Foreword: policy design as aspiration and frustration xiii
Davis B. Bobrow
Preface xvi

1 Introduction to the *Research Handbook of Policy Design*: operationalizing the policy design framework 1
B. Guy Peters and Guillaume Fontaine

PART I THEORIES OF THE POLICY DESIGN FRAMEWORK

2 The politics of policy design 40
Nick Turnbull

3 Institutions, institutional theory and policy design 54
B. Guy Peters

4 Instrumentation in policy design: policy tools – from devices to activators 72
Giliberto Capano and Michael Howlett

5 Policy instrumentation with or without policy design 88
Patrick Le Galès

6 Policy design and constructivism 104
Marlon Barbehön

7 Making sense of (and with) policy design 120
Hal K. Colebatch

PART II CAUSATION AND PROBLEM DEFINITION

8 Four models of causation in the design of anti-corruption policies 136
Guillaume Fontaine, Taymi Milán and Alejandro Hernández-Luis

9 Coping with wicked problems in policy design 155
Brian W. Head

10 Listening to science in policy design: the contrasting cases of Quebec and Sweden during the early days of the Covid-19 pandemic 176
Antoine Lemor, Louis-Robert Beaulieu-Guay, PerOla Öberg and Éric Montpetit

11 Fourth Industrial Revolution and algorithms: new challenges for policy design 194
Adam Wellstead, Tanya Heikkila and Matthew Wood

12 Good trouble in the academy: inventing design-focused case studies about public management as an archetype of policy design research 212
Michael Barzelay, Luciano Andrenacci, Sérgio N. Seabra and Yifei Yan

PART III EVALUATION, FRAMING AND VALUES

13 A political theory of policy formulation practice and stakeholder engagement 231
Robert Hoppe

14 Bridging ideas and policy design 253
Daniel Béland and Ishani Mukherjee

15 Anti-poverty program design under the human capital and human rights perspectives: overall features and Mexican cases 267
José Luis Méndez and Dafne Villagrán

16 Social policies for older adults in industrialized countries 282
Patrik Marier, Margaux Reiss and Isabelle Van Pevenage

PART IV INSTRUMENTATION AND COORDINATION

17 Governance models and policy design 296
Jon Pierre

18 Adaptive governance through policy design 310
Saba Siddiki

19 Designing social policies: design spaces and capacity challenges 323
Namrata Chindarkar, M. Ramesh and Michael Howlett

20 Designing for coordination: the case of regulatory management policy 338
Fabrizio De Francesco and Valérie Pattyn

21 Policy design for policy coordination 351
Geert Bouckaert, B. Guy Peters and Koen Verhoest

PART V INTERVENTION AND PUBLIC MANAGEMENT

22 Policy design labs and innovation 372
Jenny M. Lewis

23 Complexity, innovation and policy design 388
Steven Ney

24 Enhancing policy design and sustainable community outcomes through collaborative platforms based on a dynamic performance management and governance approach 407
Carmine Bianchi

25 Co-designing urban policies 430
Catherine Durose and Liz Richardson

26 Policy design as deliberative practice: learning from Khon Kaen (Thailand) 443
Piyapong Boossabong and Frank Fischer

27 Conclusion to the *Research Handbook of Policy Design*: a research agenda 461
B. Guy Peters and Guillaume Fontaine
