Preface.....	ix
Acknowledgement	xi
Author	xiii
1 Introduction.....	1
2 Solar Energy	5
2.1 Photovoltaic (Solar) Cells.....	5
2.1.1 Semiconductors.....	5
2.1.2 The p–n Junction.....	7
2.1.3 Materials Required.....	8
2.1.4 Other Photovoltaic Cells	10
2.2 Other Considerations	15
2.3 Solar Thermal Panels.....	16
2.3.1 Materials.....	16
2.3.2 Other Considerations	17
Questions	17
3 Wind Power	19
3.1 Wind Turbines	19
3.2 Electrical Generators	22
3.3 Materials.....	24
3.4 Other Considerations	26
Questions	27

4	Water Power.....	29
4.1	Hydroelectric Dams.....	29
4.2	River Turbines.....	33
4.3	Wave Power.....	33
4.4	Tidal Power.....	33
4.4.1	Tidal Barrages.....	34
4.4.2	Tidal Lagoons.....	34
4.4.3	Tidal Streams.....	34
4.5	Materials.....	35
4.6	Other Considerations	35
	Questions	36
5	Geothermal Energy.....	37
5.1	The Origin of Geothermal Energy	37
5.2	Accessing Geothermal Energy	40
5.2.1	Using Geothermal Energy for Heating.....	40
5.2.2	Using Geothermal Energy to Produce Electricity.....	41
5.3	Considerations	42
	Questions	43
6	Hydrogen	45
6.1	Hydrogen Production.....	45
6.1.1	Electrolysis	46
6.1.2	Chemical Reactions.....	50
6.1.3	Biohydrogen Production.....	51
6.2	Storage and Transport.....	51
6.3	Hydrogen Use.....	53
6.3.1	Fuel Cells.....	53
6.4	Considerations	54
	Questions	55
7	Biomass.....	57
7.1	How Is Energy Produced from Biomass?	57
7.2	Why Is Energy Derived from Biomass Considered Renewable?.....	58

7.3	Types of Biomass	60
7.3.1	Wood.....	60
7.3.2	Crops and Grasses	61
7.3.3	Algae	62
7.3.4	Waste	63
7.4	Considerations	63
	Questions	64
8	Energy Storage.....	65
8.1	How Rechargeable Batteries Work	66
8.2	Batteries for Storage	67
8.2.1	Lead-Acid Batteries	67
8.2.2	Lithium-Ion Batteries	68
8.2.3	Sodium-Based Batteries.....	68
8.2.4	Redox-Flow Batteries	71
8.3	Batteries for Transport.....	72
8.3.1	Lithium-Based Batteries.....	72
8.4	Capacitors	73
8.5	Pumped Storage Hydropower.....	74
	Questions	74
9	Carbon Capture, Storage and Conversion.....	75
9.1	Carbon Capture and Storage.....	75
9.1.1	Trees and Peat Bogs	75
9.1.2	Construction Materials and Minerals.....	77
9.1.3	Porous Solids.....	77
9.1.4	Absorbance by Liquids	79
9.2	Conversion of Captured Carbon Dioxide	80
9.2.1	Mineralisation.....	80
9.2.2	Chemicals and Fuels	81
	Questions	82
	Index	85
