<i>Preface</i> .....	<i>xiii</i>
----------------------	-------------

## 1. Introduction to Psychological Experiment..... 1-10

1.1	Historical Background of Experimental Psychology	1
1.2	Meaning of Experiment	2
1.3	Experimental Method	2
1.4	Types of Experiment	3
1.5	Variables	4
1.6	Independent and Dependent Variables	4
1.7	Control of Extraneous Variables	5
1.8	Manipulation of Experimental Variables	6
1.9	Randomisation	7
1.10	Confounding Variables	7
1.11	Experimental Design	8
1.12	Characteristics of a Good Experiment	9
	<i>References</i>	10

## 2. Conducting and Reporting an Experiment ..... 11-18

2.1	Steps Involved in Conduction of an Experiment	12
2.2	Reporting an Experiment	15
	<i>References</i>	18

## 3. Psychophysics and Psychophysical Methods..... 19-29

3.1	Introduction to Psychophysics	19
3.2	Threshold or Limen	20
3.3	Absolute Threshold or RL	20
3.4	Differential Threshold or DL	21
3.5	Point of Subjective Equality or PSE	21
3.6	Space Error and Movement Error	22
3.7	Constant Error	23

3.8	Weber's Law	23
3.9	Weber's Constant for Sense Modalities	24
3.10	Fechner's Law	24
3.11	Stevens' Power Law	25
3.12	Psychophysical Methods	26
3.13	Methods of Limits	26
3.14	Method of Constant Stimuli	27
3.15	Method of Average Error	28
	<i>References</i>	29
<b>4.</b>	<b>Psychophysical Experiments .....</b>	<b>30-67</b>
4.1	Psychophysical Methods	30
4.2	Determination of Two Point Threshold or RL by the Method of Limits	30
4.3	Comparative Study of RL for the Two Parts of the Body	36
4.4	Determination of RL by the Method of Constant Stimuli	42
4.5	Determination of DL by the Method of Limits	45
4.6	Verification of Weber's Law by the Method of Limits	49
4.7	Determination of DL by the Method of Constant Stimuli	54
4.8	Meaning and Nature of Illusion	57
4.9	Types of Illusions	58
4.10	Determination of Muller-Lyer Illusion by the Method of Average Error	58
4.11	Effect of Knowledge of Results on Muller-Lyer Illusion	63
4.12	Effect of Practice on Muller-Lyer Illusion	66
	<i>References</i>	67
<b>5.</b>	<b>Sensory Motor Learning.....</b>	<b>68-84</b>
5.1	Meaning and Nature of Learning	68
5.2	Learning and Performance	69
5.3	Learning and Maturation	70
5.4	Sensory Motor Learning	70
5.5	Effects of Practice on Sensory Motor Learning	71
5.6	Effects of Practice in Human Maze Learning	74
5.7	Role of Practice in Human Maze Learning	75
5.8	Conditioning in Sensory Motor Learning	78
5.9	Spread of Effect of Reinforcement	80
	<i>References</i>	83
<b>6.</b>	<b>Verbal Learning .....</b>	<b>85-122</b>
6.1	Introduction to Verbal Learning	85
6.2	Nonsense Syllables	85
6.3	Methods of Verbal Learning	86
6.4	Method of Free Recall	86

6.5	Method of Serial Recall	87
6.6	Method of Prompting and Anticipation	87
6.7	Method of Paired Associate	88
6.8	Comparative Study of Free Recall and Serial Recall Methods	88
6.9	Comparative Study of Serial Recall and Prompting and Anticipation Methods	93
6.10	Comparative Study of Serial Recall and Paired Associate Method	97
6.11	Serial Position Effect in Verbal Learning	101
6.12	Learning Efficacy of Meaningful and Meaningless Verbal Material	105
6.13	Effect of Similarity of Materials on Verbal Learning	109
6.14	Methods of Learning	109
6.15	Massed Vs Spaced Practice	110
6.16	Whole Vs Part Learning	114
6.17	Intentional Vs Incidental Learning	118
	References	121
<b>7.</b>	<b>Transfer of Training .....</b>	<b>123–140</b>
7.1	Meaning and Nature of Transfer of Training	123
7.2	Bilateral or Positive Transfer in Sensory Motor Learning	124
7.3	Habitat Interference or Negative Transfer in Sensory Motor Learning	128
7.4	Positive Transfer in Verbal Learning	132
7.5	Negative Transfer in Verbal Learning	136
	References	140
<b>8.</b>	<b>Remembering and Forgetting.....</b>	<b>141–179</b>
8.1	Introduction to Memory	141
8.2	Comparative Study of Recall and Recognition as Tests of Retention	142
8.3	Retention as a Function of Level of Learning	146
8.4	Retroactive and Proactive Inhibition	150
8.5	Demonstration of Phenomenon of Retroactive Inhibition	151
8.6	Demonstration of Phenomenon of Proactive Inhibition	155
8.7	Comparative Study of Proactive and Retroactive Inhibition	158
8.8	Retroactive Inhibition as a Function of the Level or Strength of Interpolated Learning	163
8.9	Retroactive Inhibition as a Function of Similarity of Task	169
8.10	Retroactive Inhibition as a Function of Temporal Location of Interpolated Task	174
	References	179
<b>9.</b>	<b>Attention .....</b>	<b>180–202</b>
9.1	Meaning and Nature of Attention	180

