

Obsah / Content

Referáty / Presentations: Dlouhodobé polní pokusy / Long-term field experiments

1. Babulicová M. - The influence of preceding crop, fertilization and crop rotation on the production ability of winter wheat.....	2
2. Barančíková G., Šoltysová B., Kotorová D., Tong Y. - Possibility of utilization of long-term field experiments results at modelling of soil organic carbon and selected soil properties	3
3. Dostál J., Hajzlerová L., Javor T., Hejman M. - Long – Term Evaluation of the Soil Organic Matter Balance and the Composition of Manure in the East Bohemia.....	4
4. Florián M. - Long term field experiments of ÚKZÚZ	5
5. Hejman M., Součková K., Gojda M. - Prehistoric settlement activities irreversibly changed nutrient availability and crop production in Central Europe.....	6
6. Horáček J., Strosser E. - Tillage effects on soil organic matter in a Cambisol soil (profile).....	7
7. Kodešová R. - Impact of land management on soil structure and soil hydraulic properties	8
8. Lukin S. - Effect of long-term fertilization systems application on the dynamics of organic matter content in sandy loam soddy-podzolic soil.....	9
9. Romanenkov V. - Long-term effects of agricultural practices on soil C in fertilization experiments: reanalysis and adaptation strategies to climate change	10
10. Matúšková K., Hanková A., Rüschschloss L. - The influence of different fertilization variants on longterm stationary trial to the yield parameters of lines and varieties bred in research-breeding station Víglaš-Pstruša	11
11. Skalský R., Balkovič J., Xiong W., van der Velde M., Obersteiner M. - A large-scale implementation of EPIC to estimate regional crop yields in Europe	12
12. Smatanová M. - Monitoring of the impact of intensified rate of fertilization on crop yields	13
13. Smutný V., Procházková B., Neudert L., Dryšlová T., Lukáš V. - Vliv různého zpracování půdy na výnosy a ekonomiku pěstování kukuřice na zrno.....	14
14. Spiegel H., Schlatter N., Haslmayr H.P., Baumgarten A., Ten Berge H. - Effects of agricultural management on Productivity, soil quality and climate change mitigation - evaluations within the EU Project (FP 7) CATCH-C.....	15

Referáty / Presentations: Nevyvážená bilance K / Unbalanced K plant nutrition

15. Čermák P. - Potassium fertilization and available potassium content in agricultural soils of the Czech Republic.....	17
16. Kulhánek M., Černý J., Vašák F., Balík J. - Changes of Mobile P, K, Ca and Mg Contents in Long-term Field Experiments.....	18

17. Madaras M., Koubová M., Kulhánek M., Teplá D. - Reserves of soil potassium in agricultural systems of unbalanced potassium nutrition	19
18. Nikitina L. - The dynamics and minimal levels of exchangeable potassium at agrocoenoses on soddy-podzolic soils	20
19. Torma S. - Unbalanced potassium fertilization and its impact on potassium balance in crop production of Slovak republic	21

