The Japanese Market Bubble	60
Emerging Markets Bubble	61
The World of Equities 2021	62
International Stock Returns	64
Diversification in World Markets	65
<i>Should You Hedge Foreign Exchange Risk?</i>	67
<i>Sector Allocation Around the World</i>	69
Conclusion	71

## PART II

## STOCK RETURNS: MEASUREMENT AND VALUATION

### Chapter 5

## Stock Indexes: Proxies for the Market 75

Market Averages	75
The Dow Jones Averages	76
<i>Computation of the Dow Index</i>	77
<i>Long-Term Trends in the Dow Jones Industrial Average</i>	78
<i>When Are Times Really Different?</i>	79
Value-Weighted Indexes	80
<i>Standard &amp; Poor's Index</i>	80

<i>Nasdaq Index</i>	81
<i>Other Stock Indexes: The Center for Research in Security Prices (CRSP)</i>	82
<b>Return Biases in Stock Indexes</b>	<b>84</b>
<b>Why the Average Stock Is a Loser While the Stock Market Is a Winner</b>	<b>84</b>
<b>Appendix: What Happened to the 1896 Original 12 Dow Industrials?</b>	<b>86</b>

## Chapter 6

### The S&P 500 Index: More Than One-Half Century of US Corporate History 89

<b>Sector Rotation in the S&amp;P 500 Index</b>	<b>90</b>
<i>The Performance of the S&amp;P 500 Index Versus the Original Stocks</i>	94
<b>Top-Performing Firms</b>	<b>94</b>
<b>Top-Performing Survivor Firms</b>	<b>96</b>
<b>What Happened to "Top Dogs" of the Market?</b>	<b>96</b>
<b>Conclusion</b>	<b>98</b>

## Chapter 7

### Sources of Shareholder Value: Earnings and Dividends 101

<b>Discounted Cash Flows</b>	<b>101</b>
<b>Sources of Shareholder Value</b>	<b>102</b>
<b>Historical Trends in Earnings and Dividends</b>	<b>103</b>
<i>The Gordon Dividend Growth Model of Stock Valuation</i>	104
<i>Discount Future Dividends, Not Earnings</i>	107
<b>Earnings Concepts</b>	<b>108</b>
<i>Earnings Reporting Methods</i>	109
<i>Historical Earnings Trends: A Comparison</i>	110
<b>Conclusion</b>	<b>113</b>

## Chapter 8

### Interest Rates and Stock Prices 115

<b>Real Interest Rates and Stocks</b>	<b>115</b>
<b>Determinants of Real Interest Rates</b>	<b>116</b>
<i>Economic Growth</i>	117
<i>Population Growth</i>	117
<i>Aging of Population</i>	118
<i>Productivity</i>	119
<i>Decline in Growth of Per Capita GDP</i>	120
<i>Other Impacts of Slower Economic Growth</i>	121
<i>Time Preference</i>	121
<i>Risk Aversion</i>	121
<i>Hedge Qualities of Bonds</i>	122
<i>Negative Beta Assets</i>	123
<i>The Role of the Monetary Authority</i>	125
<b>Interest Rates and Stock Prices</b>	<b>125</b>
<b>Conclusion</b>	<b>126</b>

**Chapter 9****Inflation and Stock Prices 127**

<b>Money and Prices</b>	<b>127</b>
<i>Money and Inflation</i>	128
<b>Stocks as Hedges Against Inflation</b>	<b>130</b>
<i>Why Stocks Fail as a Short-Term Inflation Hedge</i>	130
<b>Nonneutral Inflation</b>	<b>132</b>
<i>Supply-Side Effects</i>	132
<b>Taxes</b>	<b>133</b>
<i>Capital Gains Taxes</i>	133
<i>Corporate Tax Distortions</i>	134
<b>Conclusion</b>	<b>136</b>

