Preface	v
Foreword	vii
Acknowledgements	ix
Abbreviations	x
Recommendations and evidence	xvii
Chapter 1 Cardiac anatomy	1
Chapter 2 Cardiac physiology	33
Chapter 3 Cardiac pharmacology	67
Chapter 4 Electrocardiography	83
Chapter 5 Echocardiography	119
Chapter 6 Cardiac catheterisation	155
Chapter 7 Radiological imaging	173
Chapter 8 Cardiopulmonary bypass	199
Chapter 9 Cardiopulmonary bypass scenarios	219
Chapter 10 Adjuncts to cardiopulmonary bypass	229
Chapter 11 Myocardial protection	243
Chapter 12 Aortic valve disease	255
Chapter 13 Mitral valve disease	283

Chapter 14	Tricuspid valve disease	305
Chapter 15	Infective endocarditis	313
Chapter 16	Thoracic aortic disease	321
Chapter 17	Coronary artery disease	349
Chapter 18	Heart failure	383
Chapter 19	Arrhythmia surgery	411
Chapter 20	Pericardial disease, cardiac tumours and cardiac trauma	423
Chapter 21	Cardiac anaesthesia and intensive care management	441
Chapter 22	Postoperative management	461
Appendix I	Transoesophageal echocardiographic views	469
Appendix II	Transthoracic echocardiographic views	470
Appendix III	Normal echocardiographic values	471
Appendix IV	Standard coronary angiographic views	472
Appendix V	Normal arterial blood gas values	474
Appendix VI	Normal cardiac physiological values	475
Appendix VII	AHA guidelines for quantifying the severity of valvular disease	476
Appendix VIII	EuroSCORE	477
