Content	4
1. Urban environmental acupuncture (UEA)	9
1.1. Urban environmental acupuncture - general idea	9
1.2. Ecosystem services	9
1.3. National strategies and urban environmental acupuncture	13
1.3.1. Czech Republic	13
1.3.2. Germany	14
1.3.3. Poland	15
1.3.4. Slovakia	16
1.3.5. Italy	17
2. Soil sealing and soil degradation reduction by application of urban environmental acupuncture solution and loss and fragmentation of habitats - biodiversity loss	19
2.1. Soil sealing and soil degradation	19
2.1.1. Soil sealing in the EU policy	19
2.1.2. Instruments for urban intervention addressed to sealed and degraded areas	20
2.1.3. Ecosystem services of soil	21
2.1.4. Connection of soil ecosystem services with nature-based solutions (NBS)	21
2.2. Loss and fragmentation of habitats - biodiversity loss	23
3. Urban environmental acupuncture as one solution for reduction of heat stress in urban space	25
3.1. Urban heat stress and climate change	25
3.2. Urban environmental acupuncture against heat stress	25
3.2.1. Temperature regulation by urban green spaces	25
3.2.2. Cooling effects of different vegetation structures	26
3.2.3. Proportion and distribution of green in the city/FUA	27
3.2.4. Additional things to consider	28
3.3. Conclusion for urban environmental acupuncture concepts	29
4. Possibilities of application of urban environmental acupuncture in reducing problems with rainwater in the urban space	30
4.1. Effects of storm water arrival in the urban area, and solution for the reduction problem	32
4.2. Conclusion for rain water solution	37

5. Urban environmental acupuncture for increasing air quality.....	38
5.1. Air Pollution	38
5.2. Mitigation interventions	38
5.3. Urban environmental acupuncture and air quality	40
6. Improvement of social and cultural aspects of urban environmental acupuncture	45
6.1. Social aspects of UEA.....	45
6.1.1. Social and cultural aspects of the NBS.....	46
6.2. Urban green commons and application of NBS.....	50
7. Characteristics of Nature Based Solutions and their impact on urban environment	51
7.1. Descriptions of NBS	52
7.1.1. URBAN MEADOWS.....	52
7.1.2. VERGES / FLOWER BEDS WITH NATIVE PERENNIALS.....	53
7.1.3. GROUND COVER PLANTS	55
7.1.4. LAWN	56
7.1.5. GREEN GRASS PAVEMENTS.....	57
7.1.6. STREET TREES.....	58
7.1.7. PARK TREES.....	59
7.1.8. FRUIT TREES, FRUIT SHRUBS	60
7.1.9. LARGE SHRUBS.....	61
7.1.10. RAIN GARDENS (UNDER-DRAINED)	62
7.1.11. ROAD-SIDE SWALES FOR RETENTION AND INFILTRATION	63
7.1.12. LINEAR WETLANDS FOR STORMWATER FILTRATION.....	63
7.1.13. NATURAL POLLINATOR MODULES.....	64
7.1.14. HEDGES/HEDGEROWS	64
7.1.15. ROCKERY	65
7.1.16. HERB SPIRAL	67
7.1.17. URBAN WILDERNESS / SUCCESSION AREA.....	68
7.1.18. GROUND CROPS OF VEGETABLES/HERBS	69
7.1.19. VEGETATED REINFORCED SOIL SLOPE SLOPES WITH GREEN FENCES.....	70
7.1.20. GREEN PERGOLAS/GREEN ARBOURS	71
7.1.21. GREEN FACADES WITH CLIMBING PLANTS	72

7.1.22. WALL-MOUNTED LIVING WALLS	73
7.1.23. HYDROPONIC MOBILE LIVING WALLS / VERTICAL GARDENS.....	74
7.1.24. VERTICAL VEGETABLE OR HERB GARDEN	75
7.1.25. HANGING WALL PLANTERS (AS GREEN STREET FURNITURE)	76
7.1.26. COMPACTED POLLINATOR'S MODULES.....	76
7.1.27. RAIN GARDENS IN PLANTERS	77
7.1.28. STREET PLANTERS (AS GREEN STREET FURNITURE)	78
7.1.29. GREEN COVERING SHELTERS.....	80
7.1.30. GREEN ROOF / ROOF TERRACE	81
7.2. Simplified Tool for choosing appropriate individual solutions	83
8. <i>Plants in urban environmental acupuncture</i>	89
8.1. Introduction	89
8.2. The most general principles of selecting plants for UEA.....	89
8.3. At what stage in the design of a green spot should plant species be selected?	90
8.4. Plants recommended for use in UEA according to the biogeographic and historical criterion - native species and country-specific species	91
8.4.1. Biogeographic principles for the selection of plant species for UEA.....	91
8.4.2. Plant species native to the entire area of Central Europe or naturalized throughout this area, recommended for UEA.....	93
8.5. Plant species that cannot be recommended for UEA in the CE region	103
8.6. Plant species, including aliens, the possible use of which in UEA requires special care	104
8.7. What to prefer: straight species or cultivated varieties/forms?.....	105
8.8. Requirements that should be met in order for a given plant species to be selected into the UEA.....	106
8.9. Required properties of the plant material for use in the UEA.....	109
8.10. Summary	109
9. <i>A concept for local action planning utilizing urban environmental acupuncture</i>	111
9.1. Action planning in the SALUTE4CE Project	111
9.2. The process of action planning.....	112
9.2.1. Phase one - the preparation phase (preliminary activities):	112
9.2.2. Phase two - the analytical phase (gather and evaluate information):.....	114
9.2.3. Phase three - the developmental phase (decide and plan actions):	115
9.3. Plan Implementation	115
9.4. Lesson learn from prapration of action plans in pilot regions	116
9.5. Summary	117

10. Participation and communication with stakeholders and end users of urban environmental acupuncture	118
10.1. The concept of participation.....	118
10.2. SALUTE4CE approach to participation	121
10.2.1. From Participatory Processes to Living Labs.....	121
10.2.2. Introduction of digital tools in the participative process	123
10.2.3. The example of the use of Interactive Visualisation Tool (InViTo)	124
10.3. Overview of participation tools	126
11. Case studies	129
11.1. Green walls (facades) in the SALute4CE project.....	129
11.2. Public gardens and green courtyard in the SALute4CE project.....	132
11.3. Pocket parks in the SALute4CE project.....	135
11.4. Public green space in the SALute4CE project	136
11.5. Recommendations.....	141
12. List of references	143
12.1. List of references - Chapter 1	143
12.2. List of references - Chapter 2.1.....	144
12.3. List of references - Chapter 2. 2.....	145
12.4. List of references - Chapter 3	146
12.5. List of references Chapter4	148
12.6. List of references - Chapter5	149
12.7. List of references - Chapter6	150
12.8. List of references - Chapter7	152
12.9. List of references Chapter8	153
12.10. List of references - Chapter 9.....	157
12.11. List of references - Chapter 10	157
13. List of Figures and tables	163
