<i>Preface</i>	v
<i>Addendum</i>	vii
<i>List of Abbreviations</i>	xxi
<i>Table of Cases</i>	xxiii
<i>Table of National Legislation</i>	xxvii
<i>Table of EU and International Legislation</i>	xlix
<b>Chapter 1 Introduction</b>	1
Attitudes to Radioactivity	1
Measurement and Radiological Protection	3
Exploring the Atom	4
The First Nuclear Reactor	6
The Bomb	7
Development in Canada	8
Post-war Development in the UK	9
Creation of the UK Atomic Energy Authority	10
Civil Nuclear Power: The Early Years	11
The Pressurised Water Reactor Stations	13
Nuclear Reprocessing and Fuel Services	14
Radioactive Waste Management	17
Privatisation of the Nuclear Energy Industry	18
Privatisation and Nuclear Liabilities	20
The Atomic Energy Authority	22
BNFL's Break-up	23
Weapons Production	24
The Future of Nuclear Power	26
Accidents	31
Windscale	32
Kyshtym	33
Three Mile Island	33
Chernobyl	34
<b>Chapter 2 International Aspects</b>	37
Introduction	37
International Commission on Radiological Protection	37
The UN Scientific Committee on the Effects of Atomic Radiation	38
The International Atomic Energy Agency	39
The IAEA's Role	44
The Nuclear Energy Agency	46

The Global Nuclear Energy Partnership	47
Generation IV International Forum	48
<b>Chapter 3 Euratom</b>	<b>49</b>
Introduction	49
The Euratom Treaty	51
Chapter I: Promotion of research	53
Chapter II: Dissemination of Information	54
Chapter III: Health and Safety	55
Chapter IV: Investment	59
Chapter V: Joint undertakings	62
Chapter VI: Supplies	62
Chapter VII: Safeguards	66
Chapter VIII: Ownership	66
Chapter IX: The Nuclear Common Market	67
Chapter X: External relations	68
Inapplicability of Euratom to Military Uses of Nuclear Energy	69
Controversy over Euratom	69
The Nuclear Safety Directive	72
Internal Market Rules on Generation	74
<b>Chapter 4 Licensing</b>	<b>75</b>
Background to Licensing	75
International Law	76
European Community Requirements	79
Licensing of Nuclear Reactors	79
Licensing of Other Installations	80
Prescribed Installations	81
Licensing: The Position of the Atomic Energy Authority	83
Offence of Installation or Operation without Licence	83
Operations Requiring a Section 2 Permit	83
Ministerial Responsibility	84
Scotland	85
The Role of the Health and Safety Executive in Licensing	87
The Nuclear Safety Advisory Committee	90
Liaison with other Bodies and Agencies	91
Health and Safety Duties Generally	91
Nuclear Site Licences: Generally	92
Identity of Site Licensee	93
Non-prescriptive Nature of the Licensing System and Safety Cases	95
Safety Assessment Principles	95
Nuclear Site Licences: Acceptable Risk	96
Tolerability of Risk	97
Applications for Licences	99
Nuclear Site Licences: Consultation	99
Regulation of Defence-related Sites	100