Posterová sekce / Posters: Dlouhodobé polní pokusy / Long-term field experiments

20. Černý J., Vašák F., Kulhánek M., Shejbalová Š., Balík J. - The effect of nitrogen fertilization on nutrients uptake of silage maize	23
21. Elbl J., Kintl A., Plošek L., Urbánková O., Stroblová M., Záhora J. - The content of mineral nitrogen and phosphate in solution from arable soil stressed by drought	24
22. Fér M., Jakšík O., Kubiš A., Kodešová R., Klement A., Bayarsaighan S. - Impact of soil erosion caused by intensive agricultural exploitation on the soil aggregate stability	25
23. Hlisenkovský L., Kunzová E., Hejzman M. - Winter wheat grain yield and grain technological parameters as influenced by fertilizer treatment, soil type and weather conditions	26
24. Jakšík O., Kodešová R., Penížek V., Zádorová T. - Influence of long term agricultural management on spatial distribution of Soil types	27
25. Káš M. - Vliv organického a minerálního hnojení na výnos a kvalitu brambor v dlouhodobém pokusu v Lukavci	28
26. Khajdukov K.P., Shevtsova L.K., Kovalenko A.A., Milyutina A.A. - Content and composition of soil organic matter as influenced by long-term application of different fertilisation systems	29
27. Klement A., Kodešová R., Jakšík O., Rossi G., Drábek O. - Using VNIR DRS spectroscopy for mapping of soil degradation due to long-term agricultural exploitation	30
28. Královec J. - The Influence of Soil Property Changes on Grassland Vegetation in the West Bohemian region.	31
29. Lipavský J., Kubát J., Stehlíková I., Madaras M. - Organic Matter Budget in Long-Term Field Experiments on Chernozem in the Ivanovice in the Czech Republic	32
30. Macháček V., Kunzová E., Peter I. - Evaluation of the effect of potassium fertilization on the available potassium in the long-term field experiment in Prague – 2nd field	33
31. Mayerová M. - Influence of herbicide use on weed communities in 40 year field trial .	34
32. Míša P. - Impact of changes in soil properties on the profitability of crop cultivation...	35
33. Mühlbachová G., Vavera R., Růžek P. - Carbon sequestration, CO ₂ -fluxes and microbial characteristics in soils under conservation and conventional tillage systems.	36
34. Neugschwandner R.W., Liebhard P., Kaul H.-P., Wagentristl H. - Soil chemical properties as affected by tillage and crop rotation in a long-term field experiment	37
35. Nikodem A., Kodešová R., Jakšík O., Jirků V., Fér M., Klement A. - Long-term soil erosion impact on soil hydraulic properties at three agricultural fields with different soil unites	38

36. Piķula D., Rutkowska A. - Effect of leguminous crop and fertilization on soil organic carbon after 30 – years field experiment	39
37. Plošek L., Kintl A., Elbl J., Stroblová M., Urbánková O., Záhora J. - Influence of Compost Addition on Mineral Nitrogen Leakage and other Biological Properties in Lysimetric Experiment	40
38. Prchalová R., Klement V. - Twenty-five years of Lysimeter experiments	41
39. Procházková B., Smutný V., Dryšlová T., Houšť M., Hledík P. - Vliv různých způsobů zpracování půdy na výnosy ozimé pšenice.....	42
40. Procházková B., Smutný V., Dryšlová T., Janeček M. - Vliv různého organického hnojení na výnosy a ekonomiku pěstování ozimé pšenice v dlouhodobé monokultuře.	43
41. Rutkowska B., Szulc W., Sosulski T., Łabętowicz J. - Soil micronutrient availability in conditions of long-term mineral and organic fertilizer applications.....	44
42. Shejbalová Š., Černý J., Vašák F., Kulhánek M., Balík J. - Nitrogen efficiency of spring barley in long-term experiment in the Czech Republic	45
43. Sosulski T., Szara E., Stepień W., Korc M., Szymańska M. - Nitrous oxide emission from soil in mineral, mineral-organic and organic fertilization systems in long-term experiment (since 1923) in Skierniewice (central Poland).....	46
44. Stehlíková I., Teplá D., Lipavský J. - The influence of fertilization on soil aggregate stability in a long-term field trial	47
45. Szulc W., Rutkowska B., Sosulski T., Szara E. - Evaluation of sulfur fertilization requirements in long-term fertilizer experiments	48
46. Teplá D., Lipavský J., Šimon T. - Assessment of fertilization impact on soil organic matter content and quality in a long-term field trial in Ivanovice na Hané	49
47. Vašák F., Černý J., Shejbalová Š., Kulhánek M., Balík J. - Soil reaction changes in long-term field experiments with different fertilizing system	50
48. Zagórski Z., Stepień W., Sosulski T. - Occurrence of hydroxy-interlayer minerals in long-term nutrified soils from Skierniewice Experimental Station.....	51

Posterová sekce / Posters: Nevyvážená bilance K / Unbalanced K plant nutrition

49. Lukin S. - Effect of mineral fertilizers and manure on yield of crops and potassium status on sandy loam soddy-podzolic soils	53
50. Rutkowska A., Piķula D., Stepień W. - Effect of potassium fertilization on the efficacy of increasing nitrogen rates in the four-field crop rotation.....	54
51. Stepień W., Borowska-Komenda M., Zakrzewska M., Szara E. - Overcoming available potassium in soil and yield of plants on a very exhausted soil with K – not fertilized with this element since 1923.....	55
52. Škarpa P. - Evaluating Status Change of Selected Forms of Soil Potassium	56
