*Preface* xxi

## **1 Introduction 1**

### **Defining and Identifying Disordered Behavior 2**

**Accent** • The Faces of Problem Behavior 2

Atypical and Harmful Behavior 3

Developmental Standards 3

Role of Culture and Ethnicity 4

Gender and Situational Standards 5

Role of Others in Identifying Problems 6

Changing Views of Abnormality 6

### **How Common Are Behavioral Disorders of Youth? 6**

### **How Are Developmental Level and Disorders Related? 7**

### **How Are Gender and Disorders Related? 8**

Methodological Issues, True Differences 9

### **Historical Influences 9**

Progress in the Nineteenth Century 10

Sigmund Freud and Psychoanalytic Theory 10

**Accent** • Little Hans: A Classic Psychoanalytic Case 11

Behaviorism and Social Learning Theory 13

Mental Hygiene and Child Guidance Movements 13

Scientific Study of Youth 14

**Accent** • Mrs. Hillis: Improving Corn, Hogs, and Children in Iowa 15

### **Current Study and Practice of Child and Adolescent Psychopathology 15**

**Summary** 16

**Key Terms** 17

## 2 The Developmental Psychopathology Perspective 18

### Perspective and Theory 19

Theories of Psychopathology 19

### Developmental Psychopathology Perspective: An Overview 19

Concept of Development 20

How Development Occurs: Multicausality 21

Searching for Causal Processes 21

Pathways of Development 23

Equifinality and Multifinality 24

Risk and Resilience 24

Risk 24

Resilience 26

Accent • The Timing of Risky Experiences 27

Continuity and Change 29

### Normal Development, Problematic Outcomes: Four Examples 30

Early Attachment 30

Temperament 32

Emotion and Its Regulation 34

Social Cognitive Processing 35

Summary 36

Key Terms 37

## 3 Influences and Risks in the Developmental Process 38

### Brain and Nervous System 38

Brain Development: Biology and Experience 38

Structure 39

Neurotransmission 39

### Nervous System and Risk for Disordered Behavior 40

Prenatal Influences 40

Perinatal and Later Influences 42

Accent • Fetal Alcohol Syndrome: A Preventable Tragedy 42

### Genetic Context 43

Single-Gene Inheritance 44

Multiple-Gene Inheritance: Quantitative Methods 44

Searching for Genes: Molecular Methods	46
Gene-Environment Interplay	46
<b>Learning and Cognition</b>	<b>46</b>
Classical Conditioning	47
<b>Accent</b> • Albert and Peter: Two Historic Cases	47
Operant Learning	48
Observational Learning	48
Cognitive Processes	49
<b>Sociocultural Context: An Overview</b>	<b>50</b>
<b>Family Context, Maltreatment, and Divorce</b>	<b>51</b>
Parent-Child Relationships	52
Maltreatment	53
Changes in Family Structure: Divorce	58
<b>Peer Influences</b>	<b>61</b>
<b>Community and Societal Contexts</b>	<b>62</b>
School Influences	62
Social Class and Poverty	63
Neighborhoods	65
Culture, Ethnicity/Race, Minority Status	67
<b>Summary</b>	<b>69</b>
<b>Key Terms</b>	<b>70</b>
<b>4 Research: Its Role and Methods</b>	<b>72</b>
<b>Fundamentals of Research</b>	<b>72</b>
Selection of Participants	73
Observation and Measurement	73
Reliability of Research Findings	74
Validity of Research Findings	74
<b>Accent</b> • The Goodness of Measurement in Research	75
<b>Basic Methods of Research</b>	<b>76</b>
Case Studies	76
Correlational Methods	77
The Experiment	78
Single-Case Experimental Designs	80
<b>Accent</b> • Experiments of Nature	81
<b>Cross-Sectional, Longitudinal, and Sequential Strategies</b>	<b>84</b>
Cross-Sectional Research	84
Longitudinal Research	84
Sequential Research	84
<b>Retrospective and Prospective Strategies</b>	<b>85</b>

