Preface	xi
Creating Client-Specific Assessment Packages with Protocols on the Companion Website	xiii
<b>PART I. FOUNDATIONS OF ASSESSMENT</b>	<b>1</b>
<b>Chapter 1. Assessment of Adults: An Overview</b>	<b>3</b>
Written Case History	5
The Initial Clinical Interview	8
Hearing Screening	11
Orofacial Examination	11
Diadochokinetic Tasks	12
Speech-Language Sample	13
Standardized Assessment Instruments	13
Assessment of Functional Communication	16
Assessment of Quality of Life	17
Postassessment Counseling	18
Analysis and Integration of Assessment Results	19
Assessment Report	20
References	21
<b>Chapter 2. Common Assessment Protocols</b>	<b>23</b>
Adult Case History Protocol	25
Instructions for Conducting the Orofacial Examination in Adults:	29
Observations and Implications	
Orofacial Examination and Hearing Screening Protocol	34
Diadochokinetic Assessment Protocol for Adults	37
Functional Communication Assessment Protocol	39
Communication Quality of Life Assessment Protocol	42
Adult Assessment Report Outline	45
Reference	51
<b>PART II. ASSESSMENT OF MOTOR SPEECH DISORDERS IN ADULTS</b>	<b>53</b>
<b>Chapter 3. Assessment of Apraxia of Speech (AOS): Resources</b>	<b>55</b>
Description of AOS	56
Epidemiology and Etiology of AOS	57
Overview of Assessment of AOS	58
Screening for AOS	59
Standardized Tests for AOS	60
Analysis and Integration of Assessment Results	62
Diagnostic Criteria and Differential Diagnosis	63

Postassessment Counseling	67
Chapter Summary	69
Study Questions	70
References	70
<b>Chapter 4. Assessment of Apraxia of Speech (AOS): Protocols</b>	<b>73</b>
Overview of AOS Protocols	74
Assessment of AOS: Interview Protocol	75
AOS Assessment Protocol 1: Oral Apraxia	77
AOS Assessment Protocol 2: Speech Production in AOS	78
AOS Assessment Protocol 3: Comparing Alternate Motion Rates (AMRs) and Sequential Motion Rates (SMRs)	81
AOS Assessment Protocol 4: Connected Speech	83
Reference	84
<b>Chapter 5. Assessment of Dysarthria: Resources</b>	<b>85</b>
Types of Dysarthria	86
Epidemiology of Dysarthria	92
Etiology of Dysarthria	93
Overview of Dysarthric Speech	99
Overview of Assessment of Dysarthria	105
Standardized Tests for Dysarthria	106
Diagnostic Criteria and Differential Diagnosis	107
Postassessment Counseling	111
Chapter Summary	114
Study Questions	114
References	115
<b>Chapter 6. Assessment of Dysarthria: Protocols</b>	<b>117</b>
Overview of Dysarthria Protocols	118
Assessment of Dysarthria: Interview Protocol	119
Dysarthria Assessment Protocol 1: Orofacial Examination	121
Dysarthria Assessment Protocol 2: Respiratory and Phonatory Function	123
Dysarthria Assessment Protocol 3: Speech Production (Articulation)	124
Dysarthria Assessment Protocol 4: Production of Prosody	126
Dysarthria Assessment Protocol 5: Resonance	128
References	129
<b>PART III. ASSESSMENT OF APHASIA</b>	<b>131</b>
<b>Chapter 7. Assessment of Aphasia: Resources</b>	<b>133</b>
Epidemiology of Aphasia	134
Etiology and Neuropathology of Aphasia	135
Characteristics of Aphasia	136
Types of Aphasia	139
Overview of Assessment	147
Screening for Aphasia	148

Standardized Tests for Aphasia	149
Assessment of Speech Production	153
Assessment of Narrative and Conversational Skills	153
Assessment of Functional Communication	155
Quality of Life Assessment	157
Assessment of Bilingual or Multilingual Patients	159
Analysis and Integration of Assessment Results	161
Postassessment Counseling	163
Chapter Summary	165
Study Questions	166
References	166
<b>Chapter 8. Assessment of Aphasia: Protocols</b>	<b>169</b>
Overview of Aphasia Protocols	170
Aphasia Interview Protocol	171
Auditory Comprehension Assessment Protocol	176
Connected Speech and Grammatical Skills Assessment Protocol	179
Repetition and Echolalia Assessment Protocol	181
Naming and Word-Finding Assessment Protocol	183
Fluency Assessment Protocol	185
Reading, Writing, and Calculation Assessment Protocol	186
Aphasia Summative Diagnostic Protocol	195
Reference	197
<b>PART IV. ASSESSMENT OF RIGHT-HEMISPHERE SYNDROME</b>	<b>199</b>
<b>Chapter 9. Assessment of Right-Hemisphere Syndrome (RHS): Resources</b>	<b>201</b>
Functions of the Left and Right Hemispheres	202
Epidemiology of RHS	206
Causes and Neuropathology of RHS	207
Neurological Consequences of RHS	209
Overview of Assessment	216
Screening for RHS	217
Standardized Tests for RHS	217
Analysis and Integration of Assessment Results	219
RHS Assessment Tasks in Chapter 10	220
Postassessment Counseling	222
Chapter Summary	225
Study Questions	225
References	226
<b>Chapter 10. Assessment of Right-Hemisphere Syndrome (RHS): Protocols</b>	<b>229</b>
Overview of RHS Protocols	230
Assessment of RHS: Interview Protocol	231
RHS Assessment Protocol 1: Visual Neglect and Visuospatial Skills	233
RHS Assessment Protocol 2: Communication Skills	241
RHS Assessment Protocol 3: Abstract Language	247

