

# Contents

	List of Contributors	v
	Preface	ix
1	Cyanobacteria and Earth History	1
	Andrew H. Knoll	
2	Insights into Cyanobacterial Evolution from Comparative Genomics	21
	Wesley D. Swingley, Robert E. Blankenship, and Jason Raymond	
3	Gene Transfer to Cyanobacteria in the Laboratory and in Nature	45
	Enrique Flores, Alicia M. Muro-Pastor, and John C. Meeks	
4	Molecular Ecology and Environmental Genomics of Cyanobacteria	59
	Ferran Garcia-Pichel	
5	Comparative Genomics of Marine Cyanobacteria and their Phages	89
	Wolfgang R. Hess	
6	Stress Responses in <i>Synechocystis</i> : Regulated Genes and Regulatory Systems	117
	Dmitry A. Los, Iwane Suzuki, Vladislav V. Zinchenko, and Norio Murata	
7	Bioactive Compounds Produced by Cyanobacteria	159
	Kaarina Sivonen and Thomas Börner	
8	The Cyanobacterial Circadian Clock and the KaiC Phosphorylation Cycle	199
	Kazuki Terauchi and Takao Kondo	
9	Molecular Structure of the Photosynthetic Apparatus	217
	Yanina Sarah DeRuyter and Petra Fromme	
10	Membrane Systems in Cyanobacteria	271
	Michelle Liberton and Himadri B. Pakrasi	

11	<b>Biogenesis and Dynamics of Thylakoid Membranes and the Photosynthetic Apparatus</b>	289
	Conrad W. Mullineaux	
12	<b>Carbon Acquisition by Cyanobacteria: Mechanisms, Comparative Genomics, and Evolution</b>	305
	Aaron Kaplan, Martin Hagemann, Hermann Bauwe, Shira Kahlon, and Teruo Ogawa	
13	<b>Nitrogen Assimilation and C/N Balance Sensing</b>	335
	Ignacio Luque and Karl Forchhammer	
14	<b>Transcriptional and Developmental Responses by <i>Anabaena</i> to Deprivation of Fixed Nitrogen</b>	383
	Xudong Xu, Jeff Elhai, and C. Peter Wolk	
15	<b>Cyanobacterial Nitrogen Fixation in the Ocean: Diversity, Regulation, and Ecology</b>	423
	Lucas J. Stal and Jonathan P. Zehr	
16	<b>Cyanobacterial-plant Symbioses: Signaling and Development</b>	447
	Birgitta Bergman, Liang Ran, and David G. Adams	
	<b>Index</b>	474
	<b>Colour Plate</b>
