

Contents

Preface	xi
1 Embracing AI in Education	1
Opportunities and Challenges: AI in the Classroom	3
Sustainable AI Integration Strategies	7
Conclusion	13
2 Defining AI	15
Fundamentals of AI and Machine Learning	16
Exploring Generative AI	21
Effective Prompt Writing for Teachers	26
Conclusion	29
3 Reframing Education in the Age of AI	31
Preparing Students for the AI-Driven Workforce	33
Developing AI Literacy and Computational Thinking	39
Fostering a Growth Mindset and Lifelong Learning Culture	43
Cultivating Creativity and Innovation Skills in the AI Era	45
Conclusion	48

4	Adapting Pedagogy for AI Integration	51
	Learning Theories in the AI Era: Constructivist, Behaviorist, and Sociocultural Approaches	53
	Active Learning and AI: Transforming the Classroom Experience	61
	Problem- and Project-Based Learning Strategies with AI	64
	Bloom’s Taxonomy and Critical Thinking Skills in the AI-Enhanced Classroom	69
	Differentiated Instruction: AI-Generated Customized Activities	76
	Fostering Collaboration and Relationship-Building through AI Integration	81
	Inquiry-Based Learning and AI: Encouraging Student-Centered Exploration	84
	Conclusion	88
5	Using AI in Curriculum Development	90
	Lesson Planning and Curricular Design	91
	Creating Learning Assets	108
	Formative Activities: Generated Worksheets, Games, and More	115
	Summative Assessments: Quizzes, Rubrics, and Performance Tasks	120
	Implications for Special Education, ELL, and Inclusive Classrooms	128
	Distance and Remote Education	132
	Conclusion	134
6	Automating Administrative Tasks	136
	Streamlining Communication and Scheduling	137
	AI-Enhanced Feedback and Grading	148
	Optimizing Paperwork and Recordkeeping Tasks	153
	Conclusion	158

7	Boosting Engagement and Motivation	159
	Intelligent Tutoring Systems	160
	Personalized Learning Pathways	165
	Gamification and Learning Experiences	169
	Debates and Discussions	172
	Executive Functioning and Social-Emotional Learning	176
	Conclusion	180
8	Teaching Students about AI	181
	Responsible and Ethical Use of AI	182
	Digital Citizenship in the AI Era	187
	Refining and Iterating on AI-Generated Content	190
	Addressing AI-Related Misinformation and Bias	193
	Conclusion	196
9	Ethical Considerations for AI in Education	198
	Reducing, Not Expanding, the Achievement Gap	200
	Addressing the Digital Divide and Ensuring Access	204
	Protecting Student Privacy and Data Security	206
	Conclusion	208
10	Teacher Professional Development in the AI Era	210
	The Importance of Continued Adaptation and Growth	211
	Essential AI Competencies for Educators	213
	Leveraging AI for Personal and Professional Development	214
	Conclusion	216
11	Adapting and Growing with AI in Education	218
