

4 The Economic Actors: Households, Firms, and Governments 75

Introduction 75

Starring: The Household 76

Households Maximize Utility • House Is Not Necessarily a Home • Households as Resource Suppliers • Households as Demanders of Goods and Services • The Evolution of the Household

Supporting Actor: The Firm 80

Transaction Costs and the Firm • Why Does Household Production Still Exist? • Why Do Some Firms Specialize? • Kinds of Firms • Nonprofit Firms

Supporting Actor: The Government 85

The Role of Government • The Structure of Government • Size and Growth of Government • Sources of Revenue

PART 2 Fundamentals of Macroeconomics 98

5 Introduction to Macroeconomics 100

The National Economy 101

What Is Special About the National Economy? • Similarities Between the Human Body and the Economy • Testing New Theories • Knowledge and Performance

The Business Cycle 105

Business Cycle Analysis • Leading Economic Indicators

Aggregate Demand and Aggregate Supply 108

Aggregate Demand • Aggregate Supply • Equilibrium

A Short History of the U.S. Economy 111

Before World War II • The Age of Keynes • The Great Stagflation • Supply-Side Economics • Macroeconomic Perspective

6 Measuring Economic Aggregates and the Circular Flow of Income 121

Gross National Product 122

Market Value of Final Goods and Services • GNP Based on the Expenditure Approach • GNP Based on the Income Approach • Disposable Income

The Circular Flow of Income 127

The Income Half of the Circular Flow • The Expenditure Half of the Circular Flow • Leakages and Injections • Planned Investment Versus Actual Investment

Limitations of National Income Accounting 133

Production Not Included in GNP • Quality and Variety • What Is Gross About Gross National Product?

Accounting for Price Changes 135

The Price Index • Implicit Price Deflator • Consumer Price Index • Differences Between Implicit Price Deflator and CPI • Problems with Inflation Measures

Appendix: A Closer Look at the National Income Accounts 144

7 Unemployment and Inflation 148

Unemployment 148

Measuring Unemployment • Changes over Time in Unemployment Statistics • Unemployment in Various Groups • Duration of Unemployment • Sources of Unemployment • The Meaning of Full Employment • Unemployment Insurance

Inflation 159

Two Sources of Inflation • A Historical Look at Inflation and the Price Level • Coping with Inflation • Inflation and Interest Rates • Adapting to Relative Price Changes

8 Aggregate Demand: Consumption and Investment 173

Earlier Views of the Macroeconomy 174

The Classical View • Consumption, Saving, and Investment • Keynes and the Great Depression

Consumption	178	Effect of Changes in the Price Level	212
<i>An Initial Look at Consumption and Income • The Consumption Function • Nonincome Determinants of Consumption</i>		<i>Changes in the Price Level • The Multiplier and Shifts in Aggregate Demand • Some Caveats About the Simple Multiplier</i>	
Investment	188	Appendix: The Algebra of Demand-Side Equilibrium	219
<i>The Demand for Investment • From Micro to Macro • Investment and Income</i>			
9 Aggregate Expenditure and Demand-Side Equilibrium	195		
Equilibrium Aggregate Expenditure	196		
<i>The Components of Aggregate Expenditure • Graphical Analysis • Equilibrium Quantity of Real GNP Demanded • Equilibrating Forces • Investment and Unintended Inventory Adjustments • Marginal Propensities to Consume and to Save</i>			
Shifts in the Aggregate Expenditure Function and the Multiplier	204		
<i>Effects of an Increase in Investment • The Multiplier and the Circular Flow • Tracking Rounds with the Income-Expenditure Model • Numerical Value of the Multiplier • Effects of an Increase in Saving</i>			

PART 3 Fiscal and Monetary Policy **246**

11 Fiscal Policy, Aggregate Demand, and Equilibrium Output	248	<i>Fiscal Policy and the Natural Rate of Unemployment • Discretionary Policy and Permanent Income • Feedback Effects of Fiscal Policy on Aggregate Supply • Giant Deficits of the 1980s</i>	
Theory of Fiscal Policy	249	Appendix: The Algebra of Fiscal Policy	273
<i>Effect of Government Purchases • Taxes and Equilibrium Income • Taxes and Government Spending Combined • Proportional Income Tax • The Income Tax Multiplier</i>			
Combining Aggregate Demand with Aggregate Supply	261		
<i>Fiscal Policy with a Deflationary Gap • Fiscal Policy with an Inflationary Gap • The Multiplier and the Time Horizon</i>			
Fiscal Policy in Practice	266		
<i>The Great Depression and World War II • Automatic Stabilizers • The Golden Age of Fiscal Policy • Lags in Fiscal Policy •</i>			
		12 Money and the Financial System	276
		The Evolution of Money	276
		<i>Barter and the Double Coincidence of Wants • Earliest Money and Its Functions • Problems with Commodity Money • Metallic Money and Coinage • Money and Banking • Paper Money • The Value of Money • Too Much and Too Little Money</i>	