**Chapter 10****Yardsticks to Value the Stock Market 137**

<b>An "Evil Omen" Returns</b>	<b>137</b>
<i>Dividend Yield and Buybacks</i>	139
<b>Yardsticks for Valuing the Market</b>	<b>140</b>
<i>P/E Ratio</i>	140
<i>Earnings Yield</i>	142
<i>The CAPE Ratio</i>	143
<i>The Fed Model, Earnings Yields, and Bond Yields</i>	145
<i>Stock Market Value, GDP, and Profit Margins</i>	147
<i>Book Value, Market Value, and Tobin's Q</i>	148
<i>Profit Margins</i>	149
<b>What Is the Right Valuation of the Market?</b>	<b>150</b>

<i>Other Factors Raising Valuation Ratios</i>	151
<i>The Equity Risk Premium</i>	152
<b>Conclusion</b>	<b>153</b>

**PART III****MARKET EFFICIENCY AND VALUE VERSUS GROWTH****Chapter 11****Which Stocks for the Long Run? 157**

<b>Which Stock?</b>	<b>157</b>
<i>Standard Oil and IBM</i>	158
<b>Which Country?</b>	<b>160</b>
<b>GOAT: Greatest of All Time</b>	<b>162</b>
<i>Source of Philip Morris Outperformance</i>	163
<b>Other "Near-Death Experiences" That Turned to Gold</b>	<b>164</b>
<i>It's What You Know for Sure That Ain't So</i>	165
<b>Conclusion</b>	<b>165</b>

**Chapter 12****Is Value Investing Dead? 167****Value Investing 167***Earnings, Dividends, and Book Value 168**The Dow 10 Strategy 172***Underperformance of Value Stocks 175***Explanations for the Post-2006 Value Downturn 176**Has the Premium Been Arbitraged? 176**Discount Rate 178**Technology 179**Big-Cap Growth Stocks 179***The Future of Value Versus Growth 181****Conclusion 181****Chapter 13****Market Efficiency or Noisy Markets? 183****The Efficient Market Hypothesis 183****The Noisy Market Hypothesis 185****Deviations from Market Efficiency 186****Irrationality Versus Liquidity 186****Restrictions on Short-Selling 188****The Market Portfolio 189****Intertemporal Risks 189****Skewed Response to Gains and Losses 190****Conclusion 191****Chapter 14****The "Factor Zoo": Size, Value, Momentum, and More 193****Major Market Factors 193****Longer-Run View of Size, Valuation, and Momentum Factors 194****Size Factor 196***Unusual Features of Small Stock Premium 196**Small Stocks and Value Stocks 198**International Size and Value Investing 199***Momentum 200****Investment and Share Issuance 202****Profitability 203****Other Quality of Earnings Factors 203****Low Volatility Investing 204****Liquidity Investing 204****International Factor Investing 206****Conclusion 207**

**PART IV****STYLES, TRENDS, AND THE CALENDAR****Chapter 15**

<b>ESG Investing</b>	<b>211</b>
Profits Versus Value	211
ESG Investing	212
Corporate Earnings and ESG Rating	213
Valuation Enhancement and ESG Status	213
Future Returns for ESG Stocks	214
ESG and Portfolio Selection	215
Past Is <i>Not</i> Always Prologue	215
ESG as Climate Risk Hedges	217
Reflections on the Friedman Doctrine	218
Conclusion	218

**Chapter 16****Technical Analysis and Investing with the Trend 221**

The Nature of Technical Analysis	221
Fundamentals of Technical Analysis	222
Charles Dow, Technical Analyst	222
The Randomness of Stock Prices	223
Simulations of Random Stock Prices	224
Trending Markets and Price Reversals	226
Moving Averages	227
Testing the Dow Jones Moving-Average Strategy	227
The Dow Industrials and the 200-Day Moving Average	228
Avoiding Major Bear Markets	231
Distribution of Annual Returns	232
Conclusion	233

**Chapter 17****Calendar Anomalies 235**

Seasonal Anomalies	235
The January Effect	236
<i>Causes of the January Effect</i>	237
<i>The January Effect Has Disappeared</i>	238
<i>Predictive Power of January</i>	238
Monthly Returns	239
The September Effect	241
<i>Reasons for the September Effect</i>	243
Other Seasonal Returns	243
Day-of-the-Week Effects	245
Conclusion: What's an Investor to Do?	246

