

*"The Environment in Anthropology* reads like a 'Greatest Hits' of environmental anthropology in recent years. I have taught many of these authors and concepts due to their engaging tone and critical edge; it is empowering to have them all collected here, in a volume structured for conceptual and chronological clarity, without foreclosing on the creativity of this field, still so much under construction. This volume stands as an assemblage of excellent work that invites further contributions. It showcases the range of epistemic approaches and contexts from which what we might call new environmental anthropology is currently emerging."

—Rebecca Hardin, University of Michigan

"Provides the theoretical refinements and ethnographic illustrations necessary for students to grasp the local and the global complexities of cultural ecology in the twenty-first century. This text is pedagogically sophisticated, facilitating cognitive development by engaging students in a cultural critique of dominant Western ideologies and institutions and challenging them to consider their individual options for not only a sustainable future, but a more meaningful life."

—Barbara J. Dilly, Creighton University

*The Environment in Anthropology* presents ecology and environmental studies from an anthropological point of view. From the classics to the most current scholarship, this text connects theory and practice in the study of environment and anthropology.

This revised edition addresses new topics such as water, toxic waste, neoliberalism, environmental history, environmental activism, and REDD (Reducing Emissions from Deforestation and Forest Degradation), and it situates anthropology in the multidisciplinary field of environmental research. It also offers readers a guide for developing their own plan for environmental action.

The volume offers an introduction to the breadth of ecological and environmental anthropology as well as to its historical trends and current developments. Balancing landmark essays with cutting-edge scholarship, bridging theory and practice, and offering suggestions for further reading and new directions for research, *The Environment in Anthropology* continues to provide the ideal introduction to a burgeoning field.

NORA HAENN is Associate Professor of Anthropology at North Carolina State University.

RICHARD R. WILK is Distinguished Professor and Provost's Professor of Anthropology at Indiana University, where he directs the Food Studies Program.

ALLISON HARNISH is Assistant Professor of Anthropology at Albion College (MI).

Acknowledgments	ix
General Introduction	1
SECTION 1. SO, WHAT IS ENVIRONMENTAL ANTHROPOLOGY?	3
1. The Concept and Method of Cultural Ecology	12
<i>Julian Steward</i>	
2. Smallholders, Householders	18
<i>Robert McC. Netting</i>	
3. False Forest History, Complicit Social Analysis: Rethinking Some West African Environmental Narratives	24
<i>James Fairhead and Melissa Leach</i>	
4. Gender and Environment: A Feminist Political Ecology Perspective	34
<i>Dianne Rocheleau, Barbara Thomas-Slayter, and Esther Wangari</i>	
5. A View from a Point: Ethnoecology as Situated Knowledge	41
<i>Virginia D. Nazarea</i>	
6. Ethics Primer for University Students Intending to Become Natural Resources Managers and Administrators	48
<i>Richard J. McNeil</i>	
SECTION 2. WHAT DOES POPULATION HAVE TO DO WITH IT?	57
7. Ester Boserup's Theory of Agrarian Change: A Critical Review	64
<i>David Grigg</i>	
8. The Benefits of the Commons	68
<i>Fikret Berkes, David Feeny, Bonnie J. McCay, and James M. Acheson</i>	
9. 7 Billion and Counting	75
<i>David Bloom</i>	
10. Rural Household Demographics, Livelihoods, and the Environment	79
<i>Alex de Sherbinin, Leah VanWey, Kendra McSweeney, Rimjhim Aggarwal, Alisson Barbieri, Sabine Henry, Lori M. Hunter, Wayne Twine, and Robert Walker</i>	
11. Carrying Capacity's New Guise: Folk Models for Public Debate and Longitudinal Study of Environmental Change	91
<i>Lisa Cliggett</i>	

