

## CONTENTS

Chapter No.		Pages
<b>PART - I: Composites and geocomposites</b>		
1	<b>Use of industrial by-products as replacement of cement for the fabrication of concrete-an approach towards sustainable structures</b> Aamir Mahmood, Miroslava Pechociakova, Blanka Tomkova, Muhammad Tayyab Noman, Mechal Petru, Jiri Militky	13
2	<b>Recent advances in glass fiber-reinforced polymeric composites: preparation, properties and applications</b> Xiaoman Xiong, Mohanapriya Venkataraman, Jiří Militký and Dana Kremenakova	33
<b>PART-II: Functional Structures</b>		
3	<b>Flexible Electrically Conductive elastomers</b> Azam Ali <sup>1</sup> , Muhammad Zaman Khan <sup>1</sup> , Mohanapriya Venkataraman <sup>1</sup> , Yuanfeng Wang <sup>1</sup> , Muhammad Faisal Nadeem <sup>2</sup> , Sundaramoorthy Palanisamy <sup>1</sup> , Jiri Militky <sup>1</sup> <i><sup>1</sup>Department of Materials Engineering, Faculty of Textile Engineering, Technical University of Liberec</i> <i><sup>2</sup>University of Veterinary and Animal Sciences, Lahore, Pakistan</i>	59
4	<b>Fabrication of PCM Fibers: A Mini Review</b> Kai Yang <sup>1</sup> , Xiuling Zhang <sup>1</sup> , Mohanapriya Venkataraman <sup>1</sup> , Jakub Wiener <sup>1</sup> , Guocheng Zhu <sup>2</sup> , Juming Yao <sup>3,4</sup> , Jiri Militky <sup>1</sup> <i><sup>1</sup> Department of Material Engineering, Faculty of Textile Engineering, Technical University of Liberec, Liberec, Czech Republic</i> <i><sup>2</sup> College of Textiles and Engineering, Zhejiang Sci-tech University, Xiasha Education Park, P.R. China</i> <i><sup>3</sup> College of Materials and Engineering, Zhejiang Sci-tech University, Xiasha Education Park, P.R. China</i> <i><sup>4</sup> Ningbo University, Ningbo City, P.R. China</i>	76
5	<b>Cellulose-Based Aerogels Understading Their Origin, Preparation and Multifunctional Effect for Potential Application</b> Sebnem Sozcu, Mohanapriya Venkataraman, Jiri Militky <i>Department of Materials Engineering, Faculty of Textile Engineering, Technical University of Liberec</i>	93
6	<b>Preparations, properties and applications of graphene in functional wearable devices</b>	138

Qingyan Peng, Xiaodong Tan, Mohanapriya Venkataraman and Jiri Militky,

*Department of Materials Engineering, Faculty of Textile Engineering, Technical University of Liberec*

7 **Cellulose nanocrystal based multifunctional nanohybrids** 153

Xiaodong Tan, *Department of Materials Engineering, Faculty of Textile Engineering, Technical University of Liberec*

8 **Superhydrophobic Surfaces and their Functional Applications** 168

<sup>1\*</sup>Muhammad Zaman Khan, <sup>1</sup>Jiri Militky, Azam Ali, <sup>1</sup>Dana Křemenáková  
*<sup>1</sup>Department of Material Engineering, Faculty of Textile Engineering, Technical University of Liberec*

### **PART-III: Diverse Topics**

9 **Characterization and application of EMI shielding textiles** 191

Shi Hu, Dan Wang, Dana Kremenakova, Jiri Militky, *Department of Material Engineering, Faculty of Textile Engineering, Technical University of Liberec*

10 **Influence of fabric structure parameters on its heat transfer performance** 208

Dan Wang, Dana Kremenakova and Jiri Militký, *Dept. of Material Engineering, Faculty of Textile Engineering, Technical University of Liberec*

11 **Fundamentals Aspects of Textile Flame Retardancy** 220

Sajid Faheem, Jakub Wiener, Jiri Militky, Adnan Mazari, *<sup>1</sup>Department of Material Engineering, Faculty of Textile Engineering, Technical University of Liberec*

12 **Preparation of Luminous Fabrics by Incorporating Polymer Optical Fibers** 241

Xiuling Zhang, Kai Yang, Dana Kremenakova, Jiri Militky, *Department of Material Engineering, Faculty of Textile Engineering, Technical University of Liberec*

13 **A Review on Flexible Carbon-based Conductive Polymer Nanocomposites for Stretchable Strain Sensors** 261

Yuanfeng Wang, Azam Ali, Mohanapriya Venkataraman, Jiri Militky  
*Department of Material Engineering, Faculty of Textile Engineering, Technical University of Liberec, Liberec, Czech Republic*

14 **Hand evaluation: history and recent developments** 284

Jiří Militký, Zuzana Hrubošová<sup>1</sup> and, Vladimír Bajzík  
*Faculty of Textile Engineering, Dept. of Material Engineering, Technical University of Liberec,  
The Institute for Nanomaterials, Advanced Technologies and Innovation, Technical University of Liberec*
