

CONTENTS

Editorial: About the Workshop	3
On the use of ecdysteroid nomenclature — P. KARLSON	7
Ecdysteroid biosynthesis and inactivation in relation to function — H.H. REES	9
Analysis of ecdysteroid conjugates: Chromatographic characterization of sulfates, phosphates and glucosides — J. PÍŠ, J.-P. GIRAULT, V. GRAU & R. LAFONT	41
Characterization of the glycosylated ecdysteroids in the hemolymph of baculovirus-infected gypsy moth larvae and cells in culture — T.J. KELLY, E.J. PARK, C.A. MASLER & J.P. BURAND	51
Metabolism of 3-dehydroecdysone in the crayfish <i>Orconectes limosus</i> (Crustacea: Decapoda) — D. BÖCKING, C. DAUPHIN-VILLEMANT & R. LAFONT	63
Three new antisera with high sensitivity to ecdysone, 3-dehydroecdysone and other A-ring derivatives: Production and characterization — U. VON GLISCYNSKI, J.-P. DELBECQUE, D. BÖCKING, D. SEDLMEIER, H. DIRKSEN & R. LAFONT	75
Ecdysteroid release and ecdysteroid titer during larval-adult development of the Mediterranean field cricket, <i>Gryllus bimaculatus</i> (Ensifera: Gryllidae) — B. GERSTENLAUER & K.H. HOFFMANN ..	81
The ovary is a source of circulating ecdysteroids in <i>Blattella germanica</i> (Dictyoptera: Blattellidae) — I. ROMAÑA, N. PASCUAL & X. BELLÉS	93
Autoradiographic and morphological investigations of the defensive ecdysteroid glands in adult <i>Pycnogonum litorale</i> (Arthropoda: Pantopoda) — K.-H. TOMASCHKO	105
Non-cerebral ecdysiotropic and gonadotropic activities from the mosquito <i>Aedes aegypti</i> (Diptera: Culicidae) — E.P. MASLER & T.J. KELLY	113
Low molecular weight ecdysiotropins in proctodea of fifth instars of the tobacco hornworm, <i>Manduca sexta</i> (Lepidoptera: Sphingidae), and hosts parasitized by the braconid wasp <i>Cotesia congregata</i> (Hymenoptera: Braconidae) — D.B. GELMAN & N.E. BECKAGE	123
Low molecular weight ecdysiotropins in the hemolymph of 5th instars of the European corn borer, <i>Ostrinia nubilalis</i> (Lepidoptera: Pyralidae), and the gypsy moth, <i>Lymantria dispar</i> (Lepidoptera: Lymantriidae) — D.B. GELMAN & R.A. BELL	131
Pleiotropic effects of trypsin modulating oostatic factor (Neb-TMOF) of the fleshfly <i>Neobellieria bullata</i> (Diptera: Calliphoridae) — D. BYLEMANS, Y.-J. HUA, S.-J. CHIOU, J. KOOLMAN, D. BOROVSKY & A. DE LOOF	143
<i>Drosophila</i> "elastin-type" gene identified with antibody to <i>Bombyx</i> TH — W.W. LI, V.A. FILIPPOV, M.A. FILIPPOVA, M. JINDRA & F. SEHNAL	151
The different effects of ecdysone and 20-hydroxyecdysone on the induction of larval ecdysis in the silkworm, <i>Bombyx mori</i> (Lepidoptera: Bombycidae) — Y. TANAKA	155
Color pattern specific melanin synthesis is controlled by ecdysteroids via dopa decarboxylase in wings of <i>Precis coenia</i> (Lepidoptera: Nymphalidae) — P.B. KOCH	161
Genetics of ecdysteroid-regulated central nervous system metamorphosis in <i>Drosophila</i> (Diptera: Drosophilidae) — L.L. RESTIFO, P.S. ESTES & C. DELLO RUSSO	169
Ovary-specific interaction of ecdysone 22-phosphate with proteins in adult <i>Drosophila melanogaster</i> (Diptera: Drosophilidae) — V. GRAU, J. PÍŠ & R. LAFONT	189
Influence of ovary and ecdysteroids on pheromone biosynthesis in <i>Drosophila melanogaster</i> (Diptera: Drosophilidae) — C. WICKER & J.M. JALLON	197
Developmental variability of the antibacterial response in larvae and pupae of <i>Calliphora vicina</i> (Diptera: Calliphoridae) and <i>Drosophila melanogaster</i> (Diptera: Drosophilidae) — S.I. CHERNYSH, N.P. SIMONENKO, A. BRAUN & M. MEISTER	203
Cuticular protein genes in <i>Tenebrio molitor</i> (Coleoptera: Tenebrionidae) — I. RONDOT, H. BOUHIN, J.P. CHARLES, J. MATHELIN & J. DELACHAMBRE	211
Stage specific ecdysteroid response of larval hemolymph protein genes in <i>Galleria mellonella</i> (Lepidoptera: Pyralidae) — C. WANG, A. DUTTA-GUPTA & A.K. KUMARAN	215
Effect of 20-hydroxyecdysone on synthesis and uptake of arylphorin by the larval fat body of <i>Calliphora vicina</i> (Diptera: Calliphoridae) — T. BURMESTER, U. MATZNER & K. SCHELLER	217
