| <b>Chapter 3: National Economic Development Strategy and Intellectual Property</b>  | <b>55</b> |
| – <i>Market Orientation</i>   |           |
| – <i>Export Orientation</i>   |           |
| – <i>Foreign Direct Investment: Joint Ventures</i>  |           |
| – <i>Technology Transfer; Licensing; Technology Forecasting and Use of Patent Information for Forecasting Technology Trends</i>                           |           |
| – <i>Intellectual Property and Environmentally Sound Technologies</i>   |           |
| – <i>Valuation of Intellectual Property</i>   |           |
| – <i>International Treaties</i>   |           |
| <b>Chapter 4: Protection of Cultural Heritage, Biodiversity, Traditional Knowledge and Practices, Folklore and Sustainable Socio-economic Development</b> | <b>69</b> |
| – <i>Incentives and Rewards for Protection of Intellectual Property</i>   |           |
| – <i>Interface with the Intellectual Property System</i>  |           |

|  |            |
|--|------------|
| <b>Chapter 5: Cultural and Information Industries</b>  | <b>89</b>  |
| – <i>The Growing Importance of the Cultural and Information Industries</i>   |            |
| – <i>Cultural Industries, Intellectual Property and National Identity</i>  |            |
| – <i>New Systems of Delivery of Information Products</i>   |            |
| – <i>Economic Contribution of the Cultural Industry</i>  |            |
| <b>Chapter 6: The Importance of Intellectual Property for Competitiveness of Small and Medium Enterprises (SMEs)</b> | <b>103</b> |
| – <i>Nature of SMEs</i>  |            |
| – <i>Contribution of SMEs</i>  |            |
| – <i>Creating IP Culture in SMEs</i>   |            |
| – <i>Fostering Cooperation Amongst SMEs</i>  |            |
| <b>Chapter 7: Encouraging Research and Development (R&amp;D)</b>   | <b>125</b> |
| – <i>R&amp;D, Innovation and Patents</i>   |            |
| – <i>Publicly Funded R&amp;D and Innovation</i>  |            |
| – <i>SMEs and R&amp;D</i>  |            |
| <b>Chapter 8: Role of Government in Fostering the Intellectual Property System</b>                                   | <b>143</b> |
| – <i>National System of Innovation (NSI) as Policy Framework</i>   |            |
| – <i>Different Types of Technology Innovations</i>   |            |
| – <i>National Innovation Policy: Nurturing the Innovation Base</i>   |            |
| – <i>Venture Capital Financing</i>   |            |
| – <i>Global Innovation Chains</i>  |            |
| – <i>Support of Government in Fostering Development of High-tech Enterprises Through Incubators and Accelerators</i> |            |
| – <i>Expenditure on Science and Technology (S&amp;T)</i>   |            |
| – <i>Institutional Issues</i>  |            |
| – <i>Role of Government in International Relations in IP</i>   |            |
| – <i>Competition Law</i>   |            |
| – <i>IPR Institutions</i>  |            |
| – <i>Role in Awareness Building and Effective Enforcement</i>  |            |
| – <i>Enforcement Provisions in the TRIPS Agreement</i>   |            |
| – <i>Primacy of the Government Role</i>  |            |

|                    |   |            |
|--------------------|---|------------|
| <b>Chapter 9:</b>  | <b>Role of the Private Sector in the Intellectual Property System</b> | <b>163</b> |
|                    | – <i>Invention to Innovation</i>                                      |            |
|                    | – <i>Private Societies/Associations as Protectors of IP</i>           |            |
|                    | – <i>Patents as Tools for Encouraging Private R&amp;D</i>             |            |
|                    | – <i>Responsibilities of the Private Sector</i>                       |            |
| <b>Chapter 10:</b> | <b>Civil Society and Intellectual Property</b>                        | <b>175</b> |
|                    | – <i>The Nature of Civil Society</i>                                  |            |
|                    | – <i>Flexibility in the TRIPS Agreement</i>                           |            |
|                    | – <i>Civil Society and Biodiversity</i>                               |            |
| <b>Chapter 11:</b> | <b>Challenges for the Intellectual Property System</b>                | <b>185</b> |
|                    | – <i>Digital Economy</i>  |            |
|                    | – <i>E-Commerce</i>   |            |
|                    | – <i>Domain Names</i>   |            |
|                    | – <i>Biotechnology Including Human Genome</i>                         |            |
|                    | – <i>Nanotechnology</i>   |            |
| <b>Chapter 12:</b> | <b>Demystification and Depoliticisation of Intellectual Property</b>  | <b>201</b> |
|                    | – <i>Need for Public Awareness of IP</i>                              |            |
|                    | – <i>Identification of IP</i>   |            |
|                    | – <i>Depoliticisation of IP</i>                                       |            |
