

## Contents

About the author .....	4
<b>1 Introduction .....</b>	<b>7</b>
1.1 Motivation, Scope and structure .....	7
1.2 Acknowledgements .....	8
<b>2 Evolution of electroencephalogram (EEG) .....</b>	<b>10</b>
2.1 History of EEG .....	10
2.2 From 1980 to 2000 .....	11
2.3 What changed after 2000? .....	12
<b>3 Biomarker development for clinical applications .....</b>	<b>16</b>
3.1 Assessment of Mental Stress .....	16
3.2 Diagnosis of Major Depressive Disorder (MDD) .....	17
3.3 Treatment Efficacy for Major Depressive Disorder (MDD) .....	18
3.4 Classification of Alcohol Use Disorder (AUD) Patients .....	20
3.5 Prediction of Partial Epileptic Seizure .....	21
<b>4 Targeting non-clinical applications .....</b>	<b>23</b>
4.1 Proposing a New Biomarker .....	23
4.2 Long Term Memory Assessment .....	24
4.3 P300 and Fluid Intelligence .....	25
4.4 Cognitive Load Assessment .....	26
4.5 Influence of Color on Emotion and Memory .....	27
<b>5 Conclusions and the Future.....</b>	<b>28</b>
References .....	29
Abstract .....	33
