Foreword	v
1 Why Is It So Challenging to Define Systemic Psychotherapy?	1
2 The End of Therapeutic Schools	7
2.1 What Do Interventions and Therapeutic Techniques Really Contribute?	8
2.2 Laymen in Psychotherapy	8
2.3 The Dodo Bird Effect	9
2.4 Allegiance to One's Own Approach	10
2.5 Sudden Changes	10
2.6 The Heroic Client	13
2.7 Should We Follow Manuals?	14
2.8 The Therapist	15
2.9 The Therapeutic Relationship	15
2.10 Psychotherapy as a Complex System	16
3 Psychotherapy as Providing Conditions for Self-Organization	19
3.1 What Is Synergetics?	19
3.2 How Does Self-Organization Work?	22
3.3 Neuronal and Mental Self-Organization	24
4 Conditions for Support of Self-Organization: The Generic Principles ..	28
4.1 Stability Conditions	28
4.2 Identification of Relevant System Patterns	29
4.3 Sense of Significance	29
4.4 Control Parameters and Motivation for Change	31
4.5 Destabilization and Amplification of Fluctuations	31
4.6 Cairos, Resonance, and Synchronization	33
4.7 Purposeful Symmetry Breaking	34
4.8 Stabilization of New Patterns	34
5 Synergetic Process Management	38
6 The Synergetic Navigation System (SNS)	42
6.1 Ambulatory Assessment and Real-Time Monitoring in Psychotherapy	42
6.2 Functionalities of the SNS	44
7 Case Study	50
7.1 Problems and Resources	50
7.2 Therapy Progress With Order Transition	52
7.3 System Modeling	58

8	The Interconnection of Monitoring and Therapy	62
8.1	Therapeutic Effects of Feedback Systems	62
8.2	SNS-Based Therapy Sessions	65
8.3	Reactive Measures	67
9	Conceptual Developments	69
9.1	Dynamic Pattern Recognition and Process Regulation as Components of Therapeutic Practice	69
9.2	Evidence-Based Practice and Relative Rational Justification of Treatments	69
9.3	The Relation Between Common Factors and Generic Principles	71
9.4	The Model of Self-Organization as a Synthesis of the Medical Model and the Common Factors Model	74
10	Integrated Systemic Psychotherapy	75
10.1	Systemic Neurotherapies	76
10.1.1	Real-Time Neuro-Feedback With fMRI	76
10.1.2	Neuromodulation	77
10.2	Systemic Therapies	79
	References	80
	Appendix	98
	Dynamic Complexity	98