## **Epidemiology 86**

Accent • Epidemiology on the Isle of Wight 87

## **Quantitative and Qualitative Strategies 87**

Examples of Qualitative Research 88

Weaknesses and Strengths 89

## **Ethical Issues in Research 89**

Voluntary Informed Consent 89

Privacy 91

Do No Harm and Do Good 91

Balancing It All 92

## **Summary 92**

## **Key Terms 93**

# **5 Classification, Assessment, and Treatment 94**

## **Classification and Diagnosis 94**

The DSM Approach 95

Accent • Co-Occurrence: A Common Circumstance 99

Empirical Approaches to Classification 100

The Impact of Labels 102

## **Assessment 104**

Conducting a Comprehensive Assessment 104

The Interview 105

Problem Checklists and Self-Report Instruments 106

Observational Assessment 107

Projective Tests 107

Intellectual-Educational Assessment 108

Assessment of Physical Functioning 110

## **Treatment 111**

Treatment Modes and Settings 112

Empirically Supported Treatments 117

## **Clinical Work with Young Clients 118**

Interdisciplinary Approach 118

Working with Parents 118

Working with and for the Young Client 119

## **Summary 120**

## **Key Terms 121**

# **6 Anxiety Disorders 123**

## **An Introduction to Internalizing Disorders 123**

## **Defining and Classifying Anxiety Disorders 124**

Normal Fears, Worries, and Anxieties	124
Classifying Anxiety Disorders	125
<b>Specific Phobias</b>	<b>126</b>
Diagnostic Criteria	126
Description	126
Epidemiology	127
Developmental Course	127
<b>Social Phobia</b>	<b>128</b>
Diagnostic Criteria	128
Description	129
Epidemiology	130
Developmental Course	130
Accent • Selective Mutism and Social Phobia	130
<b>Separation Anxiety and School Refusal</b>	<b>131</b>
Diagnosis and Classification	132
Description	133
Epidemiology	134
Developmental Course	135
<b>Generalized Anxiety Disorder</b>	<b>136</b>
Diagnostic Criteria	136
Description	136
Epidemiology	137
Developmental Course	138
<b>Panic Attacks and Panic Disorder</b>	<b>138</b>
Diagnostic Criteria	138
Epidemiology	139
Description and Developmental Pattern	140
<b>Reactions to Traumatic Events</b>	<b>140</b>
Diagnostic Criteria for Acute and Posttraumatic Stress Disorders	141
Description	142
PTSD and Child Abuse	142
Epidemiology	142
Developmental Course and Prognosis	144
Accent • Terrorism and Posttraumatic Stress	145
<b>Obsessive-Compulsive Disorder</b>	<b>146</b>
Diagnostic Criteria	146
Description	147
Epidemiology	148
Developmental Course and Prognosis	148
<b>Etiology of Anxiety Disorders</b>	<b>149</b>
Genetics	149
Temperament	150
Psychosocial Influences	150

