CONTRIBUTORS TO VOLUME II.....	v
PREFACE.....	vii

Inheritance of Resistance to Viral Diseases in Plants

BY FRANCIS O. HOLMES

The Laboratories of The Rockefeller Institute for Medical Research, New York, New York

I. Introduction.....	2
II. Past Results in Breeding for Resistance.....	2
III. Difficulties That Arise in Breeding for Disease Resistance.....	17
References.....	28

Inhibitors and Plant Viruses

BY F. C. BAWDEN

Rothamsted Experimental Station, Harpenden, Herts, England

I. Inhibitors of Infection from Higher Plants.....	32
II. Inhibitors of Infection from Other Sources.....	35
III. The Mechanism of Inhibition of Infection.....	43
IV. Practical Applications.....	48
V. Inhibitors of Virus Increase.....	49
References.....	55

Incomplete Forms of Influenza Virus

BY PREBEN VON MAGNUS

Influenza Virus Department, Statens Seruminstitut, Copenhagen, Denmark

I. Introduction.....	59
II. Formation of Fully Active and Incomplete Influenza Virus.....	60
III. Properties of Incomplete Virus.....	64
IV. Mechanism Involved in Incomplete Virus Production.....	69
V. Nature and Origin of Incomplete Virus.....	76
References.....	78

Characteristics of Viral Development in Isolated Animal Tissues

BY W. WILBUR ACKERMANN AND THOMAS FRANCIS, JR.

Department of Epidemiology and Virus Laboratory, School of Public Health, University of Michigan, Ann Arbor, Michigan

I. Introduction.....	81
II. Cultivation of Influenza Virus in the Respirometer.....	82
III. Cultivation of Poliomyelitis Virus in Hela Cells.....	85
IV. Cultivation of Western Equine Encephalomyelitis Viruses in Chicken Fibroblasts.....	85
V. Cultivation of Viruses in Cellular Monolayers.....	86

VI. Analysis of the Growth Curve.....	87
VII. Concepts of Cellular Homogeneity.....	89
VIII. Incipient Stages of Infection.....	90
IX. Liberation of Virus.....	95
X. The Viral Synthetic Process.....	96
References.....	107

The Action of Ionizing Radiation on Viruses

BY ERNEST POLLARD

Sloane Physics Laboratory, Yale University

I. Introduction.....	109
II. Ionizing Radiation Applied to the Study of Virus Structure.....	126
III. Varied Applications of Ionizing Radiation to Virus Study.....	142
IV. Conclusion.....	148
References.....	150

The Chemical Constitution of Viruses

BY C. A. KNIGHT

Virus Laboratory, University of California, Berkeley, California

I. Introduction.....	153
II. Virus Proteins.....	154
III. Nucleic Acids.....	165
IV. Viral Enzymes.....	174
V. Miscellaneous Constituents of Viruses.....	175
VI. Functions of Constituent Parts of Viruses.....	176
References.....	179

Electron Microscopy of Viruses

BY ROBLEY C. WILLIAMS

Professor of Biophysics and Biophysicist to the Virus Laboratory, University of California, Berkeley, California

I. Introduction.....	184
II. Technical Considerations.....	188
III. Electron Microscopy of Impure Virus Preparations.....	198
IV. Observations of Purified Virus Suspensions.....	205
V. Interactions Between Viruses and Cells.....	223
References.....	236

The Hydration of Viruses

BY MAX A. LAUFFER AND IRWIN J. BENDET

Department of Biophysics, University of Pittsburgh, Pittsburgh, Pennsylvania

I. Introduction.....	241
II. Hydration of Virus Protein Crystals.....	249
III. Hydration of Viruses in Solution.....	255
IV. Summary.....	284
References.....	285
AUTHOR INDEX.....	289
SUBJECT INDEX.....	297
CONTENTS OF VOLUME I.....	313

VI. Analysis of the Growth Curve.....	87
VII. Concepts of Cellular Homogeneity.....	89
VIII. Incipient Stages of Infection.....	90
IX. Liberation of Virus.....	95
X. The Viral Synthetic Process.....	96
References.....	107

The Action of Ionizing Radiation on Viruses

BY ERNEST POLLARD

Sloane Physics Laboratory, Yale University

I. Introduction.....	109
II. Ionizing Radiation Applied to the Study of Virus Structure.....	126
III. Varied Applications of Ionizing Radiation to Virus Study.....	142
IV. Conclusion.....	148
References.....	150

The Chemical Constitution of Viruses

BY C. A. KNIGHT

Virus Laboratory, University of California, Berkeley, California

I. Introduction.....	153
II. Virus Proteins.....	154
III. Nucleic Acids.....	165
IV. Viral Enzymes.....	174
V. Miscellaneous Constituents of Viruses.....	175
VI. Functions of Constituent Parts of Viruses.....	176
References.....	179

Electron Microscopy of Viruses

BY ROBLEY C. WILLIAMS

Professor of Biophysics and Biophysicist to the Virus Laboratory, University of California, Berkeley, California

I. Introduction.....	184
II. Technical Considerations.....	188
III. Electron Microscopy of Impure Virus Preparations.....	198
IV. Observations of Purified Virus Suspensions.....	205
V. Interactions Between Viruses and Cells.....	223