Financial Institutions in the United States	285	Monetarism and the Quantity Theory	335
<i>Development of the Dual Banking System • Birth of the Federal Reserve System • Powers of the Federal Reserve System • Banking During the Great Depression • Roosevelt's Reforms • The Quiet Life of Depository Institutions</i>		<i>Monetarism • The Equation of Exchange • The Quantity Theory of Money • What Determines the Velocity of Money? • The Keynesian Approach and the Equation of Exchange • Monetarism, Keynesianism, and the Equation of Exchange • How Stable Is Velocity?</i>	
Recent Developments in Depository Institutions	292	Monetary Targets: Money Supply Versus Interest Rates	343
<i>Depository Institutions Were Losing Deposits • Deregulation of 1980 • Further Deregulation of 1982 • Branch Banking Restrictions</i>		<i>Contrasting Policies • Targets in Recent Years</i>	
13 Depository Institutions, the Federal Reserve, and the Money Supply	298	15 Activist Versus Nonactivist Macroeconomic Policy	349
Depository Institutions, Their Deposits, and the Money Supply	299	<i>Activists Versus Nonactivists</i>	349
<i>Role of Depository Institutions • Money and Near Moneys • Other Deposits: Near Moneys</i>		<i>The Adjustment of Short-Run Aggregate Supply • Policy Prescriptions • Problems with Activist Policy • Problems of Lags • Activist Policy and Economic Fluctuations • Review of Policy Perspectives</i>	
How Depository Institutions Operate	303	<i>Macroeconomic Policy and Expectations</i>	357
<i>Starting a Bank • Reserve Accounts • Competing Objectives: Liquidity Versus Profitability • The Fed's Balance Sheet</i>		<i>Monetary Policy, Credibility, and Expectations • Anticipating Monetary Policy • Policy Credibility</i>	
How Depository Institutions Create Money	309	<i>Policy Rules</i>	361
<i>Money Creation Through Excess Reserves • Summary of Rounds • Some Other Possibilities • Excess Reserves, Reserve Requirements, and Credit Expansion • Limitations of Money Expansion • Multiple Contraction of Money and Credit • The Fed and the Money Supply</i>		<i>Rationale for Monetary Rules • Kinds of Rules • Rationale for Rules • Rules and Rational Expectations</i>	
14 Monetary Theory and Policy	322	<i>The Phillips Curve</i>	366
The Demand and Supply of Money	323	<i>Short-Run Phillips Curve • Long-Run Phillips Curve • Natural Rate Hypothesis • Evidence on Inflation and Unemployment</i>	
<i>Transactions Demand for Money • Asset Demand for Money • Money Demand and Interest Rates • Supply of Money and the Equilibrium Interest Rate</i>		16 Budgets, Deficits, and Public Policy	375
Money and Aggregate Demand	327	<i>The Budget Process</i>	375
<i>Interest Rates and Planned Investment • Money and the Shape of the Aggregate Demand Curve • Adding Aggregate Supply • Fiscal Policy with Money</i>		<i>The Presidential Role in the Budget Process • The Congressional Role in the Budget Process • Problems with the Budget Process • Suggested Budget Reforms</i>	
		<i>Federal Budget Deficits</i>	380
		<i>Rationale for Deficits • Budget Philosophies and Deficits • Deficits in the 1980s • Why Deficits? Why Now? •</i>	

<i>Relationships Between Deficits and Other Aggregate Variables • Crowding Out and Crowding In</i>			
The National Debt	387		
<i>The National Debt Since World War II • Interest Payments on the Debt</i>			
Burden of the Debt	392		
<i>Crowding Out and Capital Formation • An Intergenerational View of Deficits • Who Bears the Burden of the Debt? • Foreign Holdings of Debt</i>			
Reducing the Deficit	394		
<i>Gramm-Rudman-Hollings • Balanced Budget Amendment</i>			
17 Productivity and Growth	398		
<i>Economic Growth and Public Policy</i>	399		
<i>Growth and the Production Possibilities Frontier • Growth Policies Before World War II • Postwar Growth Policy</i>			
<i>Productivity</i>	402		
<i>Labor Productivity • Recent Experience with Productivity Growth • Some Reasons for the Slowdown in Labor Productivity Growth</i>			
<i>Research and Development</i>	407		
<i>Basic and Applied Research • Technological Change Can Increase Available Resources • Expenditures for Research and Development</i>			
<i>Government Policies That Change Potential GNP</i>	411		
<i>Skills Mismatch • Location Mismatch • Legal and Social Practices</i>			
<i>The Supply-Side Experiment</i>	413		
<i>Results of the Experiment • Forecasting Growth Rates</i>			