## **Assessment of Anxiety Disorders 152**

Interviews and Self-Report Inventories 152

Behavioral Observations 153

Physiological Recordings 153

## **Treatment of Anxiety Disorders 153**

Psychological Treatments 153

Pharmacological Treatments 156

Treating Obsessive-Compulsive Disorder 157

## **Summary 158**

## **Key Terms 159**

# **7 Mood Disorders 161**

## **A Historical Perspective 161**

## **Definition and Classification of Mood Disorders 162**

Defining Depression 162

The DSM Approach 163

Depressive Disorders: The DSM Approach 164

Depression: Empirical Approaches 165

Description of Depression 165

Bipolar Disorder: The DSM Approach 166

## **Epidemiology 168**

Epidemiology of Depression 168

Epidemiology of Bipolar Disorder 170

## **Developmental Course and Prognosis 171**

Depression and Development 171

Developmental Course of Bipolar Disorder 172

## **Etiology of Mood Disorders 173**

Biological Influences 173

Social-Psychological Influences 175

Impact of Parental Depression 178

Peer Relations and Depression 181

## **Suicide 182**

Prevalence of Completed Suicides 182

Suicidal Ideation and Attempts 183

Suicide and Psychopathology 184

Risk Factors 184

## **Assessment of Mood Disorders 185**

Accent • Sexual Orientation and Suicide Risk 186

## **Treatment of Mood Disorders 188**

Pharmacological Treatments for Depression 188

Psychosocial Treatments for Depression 188

Treatment of Bipolar Disorder 191

**Summary 192**

**Key Terms 193**

## **8 Conduct Problems 194**

### **Classification and Description 194**

Empirically Derived Syndromes 195

DSM Approach: Overview 197

DSM Approach: Oppositional Defiant Disorder 197

**Accent** • Fire Setting 198

DSM Approach: Conduct Disorder 200

Gender Differences: Relational Aggression 201

**Accent** • Are Conduct Problems a Mental Disorder? 202

Delinquency 202

### **A Trio of Conduct-Related Behaviors: Violence, Bullying, Substance Use 203**

Violence 203

**Accent** • Some Facts on Violence and Youth 204

Bullying 205

Substance Use 206

### **Epidemiology 212**

Gender, Age, and Context 212

Patterns of Co-Occurrence 213

### **Developmental Course 214**

Stability of Conduct Problems 214

Age of Onset 215

Developmental Paths 216

### **Etiology 217**

The Socioeconomic Context 218

Aggression as a Learned Behavior 218

Family Influences 219

**Accent** • Maltreatment and Conduct Problems 223

Peer Relations 224

Cognitive-Emotional Influences 224

Biological Influences 226

### **Assessment 227**

Interviews 228

Behavioral Rating Scales 229

Behavioral Observations 229

### **Treatment 230**

Pharmacological Intervention 230

Parent Training 230

Cognitive Problem-Solving Skills Training 232

Functional Family Therapy 234

Community-Based Programs 234

Multisystemic Therapy 235

**Summary 237**

**Key Terms 239**

## **9 Attention-Deficit Hyperactivity Disorder 240**

**Evolving Ideas about ADHD 240**

**DSM Classification and Diagnosis 241**

**Description: Core Features 242**

Inattention 242

Hyperactivity and Impulsivity 242

**Description: Secondary Features 243**

Motor Problems 243

Intelligence, Learning Disabilities, Academic Deficits 244

Cognition: Executive Dysfunction 244

Adaptive Functioning 244

Social Behavior and Relationships 244

Sleep and Accident Risk 245

**DSM Subtypes 246**

**ADHD and Co-Occurring Disorders 247**

Learning Disorders 248

Externalizing Disorders 248

Internalizing Disorders 248

**Epidemiology 249**

Gender 249

**Accent** • Girls and ADHD 250

Social Class and Culture 250

**Developmental Course and Prognosis 251**

Infancy and the Preschool Years 251

Childhood 251

Adolescence and Adulthood 252

Variation and Prediction of Outcome 252

**Psychological Explanations of ADHD 253**

Sensitivity to Reward 253

Aversion to Delay 253

Working Memory 253

Inhibition and Executive Functions 253

**Etiology 255**

Brain Structure and Activity 255

Genetic Factors 255

Prenatal Influences and Birth Complications 257

- Diet and Lead 257
- Psychosocial Factors 257
- Accent** • TV Viewing and Attention Problems in Young Children 258

## **Assessment 258**

- Interviews 259
- Rating Scales 260
- Direct Observation 260
- Other Procedures 260

## **Treatment 260**

- Pharmacological Treatment 261
- Accent** • Parental Attitudes about Medication Use 262
- Behaviorally Oriented Intervention 263
- Multimodal Treatment 265
- Comment on Care 267

## **Summary 268**

## **Key Terms 269**

# **10 Language and Learning Disorders 270**

## **A Bit of History: Unexpected Disabilities, Unmet Needs 270**

## **Definitional Concerns 272**

- Identifying Specific Disabilities 272

## **Language Disorders 273**

- Normal Language Development 273
- DSM Classification and Diagnosis 275
- Description 275
- Epidemiology and Developmental Course 277
- Underlying Cognitive Deficits 278

## **Learning Disorders: Reading, Writing, Arithmetic 279**

- DSM Classification and Diagnosis 279
- Reading Disorder 279
- Accent** • Vulnerability and Reading in Different Languages 281
- Disorder of Written Expression 282
- Mathematics Disorder 283

## **Co-Occurring Behavior Problems 285**

- Accent** • Nonverbal Learning Disabilities (NVLD) 286

## **Social and Motivational Problems 287**

- Social Relations and Competence 287
- Academic Self-Concept and Motivation 289

## **Etiology of Language and Learning Disorders 289**

- Brain Abnormalities 289
- Genetic Influence 291
- Psychosocial Influences 292

<b>Assessing Language and Learning Disorders</b>	<b>292</b>
<b>Intervention for Language and Learning Disorders</b>	<b>293</b>
Accent ● Some Clues for Identifying Reading Disorder	294
Approaches to Intervention	294
Effectiveness of Intervention	295
<b>Educational Services</b>	<b>297</b>
Benefits and Concerns	299
<b>Summary</b>	<b>300</b>
<b>Key Terms</b>	<b>302</b>

## **11 Mental Retardation (Mental Disability) 303**

<b>Definition and Classification</b>	<b>303</b>
AAMR Approach	303
DSM and Past Approaches	305
<b>Nature of Intelligence and Adaptive Behavior</b>	<b>306</b>
Measured Intelligence	306
Accent ● Mental Disability: A History of Abusive Ideas	308
Adaptive Functioning	309
<b>Description</b>	<b>310</b>
<b>Behavioral Problems and Co-Occurring Psychopathology</b>	<b>311</b>
<b>Epidemiology</b>	<b>312</b>
<b>Developmental Course and Considerations</b>	<b>313</b>
Developmental Issues	313
<b>Etiology</b>	<b>314</b>
Organic Influences	314
Multigenic Influences	319
Psychosocial Influences	319
Multifactor Causation	320
<b>Family Coping and Accommodation</b>	<b>320</b>
Living Arrangements	322
Rewards and Satisfactions	323
<b>Assessment</b>	<b>323</b>
Tests of General Intelligence	323
Accent ● Family Context and Development	324
Assessing Adaptive Behavior	325
Other Approaches to Assessment	325
<b>Treatment</b>	<b>326</b>
Broadening of Opportunity	326
Accent ● Changing Views of Mental Retardation	326

