## Part I Foundation

---

|          |  |    |
|----------|--|----|
| <b>1</b> | <b>Introduction</b>                                  | 3  |
| 1.1      | Motivation and Definitions                           | 4  |
| 1.2      | Business Process Lifecycle                           | 11 |
| 1.3      | Classification of Business Processes                 | 17 |
| 1.4      | Structure, and Organization                          | 21 |
| <b>2</b> | <b>Evolution of Enterprise Systems Architectures</b> | 23 |
| 2.1      | Traditional Application Development                  | 24 |
| 2.2      | Enterprise Applications and their Integration        | 26 |
| 2.3      | Enterprise Modelling and Process Orientation         | 37 |
| 2.4      | Workflow Management                                  | 47 |
| 2.5      | Enterprise Services Computing                        | 55 |
| 2.6      | Summary  | 63 |
|          | Bibliographical Notes                                | 65 |

## Part II Business Process Modelling

---

|          |  |     |
|----------|--|-----|
| <b>3</b> | <b>Business Process Modelling Foundation</b>   | 71  |
| 3.1      | Conceptual Model and Terminology               | 71  |
| 3.2      | Abstraction Concepts                           | 73  |
| 3.3      | From Business Functions to Business Processes  | 76  |
| 3.4      | Activity Models and Activity Instances         | 81  |
| 3.5      | Process Models and Process Instances           | 85  |
| 3.6      | Process Interactions                           | 94  |
| 3.7      | Further Modelling Dimensions                   | 96  |
| 3.8      | Business Process Flexibility                   | 109 |
| 3.9      | Architecture of Process Execution Environments | 118 |
|          | Bibliographical Notes                          | 121 |

|          |   |     |
|----------|---|-----|
| <b>4</b> | <b>Process Orchestrations</b>           | 123 |
| 4.1      | Control Flow Patterns                   | 124 |
| 4.2      | Petri Nets                              | 147 |
| 4.3      | Event-driven Process Chains             | 157 |
| 4.4      | Workflow Nets                           | 167 |
| 4.5      | Yet Another Workflow Language           | 180 |
| 4.6      | Graph-Based Workflow Language           | 198 |
| 4.7      | Business Process Model and Notation     | 204 |
|          | Bibliographical Notes                   | 239 |
| <b>5</b> | <b>Business Decision Modelling</b>      | 241 |
| 5.1      | Motivation                              | 241 |
| 5.2      | Decision Model and Notation Overview    | 244 |
| 5.3      | Decision Tables                         | 249 |
| 5.4      | Hit Policies                            | 252 |
|          | Bibliographical Notes                   | 257 |
| <b>6</b> | <b>Process Choreographies</b>           | 259 |
| 6.1      | Motivation and Terminology              | 260 |
| 6.2      | Development Phases                      | 263 |
| 6.3      | Process Choreography Design             | 265 |
| 6.4      | Process Choreography Implementation     | 276 |
| 6.5      | Service Interaction Patterns            | 283 |
| 6.6      | Let's Dance                             | 291 |
| 6.7      | Choreography Modelling in BPMN          | 295 |
|          | Bibliographical Notes                   | 305 |
| <b>7</b> | <b>Properties of Business Processes</b> | 307 |
| 7.1      | Data Dependencies                       | 308 |
| 7.2      | Object Lifecycle Conformance            | 310 |
| 7.3      | Structural Soundness                    | 313 |
| 7.4      | Soundness                               | 314 |
| 7.5      | Relaxed Soundness                       | 322 |
| 7.6      | Further Soundness Criteria              | 327 |
| 7.7      | Decision Soundness                      | 342 |
|          | Bibliographical Notes                   | 347 |

---

### Part III Architectures and Methodologies

---

|          |  |     |
|----------|--|-----|
| <b>8</b> | <b>Business Process Management Architectures</b> | 351 |
| 8.1      | Workflow Management Architectures                | 351 |
| 8.2      | Web Services and their Composition               | 356 |
| 8.3      | Advanced Service Composition                     | 365 |
| 8.4      | Data-Driven Processes: Case Handling             | 374 |

|  |            |
|--|------------|
| Bibliographical Notes .....                            | 382        |
| <b>9 Business Process Management Methodology .....</b> | <b>385</b> |
| 9.1 Dependencies between Processes.....                | 385        |
| 9.2 Methodology Overview .....                         | 388        |
| 9.3 Phases in Detail .....                             | 390        |
| Bibliographical Notes .....                            | 399        |
| <b>References .....</b>                                | <b>401</b> |
| <b>Index .....</b>                                     | <b>413</b> |