PART 4 Introduction to the Market System 418

18 Elasticity of Demand and Supply	420	19 Consumer Choice and Demand	445
<i>Price Elasticity of Demand</i>	421	<i>Utility Analysis</i>	445
<i>Calculating Elasticity of Demand • Categories of Demand Elasticity • Elasticity and Total Revenue • Refining the Calculations: The Midpoint Formula • Price Elasticity and the Linear Demand Curve • Three Extremes of Elasticity</i>		<i>Tastes and Preferences • The Law of Diminishing Marginal Utility</i>	
<i>Determinants of Demand Elasticity</i>	430	<i>Measuring Utility</i>	447
<i>Availability of Substitutes • Proportion of the Consumer's Budget Spent on the Good • Price Elasticity and the Definition of the Good • A Matter of Time • Luxuries Versus Necessities • Elasticity Estimates</i>		<i>Units of Utility • Utility Maximization in a World Without Scarcity • Utility Maximization in a World of Scarcity • Deriving the Law of Demand from Marginal Utility</i>	
<i>Price Elasticity of Supply</i>	433	<i>Consumer Surplus</i>	455
<i>Categories of Supply Elasticity • Determinants of Supply Elasticity</i>		<i>Deriving the Market Demand from Individual Demand</i>	457
<i>Elasticity and Tax Incidence: An Application</i>	437	<i>The Role of Time in Demand</i>	458
<i>Demand Elasticity and Tax Incidence • Supply Elasticity and Taxes</i>		<i>Appendix: Indifference Curves</i>	462
<i>Other Elasticity Measures</i>	440	20 Cost and Production in the Firm	471
<i>Income Elasticity of Demand • Cross-Price Elasticity of Demand</i>		<i>Cost and Profit</i>	471
		<i>Explicit and Implicit Costs • Alternative Measures of Profit</i>	
		<i>Production and Cost in the Short Run</i>	474
		<i>Costs Under the Golden Arches • The</i>	

<i>Law of Diminishing Returns • The Total and Marginal Physical Product Curves</i>	
Costs in the Short Run	478
<i>Total Cost and Marginal Cost in the Short Run • Average Costs in the Short Run • Summary of Short-Run Cost Curves</i>	

Costs in the Long Run	485
<i>Long-Run Average Cost Curves • Economies of Scale • Diseconomies of Scale • Constant Returns to Scale</i>	
Appendix: A Closer Look at Production and Costs	494

PART 5 Market Structure, Pricing, and Government Regulation **504**

21 Perfect Competition	506	Firm Costs and Short-Run Profit Maximization	539
<i>An Introduction to Perfect Competition</i>	<i>506</i>	<i>Price and Output if Costs Are Zero • Profit Maximization Using Ordinary Cost Curves • Short-Run Losses and the Shut-down Decision • Long-Run Profit Maximization • Myths About Monopolies</i>	
<i>Perfectly Competitive Market Structure • Demand Under Perfect Competition</i>		Monopoly and the Allocation of Resources	549
Short-Run Profit Maximization	509	<i>Price and Output Under Perfect Competition • Price and Output Under Monopoly • Allocative and Distributive Effects</i>	
<i>Total Revenue Minus Total Cost • Marginal Cost Equals Marginal Revenue in Equilibrium • Measuring Profit in the Short Run</i>		Problems with Estimating the Welfare Cost of Monopoly	551
Minimizing Short-Run Losses	513	<i>Why the Welfare Loss of Monopoly Might Be Lower • Why the Welfare Loss of Monopoly Might Be Higher</i>	
<i>Fixed Costs and Minimizing Losses • Producing Where Total Cost Minus Total Revenue Is Minimized • Producing Where Marginal Cost Equals Marginal Revenue • Shutting Down in the Short Run • The Firm and Industry Short-Run Supply Curves</i>		Models of Price Discrimination	553
Perfect Competition in the Long Run	519	<i>Preconditions for Price Discrimination • Examples of Price Discrimination • A Model of Price Discrimination • Perfect Price Discrimination: The Monopolist's Dream</i>	
<i>Zero Economic Profits in the Long Run • The Long-Run Adjustment Mechanism</i>		23 Between Perfect Competition and Monopoly	558
The Long-Run Supply Curve	525	Monopolistic Competition	558
<i>Constant-Cost Industries • Increasing-Cost Industries • Decreasing-Cost Industries</i>		<i>Characteristics of Monopolistic Competition • Product Differentiation • Price and Output Under Monopolistic Competition • Zero Economic Profit in the Long Run • Comparing Perfect Competition and Monopolistic Competition</i>	
Perfect Competition and Efficiency	529	An Introduction to Oligopoly	568
<i>Productive Efficiency • Allocative Efficiency • Reviewing the Assumptions of Perfectly Competitive Markets</i>		<i>Varieties of Oligopoly • Economies of Scale • Cost of Product Differentiation</i>	
22 Monopoly	534		
Barriers to Entry	534		
<i>Legal Restrictions • Economies of Scale • Control of Essential Resources</i>			
Revenue for the Monopolist	536		
<i>Demand and Marginal Revenue • Revenue Curves</i>			