Nuclear Site Licences: Relationship with Electricity Act Consents and Planning	
Permission	101
The Sizewell B Inquiry	101
Licensing Future Plant	102
Insurance	105
Form of Licence	105
Standard Conditions	106
The Ionising Radiations Regulations 1999 and the ALARP Concept	110
Conditions on Handling, Treatment and Disposal of Nuclear Matter	111
Periodic Safety Reviews	111
Variation and Revocation of Conditions	112
Lack of Appeal against Licensing Decisions	113
Representations by Trades Unions, etc	113
Relationship of Conditions to Controls under the Radioactive Substances Act 1993	113
Posting of Conditions	114
Contravention of Conditions	114
Corporate Manslaughter	114
Offences: Directors and Similar Officers	115
Institution of Proceedings	115
Penalties	116
Offences under the Health and Safety at Work Act 1974	116
Nuclear Installation Prosecutions: Examples	117
Statutory Enforcement Powers	118
Powers arising from Site Licences	119
Revocation and Surrender of Licences	120
Responsibility following Revocation or Surrender	120
Decommissioning	121
Maintenance of List of Licensed Sites	122
Siting and Emergency Procedures	122
Dangerous Occurrences and Nuclear Incidents	123
Licensing a Privatised Nuclear Industry	124
Security Requirements	126
<b>Chapter 5 New Build</b>	<b>127</b>
The Sizewell B Inquiry	128
The Evolution of Policy on New Build	129
The Flawed 2006 Consultation	133
Policy following the Greenpeace Judgment	135
The Planning Act 2008	137
National Policy Statements	138
The Infrastructure Planning Commission	140
Applications and their Examination	141
Local Impact Reports	145
Criteria for Decisions	145
Progress in Planning New Plant	147
Siting Criteria	149
Coastal Processes and Flooding	151

Strategic Environmental Assessment	153
Public Participation	154
Alternative Sites	155
Appropriate Assessment under the Habitats Directive	156
Environmental Impact Assessment	157
EIA and the Waste Question	158
The Nuclear Safety Convention	162
Devolution Aspects	162
<b>Chapter 6 Liability</b>	<b>164</b>
Introduction: Problems of Liability and Insurance	164
Early UK Legislation	164
International Provisions: Generally	166
Joint Protocol relating to Paris and Vienna Conventions	168
The Paris Convention: Generally	169
The Paris Convention: Channelling of Liability	170
The Paris Convention: Limitation of Liability in Amount	172
The Paris Convention: Limitation of Liability in Time	172
The Paris Convention: Compulsory Cover for Liability	173
The Paris Convention: Single Jurisdiction	173
The 2004 Protocol to amend the Paris Convention	174
The Brussels Supplementary Convention	176
The 2004 Protocol to amend the Brussels Supplementary Convention	178
The Vienna Convention	178
Protocol to amend the Vienna Convention	179
The Convention on Supplementary Compensation	180
Scope of the Paris, Brussels and Vienna Conventions—Non-peaceful Uses of Nuclear Energy	182
The Convention on the Liability of Operators of Nuclear Ships	182
The Convention relating to Civil Liability in the Field of Maritime Carriage of Nuclear Material	183
Multilateral Nuclear Environmental Programme in Russian Federation	183
Euratom Developments	184
Current International Issues in Liability	184
The Environmental Liability Directive	186
The US Approach	187
The Nuclear Installations Act 1965: Generally	188
Section 7: Duty of Licensee of Licensed Site	189
Occurrences involving Nuclear Matter	189
Occurrences on the Licensed Site	190
Occurrences involving Nuclear Matter being Carried	190
Occurrences involving Matter which has been on the Licensed Site or in the Course of Carriage	191
Ionising Radiations	192
Injury to Persons	193