Educational Services	327
Behavioral Intervention	329
Pharmacological Treatment	332
Psychotherapy	333

<b>Summary</b>	<b>333</b>
----------------	------------

<b>Key Terms</b>	<b>334</b>
------------------	------------

## **12 Autism and Schizophrenia 335**

<b>A Bit of History: Autism and Schizophrenia</b>	<b>335</b>
---	------------

<b>Autistic Disorder</b>	<b>336</b>
--------------------------	------------

DSM Classification and Diagnosis	336
Description: Autism's Triad of Impairments	336
Description: Autism's Associated Impairments	339
<b>Accent</b> • Savant Abilities and Autism	340
Epidemiology	341
Developmental Course and Prognosis	341
Underlying Psychological Deficits	342
<b>Accent</b> • A Personal Account of Autism	342
Neurobiological Abnormalities	345
Etiology	346
Asperger's Disorder and Other PDDs	348
Assessment of Autism	352
Treatment and Education	352

<b>Schizophrenia</b>	<b>357</b>
----------------------	------------

DSM Classification and Diagnosis	357
Description	358
Epidemiology	360
Developmental Course and Prognosis	360
Neurobiological Abnormalities	361
Etiology	363
Assessment	365
Treatment	365

<b>Summary</b>	<b>367</b>
----------------	------------

<b>Key Terms</b>	<b>367</b>
------------------	------------

## **13 Disorders of Basic Physical Functions 369**

<b>Problems of Elimination</b>	<b>369</b>
--------------------------------	------------

Typical Elimination Training	369
Enuresis	370
Encopresis	372

## **Sleep Problems 374**

- Sleep Development 374
- Common Sleep Problems 374
- Sleep Disorders 374
- Accent • Sleep Apnea 376
- Treating Sleep Problems 378

## **Problems of Feeding, Eating, and Nutrition 380**

- Common Eating and Feeding Problems 380
- Early Eating and Feeding Disorders 380
- Obesity 382
- Accent • Obesity Epidemic? Certain Ethnic Groups at Particular Risk 383

## **Eating Disorders: Anorexia and Bulimia Nervosa 387**

- Definition and Classification: An Overview 387
- Classification and Description: DSM Approach 388
- Epidemiology 389
- Developmental Course and Prognosis 390
- Accent • Being Buff: Weight and Shape Concerns in Young Men 391
- Etiology 392
- Treatment 396

## **Summary 398**

## **Key Terms 399**

# **14 Psychological Factors Affecting Medical Condition 400**

## **Historical Context 400**

## **Psychological and Family Influences on Medical Conditions 401**

- The Example of Asthma 401

## **Consequences of Chronic Conditions 404**

- Adjustment and Chronic Illness 404
- Cancer: Adapting to Chronic Illness 408
- Accent • The Impact of HIV/AIDS in Children and Adolescents 410

## **Facilitating Medical Treatment 410**

- Adherence to Medical Regimens 411
- Psychological Modification of Condition-Related Pain 414
- Reducing Procedure-Related Pain and Distress 415
- Preparation for Hospitalization 418
- Accent • Preventing Childhood Injury 419

## **The Dying Child 419**

**Summary 421**

**Key Terms 422**

## **15 Prevention and Evolving Concerns for Youth 423**

### **Preventing Behavioral Disorder 423**

Conceptualizing Prevention 424

Diverse Prevention Programs 425

Prevention Programs Targeting Multiple Adverse Outcomes 426

**Accent** • A Head Start for Children at Risk 427

Prevention Programs Targeting Specific Adverse Outcomes 430

### **Who Cares for Children: Family Issues 432**

Maternal Employment and Child Care 432

Adoptive Families 435

Foster Care 436

**Accent** • Finding “Forever” Parents 438

### **Mental Health Services for Youth 439**

Fragmentation, Utilization, Evaluation 440

### **Youth in the Global Society 440**

Third World Poverty and Health 440

Exposure to Armed or Sociopolitical Conflict 441

Diversity and International Cooperation 442

### **Summary 443**

### **Key Terms 444**
