List of contributors	page x
Preface	xiii
PART I Introductory perspectives	1
1 When is a landscape perspective important?	3
LENORE FAHRIG	
2 Incorporating geographical (biophysical) principles in studies of landscape systems	11
JERZY SOLON	
PART II Theory, experiments, and models in landscape ecology	21
3 Theory in landscape ecology	23
R. V. O'NEILL	
4 Hierarchy theory and the landscape ... level? or, Words do matter	29
ANTHONY W. KING	
5 Equilibrium versus non-equilibrium landscapes	36
H. H. SHUGART	
6 Disturbances and landscapes: the little things count	42
JOHN A. LUDWIG	
7 Scale and an organism-centric focus for studying interspecific interactions in landscapes	52
RALPH MAC NALLY	
8 The role of experiments in landscape ecology	70
ROLF A. IMS	
9 Spatial modeling in landscape ecology	79
JANA VERBOOM AND WIEGER WAMELINK	

10	The promise of landscape modeling: successes, failures, and evolution	90
	DAVID J. MLADENOFF	
PART III Landscape patterns		101
11	Landscape pattern: context and process	103
	ROY HAINES-YOUNG	
12	The gradient concept of landscape structure	112
	KEVIN MCGARIGAL AND SAMUEL A. CUSHMAN	
13	Perspectives on the use of land-cover data for ecological investigations	120
	THOMAS R. LOVELAND, ALISA L. GALLANT, AND JAMES E. VOGELMANN	
PART IV Landscape dynamics on multiple scales		129
14	Landscape sensitivity and timescales of landscape change	131
	MICHAEL F. THOMAS	
15	The time dimension in landscape ecology: cultural soils and spatial pattern in early landscapes	152
	DONALD A. DAVIDSON AND IAN A. SIMPSON	
16	The legacy of landscape history: the role of paleoecological analysis	159
	HAZEL R. DELCOURT AND PAUL A. DELCOURT	
17	Landscape ecology and global change	167
	RONALD P. NEILSON	
PART V Applications of landscape ecology		179
18	Landscape ecology as the broker between information supply and management application	181
	FRANS KLIJN	
19	Farmlands for farming and nature	193
	KATHRYN FREEMARK	
20	Landscape ecology and forest management	201
	THOMAS R. CROW	
21	Landscape ecology and wildlife management	208
	JØRUND ROLSTAD	
22	Restoration ecology and landscape ecology	217
	RICHARD J. HOBBS	

23	Conservation planning at the landscape scale	230
	CHRIS MARGULES	
24	Landscape conservation: a new paradigm for the conservation of biodiversity	238
	KIMBERLY A. WITH	
25	The “why?” and the “so what?” of riverine landscapes	248
	HENRI DÉCAMPS	
PART VI	Cultural perspectives and landscape planning	257
26	The nature of lowland rivers: a search for river identity	259
	BAS PEDROLI	
27	Using cultural knowledge to make new landscape patterns	274
	JOAN IVERSON NASSAUER	
28	The critical divide: landscape policy and its implementation	281
	NANCY POLLOCK-ELLWAND	
29	Landscape ecology: principles of cognition and the political-economic dimension	296
	JÁN OT’AHEL’	
30	Integration of landscape ecology and landscape architecture: an evolutionary and reciprocal process	307
	JACK AHERN	
31	Landscape ecology in land-use planning	316
	ROB H. G. JONGMAN	
PART VII	Retrospect and prospect	329
32	The land unit as a black box: a Pandora’s box?	331
	I. S. ZONNEVELD	
33	Toward a transdisciplinary landscape science	346
	ZEV NAVEH	
34	Toward fostering recognition of landscape ecology	355
	MICHAEL R. MOSS	
35	Toward a unified landscape ecology	365
	JOHN A. WIENS	
	Index	374
	The color plates follow page 128
