

Contents

Introduction	4
Examples of Modern Power Engineering Systems	5
Main Goals of Investigations	8
1. An Approach to Thermodynamic Analysis	9
2. An Approach to Modeling	11
3. Thermodynamic Analysis and Rating	13
Heat Exchange	13
Mass (Substance) Exchange — Absorption	23
Numerical Example	31
Chemical Reactions	34
Numerical Example →1	46
Numerical Example =2	53
4. The System Analysis and Rating	64
Literature Cited	68
<i>Curriculum Vitae</i>	71
