

CONTENTS

1. Fundamentals	8
Answers	13
2. Functions of One Variable	13
Fundamentals	13
Elementary Functions	15
Continuity	22
Limits of Functions	25
Answers I	31
Derivatives	33
Geometrical and Physical Meaning of Derivatives	35
Differentials	37
Application of Fundamental Theorems of Differential Calculus	38
Taylor's Theorem	38
Investigation of Functions for their Properties	39
Global Extremes	44
Approximate Solutions of Equation $f(x) = 0$	48
Answers II	49
3. Linear Algebra	56
Vector Spaces	56
Matrices	58
Systems of Linear Algebraic Equations	61
Determinants	65
LU Factorization	66
Answers	68
4. Analytical Geometry	70
Vectors and Products of Vectors	70
Straight Lines and Planes	71
Answers	74
5. Integral Calculus of One Variable	75
Indefinite Integral	75
Definite Integral	82
Improper Integral	84
Applications to Integral Calculus	86
Answers	92
6. Functions of Several Variables	94
Fundamentals	94
Differential Calculus	97
Transformation of Differential Expressions	97

Differential	97
Tangent and Normal Lines and Planes	98
Directional Derivatives	98
Implicit Functions	100
Extremal Problems	103
Answers	106
7. Ordinary Differential Equations	108
Fundamentals and General Concepts	108
Differential Equations of the 1st Order	109
Linear Differential Equations of Higher Orders	113
Answers	116
8. Sequences and Series	117
Fundamental Problems on Sequences	117
Limits of Sequences	119
Series of Numbers and Functions	124
Answers	131
9. Multiple Integrals	133
Double Integrals	133
Triple Integrals	134
Applications of Multiple Integrals	134
10. Curvilinear Integrals	136
Line Integrals of the 1st Kind	136
Line Integrals of the 2nd Kind	137
Green's Theorem	141
11. Boundary Value Problems	143
Answers	149
12. Variational methods	150
Answers	153
13. Fourier Series	153
14. Appendix: Other Fundamentals	153
Cartesian Product	154
Relations on Sets	154
Groups	156
Fields	158
Integers	160
Rational Numbers	162
Real Numbers	164
Algebraic Numbers	167
Supremum and Infimum	168

Absolute Value and Means	170
Extended Real Axis E_1^*	171
Solution of Inequalities	172
Complex Numbers	175
Some Important Inequalities	181
Development of the Number System	181
Problems	183
Answers	188
15. Appendix: Linear Algebra	189
Eigenvalues and Eigenvectors of Matrices	189
Quadratic Forms and Linear Mappings	192
Problems	196
Answers	196
16. Appendix: Implicit Functions Given by $F(x, y, z) = 0$	196
Index	200