Models of Oligopoly	571	Theories of Economic Regulation	591
<i>The Kinked Demand Curve • Collusion and Cartels • Price Leadership • Cost-Plus Pricing • Comparison of Oligopoly and Perfect Competition • Mergers and Oligopoly</i>		<i>Rail and Truck Regulation and Deregulation • Airline Regulation and Deregulation • Deregulation • Problems with Deregulation</i>	
24 Regulation, Deregulation, and Antitrust	585	Antitrust Laws	598
Business Behavior and Public Policy	586	<i>Origins of Antitrust Policy • Antitrust Law Enforcement • Per se Illegality and the Rule of Reason • Problems with Antitrust • Mergers and Public Policy</i>	
<i>Market Structure, Conduct, and Performance • Government Control of Business</i>		Competitive Trends in the Economy	603
Public Regulation of Natural Monopoly	587	<i>Market Competition over Time • Reasons for the Growth of Competition: 1958 to 1980</i>	
<i>Regulation of Natural Monopolies</i>			
PART 6 Resource Markets			610
25 Resource Markets	612	<i>tion Problems of Measuring Marginal Product</i>	
The Demand and Supply of Resources	612	Functional Distribution of Income	653
<i>The Demand and Supply of Resources • Equilibrium and Resource Price Differences • Transfer Earnings and Economic Rents</i>		27 Unions and Collective Bargaining	656
A Closer Look at Resource Demand	621	A Brief History of the Labor Movement	656
<i>Demand for One Resource • Marginal Revenue Product • Marginal Resource Cost • Hiring Resources as a Monopsonist • Summarizing Four Market Possibilities • Shifts in the Demand for Resources • Price Elasticity of Demand • Optimal Resource Use</i>		<i>Early Labor Organizations • A New Deal for Labor • The Labor Movement After World War II • Collective Bargaining and Other Tools of Unionism</i>	
26 Labor Markets and Wage Determination	636	The Economic Effect of Unions	661
Individual Labor Supply	637	<i>Inclusive, or Industrial, Unions • Exclusive, or Craft, Unions • Increase Demand for Union Labor • Bargaining in a Monopsonistic Labor Market • Union Objectives</i>	
<i>Labor Supply and Utility Maximization • How Will You Spend Your Summer Vacation? • Nonwage Determinants of Labor Supply • Market Supply</i>		Recent Trends in Union Membership	674
Why Wages Differ	645	<i>Public Employee Unions • Competition from Nonunion Suppliers • Industry Deregulation • Unionization and Technological Change • The Urge to Merge</i>	
<i>Tastes and Wage Differentials • Differences in Training and Education Requirements • Differences in Ability • Differences in Risk • Problems of Labor Mobility • Job Discrimination • Informa-</i>		28 Capital, Interest, Entrepreneurial Ability, and Profit	682
		The Role of Time in Consumption and Production	683
		<i>Production, Saving, and Time • Consumption, Saving, and Time • Optimal</i>	

