1.1.5 Modern History	13
1.1.6 Displacement of Czechs from the Sudetenland 1938.....	13
1.1.7 Rural development in the Czech Republic after the World War II	13
1.1.8 Landscape Development After 1990.....	16
1.2 Settlements and their connection to the land	16
1.2.1 Town.....	16
1.2.2 Rural settlement.....	24
1.2.3 Landscape of rural areas in relation to communities	27
2 Methods of landscape analysis	31
2.1 Methods of landscape planning	31
2.1.1 Epistemological methods (cognitive).....	31
2.1.2 Interpretation methods	31
2.1.3 Design methods.....	32
3 Types of landscape planning	34
3.1 Introduction	34
3.1.1 Stages of Landscape Planning	35
3.1.2 Landscape Plan.....	35

3.2	LANDEP.....	36
4	International trends in landscape and spatial planning and their importance for regional development	40
4.1	Documents of the global community for sustainable development.....	40
4.2	Documents for sustainable development.....	40
4.2.1	Signs of sustainable spatial development of cities and regions in Europe (Beatley 2003).....	43
4.2.2	European Common Indicators of sustainable development.....	44
4.2.3	Sustainability of rural development	45
4.3	Landscape Convention	46
5	Spatial/regional planning	48
5.1	Objectives and tasks of spatial planning.....	48
5.2	Legislation	49
5.3	Link to landscape planning and regional development.....	52
5.4	Spatial planning authorities	53
5.5	Planning tools.....	54
6	Spatial Development Policy	56
7	Spatial planning material	70
7.1	Spatial analytical material:.....	70
7.1.1	Drawing-up analytical material pursuant to section 27 of the Building Act	72
7.1.2	Update of analytical material pursuant to section 28 of the Building Act	73
7.1.3	Discussing the analytical material pursuant to section 29 of the Building Act.....	73
7.2	Territorial studies	74
8	Spatial planning documentation	75

8.1	Spatial development principles	75
8.1.1	Content of spatial development principles:.....	75
8.1.2	How to draft principles of territorial development	81
8.1.3	Report on implementation of ZÚR.....	82
8.1.4	Storing, providing and disclosure.....	82
8.1.5	Link to other spatial planning tools.....	83
8.1.6	Content of the ZÚR impact assessment on sustainable development....	84
8.2	Land use plan	85
8.2.1	Content of the land use plan.....	85
8.3	Regulatory plan.....	109
9	Zoning and planning decisions, permission & measures	111
9.1	Zoning and planning decision	111
9.2	Planning permission	111
9.3	Land use measures	112
10	Appendix – Examples of seminar papers	113
10.1	Evaluation of principles of spatial development of the Pardubice Region - Water Management – areas and corridors of technical infrastructure of supra- local importance	113
10.2	Evaluation of the land use plan of Pustiměř	117
11	Thematic areas of available electronic resources for self-study	130
11.1	International Conventions and political agreements.....	130
11.2	Landscape architecture and town planning	133
11.3	Capacity, sensitivity and vulnerability of the landscape	134
11.4	Landscape and spatial planning and regional and sustainable development	138
11.5	Using Geographic Information technologies in landscape and spatial planning	140
11.6	Landscape and spatial planning and management of natural resources.....	141
11.7	Socio-economic aspects of landscape and spatial planning	141
11.8	Landscape plans, land use plans, land consolidation, impact assessment	143

11.9 Landscape-ecological foundations of landscape and spatial planning.....	146
12 Bibliography	147
12.1 Bibliography	147
12.2 Legislation	148
