

CONTENTS

1	INTRODUCTION.....	5
1.1	Total joint replacements.....	5
1.2	UHMWPE in total joint replacements.....	5
1.3	New generations of UHMWPE for TJR.....	6
1.4	Subject of this habilitation thesis.....	7
2	MONITORING OF UHMWPE WEAR.....	8
2.1	Quantification of UHMWPE wear particles.....	8
2.1.1	Existing quantification methods.....	8
2.1.2	Development of new and more efficient methods.....	8
2.2	Orthopedic evaluation.....	11
2.2.1	Correlation between UHMWPE wear and tissue damage.....	11
2.2.2	Further problems associated with wear particles.....	14
3	MINIMIZATION OF UHMWPE WEAR.....	16
3.1	Modifications of UHMWPE.....	17
3.1.1	Electron beam irradiation.....	17
3.1.2	Gamma irradiation.....	20
3.2	UHMWPE with optimized properties.....	23
3.2.1	PE-IMC: 1st generation highly-crosslinked UHMWPE.....	23
3.2.2	Comparison of PE-IMC with other highly-crosslinked UHMWPEs.....	24
4	SUMMARY.....	26
5	PAPERS INCLUDED IN THE HABILITATION THESIS.....	27
5.1	Impacted journals.....	27
5.2	Patents.....	28
5.3	Other publication related to habilitation thesis.....	28
5.3.1	Book chapters.....	28
5.3.2	Publications in local orthopedic journal.....	28
5.3.3	Patents.....	29
5.3.4	Research reports.....	29
6	REFERENCES.....	30
7	ABSTRACT.....	34