Unborn Children	194
Personal Injury: The Sellafield Litigation	196
Personal Injury: The Industry Compensation Scheme	197
Damage to Property	198
Consequential Loss	201
The Licensee's Property and that of Third Parties	202
Liability of Third Parties in respect of Licensee's Property	203
Duty of the UKAEA	203
Duty of the Crown	204
Duty of Foreign Operators	204
Movements of Nuclear Matter to and from the UK	205
Duty of Carriers	206
Right to Compensation: Section 12	207
Damage, Injury or Loss outside Section 12	207
Exclusion of Other Claims	208
Limitation for Maritime Claims	208
Compensation for Damage to Licensee's Property	209
Exclusion, Extension and Reduction of Compensation: Section 13	209
Provision by Insurance: The Pool	217
Terms of Insurance	218
Provision by other Means	220
Claims exceeding the Aggregate Figure	221
Extension to British Territories	227
Personal Injury Liability outside the Act: The Test Veterans' Litigation	227
<b>Chapter 7 Radiological Protection</b>	<b>231</b>
International Commission on Radiological Protection	234
Nuclear Energy Agency	237
Euratom	238
Basic Safety Standards	239
Proposed Revision of BSS Directive and NORM	243
Implementation of the BSS Directive in the UK	244
The Ionising Radiations Regulations 1999	244
Justification: Cases	246
The Justification of Practices Involving Ionising Radiation Regulations 2004	250
Monitoring of Radioactivity Levels	253
Emergency Preparedness	253
Emergency Food Protection Measures	256
<b>Chapter 8 Safeguards and Security</b>	<b>258</b>
The Nuclear Test-ban and Arms Limitation Treaties	259
Legality of Nuclear Weapons	264
The Non-Proliferation Treaty	265
The Proliferation Security Initiative	270
IAEA Safeguards	271
Euratom Safeguards	272
The Euratom Supply Agency	275

Safeguards in the UK Generally	276
IAEA Safeguards in the UK	276
Euratom Safeguards in the UK	278
Export Controls	280
Import Controls	280
Fissile Materials Cut-Off Treaty	281
Security Generally	281
The Convention on the Physical Protection of Nuclear Material	282
Convention for the Suppression of Acts of Nuclear Terrorism	283
IAEA Guidance	284
Security in the UK	284
Nuclear Terrorism Generally	287
<b>Chapter 9 Use of Radioactive Substances</b>	<b>289</b>
Introduction	289
Radioactive Substances and Issues Relating to their Use	290
The Statutory Background: The Radioactive Substances Acts 1948 and 1960	292
The Enforcing Authority for Radioactive Substances	294
The Meaning of 'Radioactive Material'	296
Definition of 'Mobile Radioactive Apparatus'	297
Prohibition on use of Radioactive Material	297
Registration of Users of Radioactive Material	299
Conditions	299
Breaches of Condition	301
Exemption for Nuclear Sites	302
Specific Exemptions	302
High Activity Sealed Sources	304
Prohibition of use of Mobile Apparatus	307
Registration of Mobile Apparatus	307
Exemptions from Registration of Mobile Apparatus	308
Relationship of Registration under Sections 7 and 10	308
Cancellation and Variation of Registration	309
Display of Certificate of Registration and Retention of Records	309
Enforcement Notices	310
Prohibition Notices	310
Charges	311
Appeals	311
Powers of the Secretary of State	312
Powers of Entry, Inspection, etc	313
Access to Information	313
Application to Crown	314
Relationship to other Legislation	315
Environmental Permitting	315
<b>Chapter 10 Transport</b>	<b>318</b>
Introduction	318
Safety of Transport	320

International Regulation: Generally	320
Carriage by Sea	324
Carriage by Air	325
Road Transport	325
Rail Transport	326
Inland Waterways	326
Post	327
UK Transport Regulations	327
The Radioactive Material (Road Transport) Act 1991	327
The Carriage of Dangerous Goods Regulations	329
Transport by Road: Offences	330
Liability and Insurance	331
Transport of Radioactive Material by Rail	332
Transport by Sea	333
Transport by Air	333
Transboundary Waste Movements	334
Generally	334
European Community Regulation	336
The Directive on Supervision and Control of Shipments of Radioactive Waste and Spent Fuel	336
Regulation on Shipments of Radioactive Substances	338
Implementation of Community Requirements in the UK	339
<b>Chapter 11 Decommissioning</b>	<b>341</b>
Introduction	341
Approaches to Decommissioning	342
Convention Obligations	343
EU Developments	343
Decommissioning of Existing Facilities in the UK: Introduction	346
The Nuclear Decommissioning Authority	348
Site Licence Companies and Parent Body Organisations	350
Independent Scrutiny	351
Regulatory Aspects of Decommissioning	352
Environmental Impact Assessment	353
Nuclear Liabilities during Decommissioning	355
Site Delicensing	357
Decommissioning and New Build	357
Radioactively Contaminated Land	360
Amendment	361
Definition of Radioactively Contaminated Land	362
Procedural Aspects	365
Duty of Inspection	365
Making the Determination	365
Special Sites	366
Remediation Notices	366

