Foreword..... xv

Preface..... xix

Introduction 1

Chapter 1: Setting the stage..... 5

 I. Developments of IT in dispute resolution 6

 II. Why IT? 11

 A. Benefits of IT usage..... 12

 1. Efficiency 12

 2. Effectiveness..... 14

 3. Convenience 15

 B. Functions of IT for arbitration 16

 III. When to use IT?..... 18

 IV. How to use IT? 21

 A. Creeping featurism: the more IT, the better? 21

 B. Lack of experience: IT as a trump card? 22

 V. Fundamental communication technologies..... 23

 A. Discussion lists 23

 B. Chats 24

 C. Bulletin boards..... 24

 D. Designated community websites 25

 E. Wikis..... 25

Chapter 2: Information technologies for arbitration 27

 I. Case management websites 29

 A. What is a case management website? 30

 B. Uses and advantages 31

C. Caveats.....	33
II. Videoconferencing.....	34
A. Videoconferencing technologies.....	35
1. The evolution of codecs.....	35
2. Dedicated videoconferencing	36
3. IP videoconferencing.....	37
B. The Geneva experiment	38
1. General description.....	39
2. Scenario	39
a. Background.....	40
b. Script.....	41
3. The technology	44
a. Features.....	44
b. Security.....	45
c. Screenshots	45
d. Technical requirements.....	46
4. Results of the experiment	47
a. Usefulness.....	48
b. Realism	48
c. Technical secretary of the tribunal.....	49
d. Document presentation and application sharing	50
C. Uses and advantages	50
1. Assessing videoconferencing	51
a. Videoconferencing v. telephone conferencing	51
b. Videoconferencing v. in-person meetings.....	52
c. Videoconferencing v. e-mail or letter exchanges	56
2. Situations of use	56
D. Caveats	59
1. Technological insufficiencies and limitations	60
a. Technical breakdowns.....	60
b. Image quality	61
c. Camera view	62
2. Security, privacy, and confidentiality	62
3. Legal issues	63
III. Other uses of technology	64
A. Live notes	64
B. Online dispute resolution platforms as a standalone solution	66
IV. Technologies of the future? 3D Shared virtual workspaces	68
A. What is a 3D shared virtual workplace?	69
B. Uses and advantages	70
1. Situations	70
2. Example – scenario.....	70
3. Enhanced virtualization: sharing visual information	72

Chapter 3: Current practice at arbitration institutions..... 75

- I. State of practice..... 75
 - A. AAA – WebFile..... 76
 - B. WIPO – ECAF 85
 - 1. General IT facilities at WIPO 85
 - 2. America’s Cup arbitration and domain names dispute resolution 92
 - C. ICC – NetCase 93
- II. Guidelines of the International Chamber of Commerce 97
 - A. Report on Special IT Requirements in International Arbitration..... 98
 - B. Guidelines on ‘Using Technology to Resolve Business Disputes’ 100
 - 1. General procedures 100
 - 2. Paperless files 101
 - 3. Electronic communications 102
 - a. Written communications 103
 - b. Case management websites 103
 - c. Audioconferences 104
 - d. Videoconferences 105

Chapter 4: Legal framework..... 107

- I. Due process issues..... 108
 - A. The right to be heard..... 108
 - 1. A reasonable opportunity to present the case 108
 - a. Real opportunities to present the case 108
 - b. Sufficient opportunities to present the case 110
 - 2. Oral hearings 111
 - B. Adversary proceedings 114
 - C. Equal treatment 116
 - D. Judicial review of arbitral awards rendered after proceedings making use of IT 118
 - E. Enforcement of awards 119
 - 1. Article V(1)(b) of the New York Convention 119
 - 2. Article V(1)(d) of the New York Convention 120
 - 3. Article V(2)(b) of the New York Convention 121
- II. Confidentiality issues..... 122
 - A. Confidentiality by virtue of law..... 124
 - B. Confidentiality by virtue of the parties’ agreement 125
 - B. Who is bound by the duty of confidentiality? 126
 - C. What information is confidential?..... 127

Chapter 5: Practice guidelines..... 131

- I. Frequent concerns and responses 131

A. Security.....	132
1. Interception.....	133
a. E-mail interception.....	133
b. Web-based transmissions interception.....	137
2. Intrusion.....	139
a. Authentication.....	139
b. Accounting.....	141
3. Infection.....	142
a. Viruses	142
b. Trojan horses	144
B. Breakdowns	145
C. Authentication.....	148
1. The issue.....	149
2. Solutions.....	149
D. Working habits	151
II. E-mailing	153
A. Sending e-mail.....	153
B. Receiving e-mail.....	155
C. Keeping track of hidden information: metadata.....	156
D. Encrypting and digitally signing e-mail.....	158
1. Private and confidential e-mails: encryption	159
2. Identifying the sender and verifying the authenticity of the text: digital signatures	160
3. Trusting digital signatures and key rings in general: linking ciphers to people.....	161
4. In practice: setting up encrypted and digitally-signed e-mail	163
a. E-mail clients	163
b. Webmails	165
III. Videoconferencing	168
A. To videoconference or not to videoconference.....	168
B. Setting up a videoconferencing session	170
C. Examples of videoconferencing software	173
1. ClickToMeet.....	173
2. Macromedia Breeze.....	174
3. Megameeting	175
4. iVisit.....	176
5. Earthlink videoconferencing software	178
6. Festoon	178
7. Windows NetMeeting.....	180
IV. Defining a communications protocol	181
A. The use of IT: who decides, when and how?.....	182
B. Submissions (briefs, memorials, applications) and documentary evidence ..	183
C. Other communications.....	184
D. Hearings.....	184

E. Deliberations between arbitrators..... 184

F. Form and notification of the award 185

Chapter 6: Drafting suggestions..... 187

I. Arbitration agreements 187

 A. In general 187

 B. Pre-dispute arbitration agreement 188

 B. Post-dispute arbitration agreement..... 188

II. Procedural order..... 189

 A. Comments 189

 B. Sample procedural order 190

III. Initiation form..... 198

 A. Comments 198

 B. Sample initiation form 200

IV. Incident form 206

 A. Comments 206

 B. Sample incident form..... 208

Chapter 7: Checklists, reminders, and charts..... 211

I. Main tasks 211

II. E-mailing 213

III. Videoconferencing 214

 A. General reminders..... 214

 B. Videoconference or in-person meeting? 214

 C. Preparing a videoconference..... 215

VI. Charts for IT usage..... 217

 A. Practical aspects..... 217

 1. Advantages of technologies..... 217

 2. General technical measures 218

 3. Videoconferencing 218

 B. Legal aspects..... 220

 1. Due process at risk..... 220

 2. Oral hearings 220

 3. Confidentiality 221
