiratory Disorders	75
	Pulmonary Hypertension	77
	Neuromuscular and Chest Wall Disorders	80
	Lung Volume Reduction Surgery	82
	Lung Transplantation	83
	Lung Cancer and Thoracoabdominal Surgery	86
	Mechanical Ventilation	88
	Pediatric Patients With Respiratory Disease	90
	Patients With Coexisting Respiratory and Cardiac Disease	90
	Conclusion	91
8	Program Management	93
	Medical Director	94
	Program Coordinator	95
	Rehabilitation Specialist	96

Interdisciplinary Team Structure	96
Staff Competencies	96
Core Staff Responsibilities	96
Continuing Education	97
Minimum Staffing Requirements	97
Program Components and Structure	98
Duration of Program	100
Policies and Procedures	101
Facilities and Equipment	101
Emergency Procedures	101
Pulmonary Rehabilitation Location: General Issues	103
AACVPR Program Certification	104
Documentation	104
Conferences	105
Reimbursement	105
Strategies for Program Success	105
Postrehabilitation Maintenance Programs	106
Continuous Quality Improvement	106
Conclusion	106
Appendix A Forms, Questionnaires, and Assessments	107
Appendix B Measures for Promoting Maintenance	125
Appendix C American Thoracic Society Statement: Guidelines for the Six-Minute Walk Test	127
Appendix D Clinical Competency Guidelines for Pulmonary Rehabilitation Professionals	137
Appendix E Examples of Pulmonary Rehabilitation Programs That Meet 2, 3, and 5 Days a Week	145
Appendix F Example of a Typical Pulmonary Rehabilitation Facility	149
Appendix G Pulmonary Rehabilitation Skills and Competency Assessment	151
References	155
Index	177
About the AACVPR	185
Membership Application	187