Duties of the Enforcing Authority to carry out Remediation	367
The Appropriate Person and Relationship with Rules on Nuclear Damage	367
Part 2A and Licensed Nuclear Sites	370
<b>Chapter 12 Radioactive Waste</b>	<b>372</b>
Introduction	372
Inter-generational Equity Issues	374
International Co-operation on Disposal Facilities	375
Classifying Radioactive Waste	376
The UK National Inventory	378
Radioactive Waste Disposal in the UK: Historical Evolution	379
The Nirex Planning Application	384
Rebuilding the Radioactive Waste Programme	386
CoRWM	387
Spent Fuel Management and Reprocessing	388
High Level Waste	389
Intermediate Level Waste	389
Low Level Waste	389
Plutonium	390
Depleted Uranium	391
Partitioning and Transmutation	392
Waste Substitution	392
Imports and Exports of Waste	393
Geological Disposal	393
International Law	399
The Role of the International Atomic Energy Agency	399
The Joint Convention	400
The IAEA International Action Plan	401
The London Convention	402
OSPAR and the Sintra Statement	403
Sub-seabed Disposal	404
The MOX Plant Case	407
European Community Law	409
Euratom Requirements: Article 37	409
European Action Plans on Radioactive Waste Disposal	410
Transfrontier Movement of Radioactive Waste	412
Control under the Radioactive Substances Act 1993	413
Radioactive Waste Definition	414
‘End of Waste’ Issues	415
Contaminated Material	417
Section 1(2)(b)	418
Disposal and Accumulation	420
The Requirement of Authorisation for Disposal: Section 13	421
Nuclear Sites—Disposal of Waste	422
The Requirement of Authorisation for Accumulation: Section 14	423

Exemptions: Section 15	424
Review of Exemptions	425
Authorisation Procedures: Generally	426
Authorisation Procedure: Non-nuclear Sites	426
Authorisation Procedure: Nuclear Sites	427
Public Consultation on Applications	428
Local Inquiries into Authorisations	429
Environmental Assessment	430
Revocation and Variation of Authorisations	432
The Scope of the Variation Power	432
Review of Authorisations	433
Transfer of Authorisations	434
Effect of Authorisation	434
Functions of Local Authorities—‘Special Precautions’	434
Notices and Records	435
Enforcement and Prohibition Notices: Sections 21 and 22	435
Secretary of State’s Powers of Direction	436
Appeals	436
Powers of the Secretary of State relating to Radioactive Waste: Section 29	437
Power of Appropriate Agency to Dispose of Radioactive Waste and Orphan Sources	437
Rights of Entry, Inspection, etc	437
Offences: Sections 32 to 38	438
Public Access to Information: Section 39	440
Relationship of the 1993 Act to Other Statutory Provisions	440
Application to Crown: Section 42	442
Effect on other Rights and Duties: Section 46	442
Territorial Jurisdiction	443
Issues in Regulation: Generally	443
UK Strategy for Radioactive Discharges	443
Best Available Techniques	446
ALARA	447
Agency Guidance on Regulation and BAT	448
Solid Waste Disposal	450
Conditioning Waste	453
Authorising New Nuclear Power Stations	454
<b>Appendices</b>	
Appendix 1 The Nuclear Installations Act 1965	455
Appendix 2 Standard Nuclear Site Licence Conditions	492
Appendix 3 Convention on Nuclear Safety	504
Appendix 4 Paris Convention on Third Party Liability Consolidated Version, as amended by 1964, 1982 and 2004 Protocols	514
<i>Index</i>	535
