

Brief Contents

CHAPTER 1	Evolution, Diversity, and Classification of Vertebrates	1
CHAPTER 2	What Is a Vertebrate?	19
CHAPTER 3	Jawless Vertebrates and the Origin of Jawed Vertebrates	41
CHAPTER 4	Living in Water	65
CHAPTER 5	Geography and Ecology of the Paleozoic Era	83
CHAPTER 6	Radiation and Diversification of Chondrichthyes	95
CHAPTER 7	Extant Chondrichthyans	103
CHAPTER 8	Radiation and Diversity of Osteichthyes	121
CHAPTER 9	Extant Bony Fishes	133
CHAPTER 10	Origin and Radiation of Tetrapods	161
CHAPTER 11	Extant Amphibians	181
CHAPTER 12	Living on Land	211
CHAPTER 13	Geography and Ecology of the Mesozoic Era	233
CHAPTER 14	Synapsids and Sauropsids	241
CHAPTER 15	Ectothermy: A Low-Energy Approach to Life	269
CHAPTER 16	Turtles	283
CHAPTER 17	Lepidosauurs	301
CHAPTER 18	Crocodylians	329
CHAPTER 19	Mesozoic Diapsids: Dinosaurs and Others	343
CHAPTER 20	Endothermy: A High-Energy Approach to Life	371
CHAPTER 21	The Origin and Radiation of Birds	387
CHAPTER 22	Extant Birds	399
CHAPTER 23	Geography and Ecology of the Cenozoic Era	435
CHAPTER 24	Synapsida and the Evolution of Mammals	451
CHAPTER 25	Extant Mammals	481
CHAPTER 26	Primate Evolution and the Emergence of Humans	519
