Executive Summary	xiii
List of Contributors	xxiii
List of Figures	xxv
List of Tables	xxxi
List of Abbreviations	xxxiii

PART I: International Success Stories for Hydrogen

1 Hydrogen Technology and Economy in Germany—History and the Present State	3
Johannes Töpler	
1.1 Introduction	3
1.2 Basic Research in the Start-Up Phase	4
1.2.1 Basic Research of Metal Hydrides	5
1.2.2 Development of the Metal Hydride Container	7
1.2.3 Development of the H ₂ Combustion Engine	9
1.2.4 Development of System Integration	10
1.2.4.1 System integration for the H ₂ -fuelled delivery vans with H ₂ operation	11
1.2.4.2 System integration for the station Wagon 280 E with H ₂ /gasoline mixture operation	11
1.3 Test Operation of Hydrogen Fleet	11

1.4	Further Developments of Hydride Applications	16
1.4.1	Construction and Test of a Stationary Storage System with 10 t Metal-Hydride	16
1.4.2	Application of Metal Hydride Storage System in a Submarine	18
1.5	Mobile Application of Hydrogen at BMW	20
1.6	The Euro-Québec-Hydro-Hydrogen Pilot-Project (EQHHPP)	22
1.7	Development of Hydrogen Technology with PEM Fuel Cells for Mobile Applications	25
1.7.1	H ₂ /FC Technology in Passenger Cars	25
1.7.2	H ₂ /FC Technology in Urban Buses	29
1.7.3	Clean Energy Partnership	29
1.7.4	Special Mobile Applications	31
1.8	Stationary Applications in Households	36
1.9	Safety-Relevant Application	41
1.10	Hydrogen Storage in Caverns	43
1.11	Conclusion	46
	References	46

2 From Zero to Present, the Hydrogen Technologies and Economy in South Korea 49

Byeong Soo Oh

2.1	History of Energy Use in Korea from 1950 to Present	49
2.2	A History of Hydrogen Energy and Fuel Cell in Chonnam National University	50
2.3	Activities for Hydrogen and Fuel Cell in ROK	57
2.3.1	Hydrogen and Fuel Cell Activities Supported by Government	57
2.3.1.1	Ulsan hydrogen town	58
2.3.1.2	Hydrogen stations	58
2.3.2	The Hydrogen and New Energy Society	58
2.3.3	Korea Hydrogen Industry Association	59
2.3.4	Korea Institute of Science and Technology	59
2.3.5	Korea Institute of Energy Research	60
2.3.6	Hyundai Motor Company	60
2.3.7	List of Many Universities, Companies, and Institutes Which Related Hydrogen and Fuel Cell	62
2.4	World Hydrogen Energy Conference 2014	65
	References	70

PART II: Hydrogen Energy in Emerging Markets

3 Hydrogen Technologies in The Czech Republic	73
Karel Bouzek, Martin Paidar and Karin Stehlík	
3.1 Hydrogen Technologies in The Czech Republic—History, Presence, and Perspectives	73
3.1.1 History	73
3.1.1.1 Sixties of 20th century and alkaline systems	73
3.1.1.2 Nineties and revitalization of the interest	74
3.1.1.3 Economic and Political Background of The Czech Republic	79
3.1.1.4 Role of the EU and its Strategy	80
3.1.1.4.1 <i>Regulatory Role</i>	81
3.1.1.4.2 <i>Inspiratory Role</i>	81
3.1.2 Czech Hydrogen Technology Platform and National Context	84
3.1.2.1 The Czech Republic and Role of Hydrogen in an Energetic Policy	84
3.1.2.2 Czech Hydrogen Technology Platform and its Impact	86
3.1.2.3 HYTEP Successes and Lessons Learnt	87
3.1.3 Current Activities of the Major Subjects in the Field of Hydrogen Technologies in The Czech Republic	90
3.1.3.1 Fundamental research activities	90
3.1.3.2 Development and knowledge transfer activities	91
3.1.3.3 Demonstration activities	91
3.1.4 Challenges and Promises	92
References	95
4 TriHyBus—An Unwanted Miracle in The Czech Republic	99
Jakub Slavík	
4.1 The Project	99
4.2 The Vehicle	100
4.3 The Hydrogen Refueling Station	100
4.4 The Operation	101
4.5 The Project Story and Lessons	102