9.2	Characteristics of Attention	180
9.3	Span of Apprehension for Dots	181
9.4	Span of Apprehension for Unrelated Letters and Words	185
9.5	Distraction of Attention	189
9.6	Fluctuation of Attention	194
9.7	Division of Attention	198
	<i>References</i>	202
<b>10.</b>	<b>Perception .....</b>	<b>203-224</b>
10.1	Nature of Perception	203
10.2	Approaches to Perception	203
10.3	Process of Perception	204
10.4	Determinants of Perception	205
10.5	Set in Perception	206
10.6	Rate of Shift in The Perception of Reversible Figure	210
10.7	Perception of Time	211
10.8	Perceptual Accuracy of Varying Lengths of Time	216
10.9	Perception of Time Filled with Monotonous Work	220
10.10	Perceptual Defense	220
	<i>References</i>	224
<b>11.</b>	<b>Thinking and Problem Solving .....</b>	<b>225-241</b>
11.1	Meaning and Nature of Thinking	225
11.2	Types of Thinking	226
11.3	Role of Image and Language in Thinking	226
11.4	Role of Set in Thinking	227
11.5	Trial and Error in Thinking	227
11.6	Meaning of Problem Solving	228
11.7	Techniques of Problem Solving	229
11.8	Barriers to Problem Solving	229
11.9	Set in Problem Solving	230
11.10	Concept Information	235
11.11	Process of Concept Formation	237
	<i>References</i>	240
<b>12.</b>	<b>Feeling and Emotion .....</b>	<b>242-254</b>
12.1	Nature of Feeling	242
12.2	Feelings and Acceptability	242
12.3	Characteristics of Feeling	243
12.4	Colour Preference by the Method of Paired Comparison	243
12.5	Meaning and Nature of Emotion	247
12.6	Biological Basis of Emotions	247
12.7	Characteristics of Emotions	248
12.8	Kinds of Emotions	248

12.9	Correlates of Emotions	248
12.10	Measurement of Emotion	249
12.11	Effect of Affective States on Emotion	249
	<i>References</i>	254
<b>13.</b>	<b>Motivation .....</b>	<b>255-273</b>
13.1	Meaning and Nature of Motivation	255
13.2	Approaches to Motivation	255
13.3	Kinds of Motives	257
13.4	Measurement of Motives	257
13.5	Importance of Motivation in Learning or Performance	258
13.6	Effect of Knowledge of Results on Performance	259
13.7	Need Tension Theory	263
13.8	Zeigarnik Effect or Zeigarnik Phenomenon	263
13.9	Frustration and Performance	268
13.10	Determination of Level of Aspiration	269
	<i>References</i>	273
<b>14.</b>	<b>Reaction Time.....</b>	<b>274-288</b>
14.1	Meaning of Reaction Time	274
14.2	Types of Reaction Time	274
14.3	Duration of Sensitivity of Stimulus	275
14.4	Effect of Fore Period on Reaction Time	275
14.5	Effect of Mental Set on Reaction Time or Comparative Study of Sensory and Muscular Reaction Time	279
14.6	Comparative Study of Simple and Complex Reaction Time	283
	<i>References</i>	288
<b>15.</b>	<b>Work and Fatigue .....</b>	<b>289-304</b>
15.1	Meaning of Work	289
15.2	Meaning and Nature of Fatigue	289
15.3	Difference between Physical and Mental Fatigue	290
15.4	Effect of Fatigue on Physical Work	290
15.5	Effect of Rest Pause on Physical Work	295
15.6	Effect of Fatigue on Mental Work	300
	<i>References</i>	304
	<b><i>Subject Index</i> .....</b>	<b>305-306</b>
	<b><i>Author Index</i>.....</b>	<b>307-309</b>
