Chapter 1 The Study of Human Development 1

Developmental Science 3

Periods of Development 4

Domains of Development 4

Contexts of Development 4

Children, Society, and Science 5

Historical Beliefs About Children and Childhood 5

The Emergence of Developmental Science 9

The New Field of Developmental Science 11

The Central Issues of Developmental Science 11

Questions About the Sources of Development 12

Questions About Plasticity 13

Questions About Continuity/Discontinuity 13

Questions About Individual Differences 15

Theories of Development 16

Theory in Developmental Science 17

Grand Theories 17

Modern Theories 23

Methods for Studying Development 29

The Goals of Developmental Research 30

Criteria for Developmental Research 31

Methods of Data Collection 32

Research Designs 37

Ethical Standards 41

Looking Ahead 43

Summary 44

PART ONE | In the Beginning 46

Chapter 2 Biocultural Foundations 49

Inheriting Culture 51

The Tools of Culture 52

Processes of Cultural Inheritance 53

The Complexity of Culture 55

Biological Inheritance 56

Genes and Traits 57

Evolution's Process of Natural Selection 57

Genetic Inheritance Through Sexual Reproduction 58

Laws of Genetic Inheritance 61

Mutations and Genetic Abnormalities 62

The Phenotype: From Genes to Traits 67

Heritability 68

Genotypes, Phenotypes, and Human Behavior 70

The Coevolution of Culture and Biology 72

Lactose Tolerance 72

Sickle-Cell Anemia 73

Looking Ahead 74

Summary 75

CHAPTER 1 BOXES

Now Trending in Practice:
Helping Refugee Families in
Transition 6

In The Field: Probing the
Mysteries of Learning 24

Now Trending in Research:
Observing the Living Brain 33

Understanding Causes and
Correlations 36

PART THREE | Early Childhood 224**Chapter 7 Language Acquisition 227**

The Power and Foundations of Language 228

Keys to the World of Language 232

The Biological Key to Language 232

The Environmental Key to Language 235

The Basic Domains of Language Acquisition 239

Phonological Development 240

Semantic Development 242

Grammar Development 246

Pragmatic Development 249

Explanations of Language Acquisition 252

Biological Explanations 252

Social and Cultural Explanations 253

Constructivist and Dynamic Systems Approaches 255

Looking Ahead 258

Summary 258

Chapter 8 Physical and Cognitive Development in Early Childhood 261

Physical and Motor Development 262

The Changing Body 262

Motor Development 263

Health 264

Brain Development 266

Preoperational Development 267

Centration 268

The Problem of Uneven Levels of Performance 273

Information-Processing Approaches to Cognitive
Development 273

Cognitive Development in Privileged Domains 277

The Domain of Psychology 277

The Domain of Biology 279

The Domain of Physics 280

Explaining Domain-Specific Cognitive Development 281

Cognitive Development and Culture 286

Cultural Scripts 286

Cultural Context and the Unevenness of Development 288

Looking Ahead 290

Summary 290

Chapter 9 Social and Emotional Development in Early Childhood 293