<b>PART V. ASSESSMENT OF MAJOR AND MINOR NEUROCOGNITIVE DISORDER (DEMENTIA)</b>	<b>251</b>
<b>Chapter 11. Assessment of Major and Minor Neurocognitive Disorder (Dementia): Resources</b>	<b>253</b>
Overview of Major and Minor Neurocognitive Disorder (Dementia)	254
Epidemiology of Dementia	255
General Etiology and Pathology of Neurodegenerative Diseases	257
Treatment of Irreversible and Reversible Dementia	257
Dementia of the Alzheimer Type	258
Other Forms of Dementia	261
Overview of Dementia Assessment	265
Screening and Diagnostic Tests for Dementia	267
Assessment of Dementia in Ethnoculturally Diverse Adults	272
Diagnostic Criteria and Differential Diagnosis	274
Postassessment Counseling	277
Chapter Summary	278
Study Questions	278
References	279
<b>Chapter 12. Assessment of Major and Minor Neurocognitive Disorder (Dementia): Protocols</b>	<b>283</b>
Overview of Major and Minor Neurocognitive Disorder (Dementia) Protocols	284
Assessment of Dementia: Interview Protocol	285
Dementia Screening Protocol 1: Saint Louis University Mental Status (SLUMS) Examination	287
Dementia Screening Protocol 2: Short Form of the Informant Questionnaire on Cognitive Decline in the Elderly (Short IQCODE)	289
Dementia Assessment Protocol 1: Mental Status and Intellectual Functioning	292
Dementia Assessment Protocol 2: Communication Abilities	294
Dementia Assessment Protocol 3: General Behavioral Evaluation	298
References	300
<b>PART VI. ASSESSMENT OF TRAUMATIC BRAIN INJURY</b>	<b>301</b>
<b>Chapter 13. Assessment of Traumatic Brain Injury (TBI): Resources</b>	<b>303</b>
Epidemiology of TBI	304
Etiology of TBI	306
Classification of Brain Injuries	307
Penetrating Brain Injuries	307
Nonpenetrating Brain Injuries	308
Primary and Secondary Effects of TBI	310
Neurophysiological and Behavioral Effects of TBI	311
Recovery from TBI	312
Communicative Disorders Associated with TBI	313
Overview of TBI Assessment	317

Screening for TBI	320
Diagnostic Assessment	320
Assessment of Consciousness and Responsiveness	320
Global and Functional Assessment	321
Assessment of Memory, Reasoning, and Planning Skills	322
Assessment of Communicative Deficits Associated with TBI	324
Postassessment Counseling	326
Chapter Summary	329
Study Questions	330
References	331
<b>Chapter 14. Assessment of Traumatic Brain Injury (TBI): Protocols</b>	<b>335</b>
Overview of TBI Protocols	336
Assessment of TBI: Interview Protocol	337
TBI Assessment Protocol 1: Orientation and Memory	339
TBI Assessment Protocol 2: Perception Skills	341
TBI Assessment Protocol 3: Reasoning Skills	346
TBI Assessment Protocol 4: Verbally Based Planning Skills	351
TBI Assessment Protocol 5: Communication Skills	353
<b>PART VII. ASSESSMENT OF FLUENCY DISORDERS</b>	<b>359</b>
<b>Chapter 15. Assessment of Fluency Disorders: Resources</b>	<b>361</b>
An Overview of Fluency and Its Disorders in Adults	362
Epidemiology of Stuttering in Adults	362
Definition and Measurement of Stuttering	365
Additional Features of Stuttering	370
Diagnostic Criteria for Stuttering	374
Assessment of Stuttering	375
Neurogenic Stuttering	381
Cluttering	382
Assessment of Quality of Life and Functional Communication	385
Postassessment Counseling	386
Chapter Summary	390
Study Questions	391
References	392
<b>Chapter 16. Assessment of Fluency Disorders: Protocols</b>	<b>395</b>
Overview of Fluency Assessment Protocols	396
Assessment of Fluency Disorders: Interview Protocol	397
Dysfluency Measurement Protocol	403
Stuttering Variability Assessment Protocol	404
Associated Motor Behaviors Assessment Protocol	406
Avoidance Behaviors Assessment Protocol	407
Neurogenic Stuttering Assessment Protocol	410
Cluttering Assessment Protocol	411
Fluency Quality of Life Assessment Protocol	412

<b>PART VIII. ASSESSMENT OF VOICE</b>	<b>415</b>
<b>Chapter 17. Assessment of Voice: Resources</b>	<b>417</b>
Epidemiology and Ethnocultural Variables	418
Voice Disorders in Adults	420
Mutism and Aphonias	421
Dysphonias	423
Spasmodic Dysphonia	428
Transgender and Transsexual Voice	431
Causes of Voice Disorders	432
Overview of the Assessment Process	437
Clinical Assessment of Voice	438
Instrumental Assessment of Voice	444
Quality of Life Assessment	447
Assessment of Voice in Ethnoculturally Diverse Adults	448
Postassessment Counseling	449
Chapter Summary	451
Study Questions	452
References	452
<b>Chapter 18. Assessment of Voice: Protocols</b>	<b>455</b>
Overview of Voice Protocols	456
Assessment of Voice: Interview Protocol	457
Adult Voice Evaluation Protocol	460
Resonance Assessment Protocol	462
Vocal Abuse and Misuse Assessment Protocol	466
Voice Handicap Assessment Protocol	468
Voice Quality of Life Assessment Protocol	470
References	472
<b>Index</b>	<b>473</b>
