

Contents

1.	Problems with the Concept of Executive Functioning	1
	<i>What Is EF?: The Lack of an Operational Definition</i>	4
	<i>How Is EF Assessed?: The Poor Ecological Validity of Psychometric Tests of EF</i>	9
	<i>How Does EF Work?: The Limitations of Current Cognitive Models of EF</i>	13
	<i>Why EF?: The Importance of Evolution in the Origins and Purposes of EF</i>	31
	<i>Conclusions and Specific Aims</i>	34
2.	The Extended Phenotype: A Foundation for Modeling Executive Functioning	37
	<i>The Conventional View of the Phenotype</i>	38
	<i>An Extended Phenotype</i>	39
	<i>How Long Is the Reach of the Genes?: The Boundary of the Extended Phenotype</i>	50
	<i>The Role of Universal Darwinism in the Human Extended Phenotype</i>	52
	<i>Conclusions</i>	59
3.	Executive Functioning as an Extended Phenotype	60
	<i>A More Precise Definition of EF</i>	60
	<i>An Overview of the EF Extended Phenotype</i>	62
	<i>Eight Emerging Developmental Capacities Arising from EF</i>	68
	<i>The Pre-Executive Levels and Zones</i>	75

4.	The Instrumental–Self-Directed Level	79
	<i>EF in Six Self-Directed Acts</i>	81
	<i>The Importance of Time in EF/SR</i>	92
	<i>EF/SR Relies on a Limited Resource Pool</i>	94
	<i>Are All Self-Directed Actions EF?</i>	95
	<i>How Does EF Govern the Automatic</i>	
	<i>Pre-Executive Level of Behavior?</i>	96
	<i>Viewing EF/SR as a System of Feedback Loops</i>	100
	<i>Evolutionary and Developmental Considerations</i>	102
	<i>Shifting Sources of Control of Human Behavior</i>	103
	<i>Conclusions</i>	104
5.	The Methodical–Self-Reliant Level	108
	<i>Distinguishing Executive Cognition</i>	
	<i>from Executive Action</i>	110
	<i>Using the Physical Environment to Boost EF</i>	111
	<i>Social Problems That Likely Contributed to the</i>	
	<i>Evolution of the Self-Reliant EF Level</i>	113
	<i>Dimensions of EF Evident in Daily Life Activities</i>	118
	<i>EF as Human Reasoning and as the Source of Culture</i>	120
	<i>Conclusions</i>	121
6.	The Tactical–Reciprocal Level	123
	<i>Social Reciprocity as a Major Activity</i>	
	<i>of the Extended EF Phenotype</i>	126
	<i>The Special Conditions Needed to Support Reciprocity</i>	128
	<i>EF, Reciprocity, and Economics</i>	131
	<i>Reciprocity, Morality, and Ethics</i>	133
	<i>Using Each Other for Mutual Self-Regulation</i>	137
	<i>The Role of Parenting and Culture in Reciprocity</i>	138
	<i>Implications for EF Tests</i>	139
	<i>Conclusions</i>	140
7.	The Strategic–Cooperative Level	143
	<i>The Advent of Social Cooperation</i>	
	<i>in the Extended EF Phenotype</i>	144
	<i>Conditions Necessary for Cooperation to Arise</i>	146
	<i>The Importance of Division of Labor to a Cooperative</i>	148
	<i>The Profound Role of Culture in Cooperatives</i>	152
	<i>A Second Possible Stage to the Strategic–Cooperative Level:</i>	
	<i>Principled–Mutualistic</i>	155
	<i>Does Religion Have a Role in the Origins of Social</i>	
	<i>Cooperatives and Mutualism?</i>	159
	<i>Conclusions</i>	160

8. The Extended Utilitarian Zone	163
<i>Objective Means of Judging</i>	
<i>Extended EF Phenotypic Effects</i>	164
<i>Conclusions</i>	170
9. Implications for Understanding Executive Functioning and Its Disorders	173
<i>The Problem of Defining EF</i>	173
<i>The Problem of the Nature of EF: Incomplete Theories</i>	177
<i>The Problem of "Why EF?"</i>	188
<i>Conclusions</i>	188
10. Implications for the Assessment and Clinical Management of Deficits in Executive Functioning	190
<i>The Problem of How to Assess EF</i>	190
<i>Implications for the Clinical Management of EF Deficits</i>	198
<i>Conclusions</i>	209
Afterword to the Paperback Edition	210