Use of Capital • Purchasing Capital • Investing in Human Capital • The Market Demand for Loans • Real Versus Nominal Interest Rates • Why Interest Rates Differ		Distribution of Household Income • The Lorenz Curve • Why Do Family Incomes Differ?	
Present Value and Discounting	696	Poverty and the Poor	714
Present Value of Payment One Year Hence • Present Value for Payments in Later Years • Present Value of an Income Stream • Present Value of an Annuity		Official Poverty Level • Public Policy and Poverty • Programs to Help the Poor • Expenditures and the Rate of Poverty	
Entrepreneurial Ability and Profit	700	Who Are the Poor?	720
Role of the Entrepreneur • The Entrepreneur Can Supply Other Resources • Why Entrepreneurs Often Invest in Capital		Poverty Among Young Families • Poverty and Gender • Poverty and Race	
Entrepreneurship and Theories of Profit	702	Poverty and Discrimination	725
Entrepreneur as Broker • Entrepreneur as Risk Bearer • Entrepreneur as Innovator • Profit and the Supply of Entrepreneurs		Discrimination in the Job Market • Affirmative Action • Discrimination in Transfer Programs?	
29 Poverty and Income Distribution	710	Some Unintended Consequences of Income Assistance	728
The Personal Distribution of Income	710	Work Disincentives • Does Welfare Cause Dependency? • Poverty and Public Choice	
		Welfare Reform	732
		State Reforms • Negative Income Tax	

PART 7 An Inside Look at Economic Institutions **738**

30 Inside the Household	740	31 Inside the Firm	764
Introduction	740	The Rationale for the Firm and the Scope of Its Operation	765
The Economics of Marriage	742	The Firm Reduces Transaction Costs • Shirking and the Entrepreneur • The Scope of the Firm	
The Marriage Market • Gathering Information • Love and Marriage		Contestability	773
Allocating Time Between Market Work and Household Work	745	Corporate Ownership and Control	774
Household Work Versus Market Work • The Market Wage, Household Work, and Market Work • Deciding Who Does What		Managerial Behavior in Large Corporations • Constraints on Managerial Discretion • The Market for Corporate Control • A Glossary of Takeover Terms	
The Economics of Children	748	32 Inside the Government	783
The Supply and Demand for Children • The Farm Family • Inheritance and Industrialization • The Move to the City • Quantity and Quality of Children		The Economy as a Game	784
The Changing American Family	756	Fairness of the Game • Kinds of Games • Rules and Behavior	
Women in the Work Force • Divorce • The Rise of the One-Parent Household		Public Choice in Direct Democracy	786
Demography	759	Median-Voter Model • Log-rolling • Cyclical Majority	
The Baby Boom • The Baby Bust • Following the Sun			

Representative Democracy	791	Bureaucracy and Representative	
Goals of the Participants • Rational Ignorance • Distributions of Costs and Benefits		Democracy	802
Rent Seeking	794	Ownership and Funding of Bureaus •	
Political Action Committees • Rent Seeking and Efficiency • The Underground Economy		Ownership and Organizational Behavior • Bureaucratic Objectives • Private Versus Public Production	

PART 8 The International Setting 808

33 International Trade	810	Transfers • Capital Account • Statistical Discrepancy • Official Reserve Transactions Account	
The Gains from Trade	811	History and Development of the International Monetary System	850
Reasons for International Specialization • A Profile of Imports and Exports • Absolute and Comparative Advantage • Production Possibilities Frontiers • The Gains from Trade		Bretton Woods Agreement • Demise of the Bretton Woods System • Current Managed Float System • Should We Return to the Gold Standard?	
Trading on the World Market	817	35 Problems of Developing Countries	857
World Price Is Above the Domestic Equilibrium Price • World Price Is Below the Domestic Equilibrium Price • The Rest of the World • Determining the World Price • The Gains from Trade Again		Worlds Apart	858
Trade Restrictions	822	Developing Countries • Classification of Economies • Health and Nutrition • High Birth Rates • Women in Developing Countries • Intracountry Income Distribution	
Tariffs • Quotas • Comparison of Tariffs and Quotas		Productivity and Development	866
Arguments for Trade Restrictions	827	Low Labor Productivity • Technology and Education • Poor Labor Utilization • The Wealth of Nations	
National Defense Argument • Infant Industry Argument • Antidumping Argument • Protecting Jobs and Labor Income • Declining Industry Protection • Problems with Protection • Winners and Losers		International Issues of Development	874
34 International Finance	835	Foreign Aid • Third World Debt Problems	
Foreign Exchange Rates and Markets	835	36 The Soviet Economy	878
Foreign Exchange Markets • Arbitrage • Demand for Foreign Exchange • Supply of Foreign Exchange • Determining the Exchange Rate • Fixed Exchange Rates • Imposing a Rate Ceiling • Imposing a Rate Floor		Introduction to Alternative Economic Systems	879
Balance of Payments	843	Planned and Market Socialism • Kinds of Coordination • Communism, Socialism, and the Soviet Union • Central Planning • Supply and Demand • Labor Markets	
Balance of Payments Measures Flows • Deficits and Surpluses • Merchandise Trade Balance • Balance on Goods and Services • Current Account • Unilateral		Performance of the Soviet Economy	884
