SYNOPSIS

- Web construction patterns in a range of orb-weaving spiders — S. ZSCHOKKE & F. VOLLRATH 523

ARTICLES

- Respiratory cycles of *Chelifer cancroides* (Pseudoscorpiones) and *Galeodes* sp. (Solifugae) — K. SLÁMA 543
- Drapetisca socialis* (Araneae: Linyphiidae): Web reduction – ethological and morphological adaptations — K. SCHÜTT 553
- Embryonic and postembryonic morphogenesis of the visual, venom- and silk-gland systems in two species of *Peucetia* (Araneae: Oxyopidae) — J. KOVOOR & A. MUÑOZ-CUEVAS 565
- The role of soil predators in decomposition processes — A. KAJAK 573
- A review of the family Agelenidae (Araneae) in Bulgaria. Taxonomic, faunistic and zoogeographical analysis — C. DELTSHEV 581
- The genus *Mogrus* (Araneae: Salticidae) of Central Asia — D.V. LOGUNOV 589

SHORT NOTE

- Twig-lining in a trapdoor spider *Latouchia swinhoei* (Araneae: Ctenizidae) from Okinawa — J. HAUPT 605
