

CONTENT

1 GENERAL CHARACTERISTICS OF BLAST MELTING	5
1.1. The physical nature of the melting.....	5
1.2 Some common features energy consumption in blast-furnace smelting.....	9
1.3. Coke as a heat source.....	10
1.4. Coke in recovery processes.....	16
1.5. Influence of coke quality on gas dynamics and indicators of blast furnace smelting.....	20
2. INFLUENCE OF THE PROPERTIES RAW COAL MATERIALS AND COKING TECHNOLOGY ON THE CHARACTERISTICS OF COKE UNDER THE CONDITIONS OF MULTI-BASIN RAW MATERIAL BASE	22
2.1 Influence of the moisture and ash content of coal batch on the physicommechanical characteristics of the coke.....	22
2.2 Analysis of changes in particle size distribution of coke on the example of the coke plant in Krivyyi Rih.....	34
2.3 Granulometric composition of the coke as a function of the coal batch properties.....	42
3 CURRENT ASPECTS OF PREVENTION OF COAL FREEZING.....	56
3.1 Transportation of coal concentrates at negative ambient temperatures. Prevention of coal freezing by the chlorides of alkaline-earth and alkaline metals.....	56
3.2 Dependence of coal's freezing point on its granulometric composition.....	62
3.3 Aspects of prevention of coal freezing by means of acetates of alkaline-earth and alkaline metals	73

3.4 Prevention of coal freezing by means of silicone polymer.....	82
4 CONTROL AND MANAGEMENT OF PREPARATION OF COAL BATCHES FOR COKING.....	89
4.1 Development of a method of electroosmotic dehydration coal before coking.....	89
4.2 Predicting the reactivity and hot strength of coke on the basis of ash basicity.....	91
4.3. Optimizing the composition of coal batch by means of petrographic characteristics.....	104
4.4 Optimizing the degree of crushing by means of petrographic characteristics of the batch components.....	110
4.5 Optimizing the degree of crushing of coal blends with an increased content of coals of the middle stage of metamorphism for the production of the blast-furnace coke.....	118
4.6 Research of the mechanism of influence of degree grinding on the mechanical properties of coke.....	126
5 INFLUENCE OF COKE QUALITY ON THE EFFICIENCY IN BLAST FURNACES.....	140
5.1 Coke Quality and Blast-Furnace Performance.....	140
5.2 Influence of the stability of coke quality on its consumption in the blast furnace.....	153
5.3 Influence of coke quality on the efficiency in blast furnaces of different size.....	159
5.4 Economic benefits from optima drum treatment of blast furnace coke.....	172