**PART V****THE ECONOMIC ENVIRONMENT FOR STOCKS****Chapter 18****Money, Gold, Bitcoin, and the Fed 249**

<b>History of the Gold Standard</b>	<b>250</b>
<i>The Establishment of the Federal Reserve</i>	251
<i>The Fall of the Gold Standard</i>	251
<b>Postdevaluation Monetary Policy</b>	<b>252</b>
<b>Post-Gold Monetary Policy</b>	<b>254</b>
<b>The Federal Reserve and Money Creation</b>	<b>255</b>
<i>How the Fed's Actions Affect Interest Rates</i>	255
<b>Stock Prices and Central Bank Policy</b>	<b>256</b>
<b>Bitcoin: The New Money?</b>	<b>258</b>
<b>Characteristics of Money</b>	<b>258</b>
<i>Assessing the Qualities of Monetary Assets</i>	260
<i>Macroeconomics of Cryptocurrencies</i>	263
<b>Conclusion</b>	<b>264</b>

**Chapter 19****Stocks and the Business Cycle 265**

<b>Stock Returns and the Business Cycle</b>	<b>266</b>
<b>Who Calls the Business Cycle?</b>	<b>266</b>
<i>Dating the Business Cycle</i>	268
<b>Stock Returns Around Business Cycle Turning Points</b>	<b>269</b>
<b>Gains Through Timing the Business Cycle</b>	<b>271</b>
<b>How Hard Is It to Predict the Business Cycle?</b>	<b>272</b>
<i>History of the Ability to Predict Recessions</i>	272
<b>Has the Business Cycle Been Conquered?</b>	<b>273</b>
<b>Conclusion</b>	<b>275</b>

**Chapter 20****When World Events Impact Financial Markets 277**

<b>Largest Market Moves</b>	<b>279</b>
<b>Big Moves and News Events</b>	<b>280</b>
<i>What Causes the Market to Move?</i>	282
<b>Uncertainty and the Market</b>	<b>282</b>
<b>Democrats and Republicans</b>	<b>283</b>
<i>Correlation Does Not Imply Causality</i>	283
<i>Politics and Stock Returns</i>	284
<b>Stocks and War</b>	<b>286</b>
<b>Markets During the World Wars</b>	<b>288</b>
<b>Post-1945 Conflicts</b>	<b>289</b>
<i>Korea and Vietnam</i>	289
<i>The Gulf War I</i>	290
<i>Gulf War II and Afghanistan</i>	291
<b>Conclusion</b>	<b>291</b>

**Chapter 21****Stocks, Bonds, and the Flow of Economic Data 293**

Economic Data and the Market	294
Principles of Market Reaction	294
Information Content of Data Releases	295
Economic Growth and Stock Prices	296
The Employment Report	297
The Cycle of Announcements	299
Inflation Reports	300
Core Inflation	301
Employment Costs	302
Impact on Financial Markets	302
Central Bank Policy	303
Conclusion	304

**PART VI****MARKET CRISES AND STOCK VOLATILITY****Chapter 22****Market Volatility 307**

The Stock Market Crash of October 1987	309
The Causes of the October 1987 Crash	311
Exchange Rate Policies	311
The Futures Market	312
Circuit Breakers	313
Flash Crash, May 6, 2010	314
The Nature of Market Volatility	317
Historical Trends of Stock Volatility	318
The Volatility Index	319
The Distribution of Large Daily Changes	322
The Economics of Market Volatility	324
Conclusion	325

**Chapter 23****The Great Financial Crisis of 2008–2009 327**

The Week That Rocked World Markets	327
Could the Great Depression Happen Again?	328
Rumblings of Financial Crisis	329
The Great Moderation	331
Subprime Mortgages	332
The Crucial Rating Mistake	333
Regulatory Failure	336
Overleverage by Financial Institutions in Risky Assets	338