12. The Environment as Geopolitical Threat: Reading Robert Kaplan's "Coming Anarchy"	102
<i>Simon Dalby</i>	
SECTION 3. WHAT ARE URBAN, RURAL, AND SUBURBAN ENVIRONMENTS?	
13. The Growth of World Urbanism	124
<i>Charles Redman</i>	
14. Economic Growth and the Environment	140
<i>Theodore Panayotou</i>	
15. Bhopal: Vulnerability, Routinization, and the Chronic Disaster	149
<i>S. Ravi Rajan</i>	
16. The Lawn-Chemical Economy and Its Discontents	159
<i>Paul Robbins and Julie Sharp</i>	
17. Addictive Economies and Coal Dependency: Methods of Extraction and Socioeconomic Outcomes in West Virginia, 1997–2009	170
<i>Robert Todd Perdue and Gregory Pavela</i>	
18. The Anti-Politics Machine: "Development" and Bureaucratic Power in Lesotho	185
<i>James Ferguson with Larry Lohmann</i>	
SECTION 4. HOW DOES GLOBALIZATION AFFECT ENVIRONMENT AND CULTURE?	
19. How Do We Know We Have Global Environmental Problems? Science and the Globalization of Environmental Discourse	202
<i>Peter J. Taylor and Frederick H. Buttel</i>	
20. Bottled Water: The Pure Commodity in the Age of Branding	214
<i>Richard R. Wilk</i>	
21. Indigenous Initiatives and Petroleum Politics in the Ecuadorian Amazon	222
<i>Suzana Sawyer</i>	
22. Land Tenure and REDD+: The Good, the Bad, and the Ugly	229
<i>Anne M. Larson, Maria Brockhaus, William D. Sunderlin, Amy Duchelle, Andrea Babon, Therese Dokken, Thu Thuy Pham, I. A. P. Resosudarmo, Galia Selaya, Abdon Awono, and Thu-Ba Huynh</i>	
23. Friction: An Ethnography of Global Connection	241
<i>Anna Lowenhaupt Tsing</i>	

SECTION 5. HOW DO IDENTITIES SHAPE ECOLOGICAL EXPERIENCES?	245
24. Cultural Theory and Environmentalism <i>Kay Milton</i>	250
25. Endangered Forests, Endangered People: Environmentalist Representations of Indigenous Knowledge <i>J. Peter Brosius</i>	254
26. The Nature of Gender: Gender, Work, and Environment <i>Andrea Nightingale</i>	274
27. “But I Know It’s True”: Environmental Risk Assessment, Justice, and Anthropology <i>Melissa Checker</i>	286
28. Bringing the Moral Economy Back in . . . to the Study of 21st-Century Transnational Peasant Movements <i>Marc Edelman</i>	300
29. How to Queer Ecology: One Goose at a Time <i>Alex Carr Johnson</i>	310
SECTION 6. CAN BIODIVERSITY BE CONSERVED?	317
30. Neoliberal Conservation: A Brief Introduction <i>Jim Igoe and Dan Brockington</i>	324
31. The Power of Environmental Knowledge: Ethnoecology and Environmental Conflicts in Mexican Conservation <i>Nora Haenn</i>	332
32. Radical Ecology and Conservation Science: An Australian Perspective <i>Libby Robin</i>	344
33. Stolen Apes: The Illicit Trade in Chimpanzees, Gorillas, Bonobos, and Orangutans <i>Daniel Stiles, Ian Redmond, Doug Cress, Christian Nellemann, and Rannveig Knutsdatter Formo</i>	359
34. Difference and Conflict in the Struggle over Natural Resources: A Political Ecology Framework <i>Arturo Escobar</i>	362
SECTION 7. IS GREEN CONSUMERISM THE ANSWER?	369
35. The Invisible Giant: Cargill and Its Transnational Strategies <i>Brewster Kneen</i>	373

36. Treading Lightly? Ecotourism's Impact on the Environment	380
<i>Martha Honey</i>	
37. What Is Degrowth? From an Activist Slogan to a Social Movement	390
<i>Federico Demaria, François Schneider, Filka Sekulova, and Joan Martinez-Alier</i>	
38. Protecting the Environment the Natural Way: Ethical Consumption and Commodity Fetishism	401
<i>James G. Carrier</i>	
SECTION 8. OKAY, NOW WHAT?	411
39. Living Up to Our Words	416
<i>Paul Durrenberger</i>	
40. Social Responsibility and the Anthropological Citizen	423
<i>Barbara Rose Johnston</i>	
41. World Is Burning, Sky Is Falling, All Hands on Deck! Reflections on Engaged and Action-Oriented Socio-Environmental Scholarship	445
<i>Garrett Graddy-Lovelace, Allison Harnish, and Julianne A. Hazlewood</i>	
42. A Wonderfully Incomplete Bibliography of Action-Oriented Anthropology and Applied Environmental Social Science	482
<i>Allison Harnish, Julianne A. Hazlewood, Amanda Bedker, and Sydney Roeder</i>