5 Hydrogen-Based Energy Market in Poland	105
M. Stygar and T. Brylewski	
5.1 Introduction	105
5.2 Energy Laws, Strategy and Policy of Poland	107
5.3 Development of Hydrogen-Based Energy Generation—National Institutions	108
5.4 Development of Hydrogen-Based Energy Generation—Non-Governmental Organizations	110
5.4.1 Polish Hydrogen and Fuel Cell Association	111
5.4.2 Polish Hydrogen and Fuel Cell Technology Platform	111
5.4.3 Małopolska and Podkarpacie Clean Energy Cluster	112
5.4.4 Baltic Eco-Energy Cluster	113
5.5 Development of Hydrogen-Based Energy Generation—Research Units	113
5.6 Hydrogen-Based Energy in Poland—Conferences and Events	114
5.6.1 The Polish “SMART ENERGY Conversion & Storage” Forum	114
5.6.2 EU Sustainable Energy Week	116
5.6.3 International Scientific Conference on Sustainable Energy and Environment Development SEED’2016	117
5.6.4 Energy–Ecology–Ethics Student Conference	117
5.6.5 Kraków—Stop Emisji: Elektryczna Komunikacja Miejska	117
5.7 Scientific Initiatives in the Field of Hydrogen Energy—Research Grants, Projects, and Investigations	118
5.8 Review of the Most Important Papers and Journals	122
Acknowledgment	122
References	123
6 The Hydrogen-Based Energy Aspects in Romania	127
Ioan Ștefănescu and Ioan Iordache	
6.1 Introduction	127
6.2 The Hydrogen Economy Perspectives in Romania	131

6.3	Aspects about the Implementation of a Hydrogen Infrastructure Starting with the Hydrogen Underground Storage in Romania	136
6.4	The Hydrogen and Fuel Cell Research and Development Projects in Romania	149
6.5	Romanian's Participations in FCH JU Calls and Projects . .	157
6.5.1	National Center for Hydrogen and Fuel Cell in Romania	159
6.6	Romanian Association for Hydrogen Energy	165
	Acknowledgments	168
	References	168
7	H₂ Technologies in Russia	171
	Vladimir Fateev and Sergey Grigoriev	
7.1	Historical Milestones	171
7.2	Present Status of R&D in Hydrogen Energy	180
7.3	Hydrogen Production in Russia	185
7.4	Utilization of Hydrogen in Russia	188
7.4.1	Chemical Industry	189
7.4.2	Oil Industry	189
7.4.3	Metallurgy	190
7.4.4	Energy Sector	190
7.4.5	Glass Industry	190
7.4.6	Food Industry	191
7.4.7	Other Consumers of Hydrogen	191
7.5	Prospects of Hydrogen Production and Utilization in Russia	191
	References	192
8	Hydrogen (H₂) Technologies in the Republic of South Africa	203
	Dmitri Bessarabov and Bruno G. Pollet	
8.1	Introduction	204
8.2	Current Energy Landscape in RSA	205
8.3	Hydrogen South Africa (HySA)—A National Hydrogen and Fuel Cell Technologies R&D and Innovation Strategy . .	208
8.4	Existing Industrial Hydrogen Infrastructure in South Africa	213
8.5	Hydrogen and Fuel Cell Business Case in South Africa . .	213
8.5.1	Telecom Sector	213

8.5.2	Rural Electrification	218
8.5.3	Mining Sector	220
8.5.4	Power-to-Gas in South Africa	223
8.6	Prospects and Conclusions	225
	References	226

PART III: European Context

9	Hydrogen Energy Transition in European Union	231
	Ioan Iordache and Ioan Ștefănescu	
9.1	Introduction	231
9.2	SET-Plan	232
9.3	Fuel Cells and Hydrogen Joint Undertaking	235
9.4	The Fuel Cells and Hydrogen 2 Joint Undertaking	245
9.5	Hydrogen in Europe and the Rest of the World	255
9.6	Final Remarks	259
	References	261
	Index	263
	About the Editor	265
